*The approaching Season obliges me to recommend to you ... to use your utmost Efforts for furnishing the Virginia Troops with Clothing. You will therefore ... adopt ... Measures to send them down immediately—As their Troops are to take the Right of the whole Army you will judge how necessary it is that they be enabled to make a decent if not a respectable Figure ....*

Governor Thomas Nelson, Jr. to Colonel William Davies,  
Commissioner of the War Office, September 23, 1781

Nearly 40 percent of the American forces at Yorktown were Virginia Militia troops. Brigadier General Thomas Nelson, Jr., who was also Virginia's governor, commanded the militia while also coordinating the state's efforts to supply food and military supplies to the American and French armies.

Militia units, the forerunner of the National Guard, were organized by their home counties, and served for short durations under state orders to meet immediate threats to their state. Over 3,500 men served with the Virginia Militia during the siege, providing labor to build fortifications, helping to man the siege lines, herding cattle to the encampments, and after the siege, escorting Cornwallis's army to prison camps.

After the siege, the units were demobilized. Despite the importance of their service, some of these men did not qualify for a pension based on their military service until 1832, over 50 years after the victory at Yorktown.

Nelson, a life-long resident of Yorktown, made many contributions towards gaining independence. Signer of the Declaration of Independence, he sacrificed his health and personal fortune for the war effort. Two weeks after the victory at Yorktown, he resigned as governor and died from health complications in 1784.

Lanning,2021-11-30 In this enlightening and informative work military historian and author Lt Col Michael Lee Lanning reveals the under acknowledged critical and heroic role both enslaved and free African Americans played in the American Revolution while serving despite racism in integrated units An invaluable perspective for readers of American history military history and for all Americans as discrimination remains a central issue At first neither George Washington nor the Continental Congress approved of enlisting African Americans in the new army Nevertheless Black men both slave and free filled the ranks and served in all of the early battles Black sailors also saw action in every major naval battle of the Revolution

including members of John Paul Jones's crew aboard the *Bonhomme Richard*. At least thirteen Black Americans served in the newly formed U.S. Marine Corps during the war. Bravery among African Americans was commonplace as recognized by their commanders and state governments and their bravery is recorded here in the stories of citizen Crispus Attucks at the Boston Massacre, militiaman Price Esterbrook at Lexington Green, soldier Salem Poor at Bunker Hill, and marine John Martin aboard the brig *Reprisal*. As interest in colonial history enjoys renewed popularity due to works like *Hamilton* and the issues of prejudice and discrimination remain at the forefront of our times, *African Americans in the Revolutionary War* offers an invaluable perspective on a crucial topic that touches the lives of Americans of every color and background.

**American Generals of the Revolutionary War** Robert P. Broadwater, 2024-10-17 At the outbreak of the American Revolution in 1775 the colonies faced the daunting task of creating the first American army and its requisite leadership capable of combating a global superpower whose standing army and general ship were among the finest in the world. Built largely from state and local militias, the colonial army performed surprisingly well and produced a number of fine generals. Some were experienced before the war like George Washington of the Virginia Militia and the British-born Horatio Gates, while others were as green as the soldiers they led. This book presents basic biographical information about America's first generals in the Revolutionary War. Included are all generals of the Continental Army along with those commissioned in the colonies' militias. Drawn from primary sources including death and census records, records of the Continental Congress, and contemporary writings, each biographical sketch provides date and place of birth, prewar education and occupation, wartime service, date and place of death, and place of burial. Portraits of each general are included where available, and appendices display important statistics including comparative ages, occupations, officers lost by death, resignation, murder, or changing loyalty, and states or countries of origin.

**Early Western Augusta Pioneers** George W. Cleek, 2009-06 From its establishment in 1745, Augusta County, Virginia, served as a haven for Scotch-Irish, German, and to a lesser extent, English immigrants who failed to find economic opportunity or religious freedom in the colonial settlements along the Middle Atlantic coastline. This little-known but important work contains detailed genealogies of the twenty families mentioned in the title of the work who settled in that region of old western Augusta that today encompasses Bath and Highland counties, Virginia. In addition to the family histories, the compiler has provided introductory chapters on the history of German and Scotch-Irish settlement to the region, a table of family members who fought in the Colonial, Revolutionary, and Civil Wars, and a full name index with approximately 10,000 entries.
