Visions Of Virtue In Tokugawa Japan The Kaitokudo Merchant Academy Of Osaka:

Visions of Virtue in Tokugawa Japan Tetsuo Najita, 2021-05-25 No detailed description available for Visions of Virtue in Tokugawa Japan **Visions of Virtue in Tokugawa Japan** Tetsuo Najita, 1987 **Visions of Virtue in Tokugawa Japan** Tetsuo Najita, 1987 **The Mercantile Ethical Tradition in Edo Period Japan** Ichiro Horide, 2019-07-04 This book demonstrates that during Japan's early modern Edo period 1603-1868 an ethical code existed among the merchant class comparable to that of the well known Bushido. There is compelling evidence that contemporary merchants who were widely and openly despised as immoral by the samurai in fact acted in highly ethical ways in accordance with a well articulated moral code. Japanese society was strictly stratified into four distinct and formally recognized classes: warrior, farmer, craftsman, and merchant. From the warriors' perspective, the merchants at the base of the social order had no virtue and existed only to skim profits as middlemen between producers and consumers. But were these accusations correct? Were the merchants really unethical beings who engaged in unfair business practices? There is ample evidence that negates the ubiquitous slanders of the warrior class and suggests that merchants no less than the warriors possessed and acted in accordance with a well developed ethical code, a spirit that may be called shonindo or The Way of the Merchant. This book examines whether a comparison of shonindo depicting the ethical point of view of the merchant class and Bushido embodying that of the warrior class reveals that shonindo may have in fact surpassed Bushido in some aspects. Comparing contemporarily published historical documents concerning both shonindo and Bushido as well as Inazo Nitobe's classic work Bushido The Soul of Japan published in 1900, the author examines how Bushido surpassed shonindo in that warriors were willing to die for their strict ethical code. Shonindo however may have surpassed Bushido in that merchants were liberal willing to expand and extend application of their ethical beliefs into all aspects of everyday life for the overall benefit of society. This ethical code is compared with that of the conservative Bushido which demonstrably proved not up to the task for the modernization and improved well being of Japan. Ichiro Horide is professor emeritus of Reitaku University. Edward Yagi, Reitaku University and Stanley J Ziobro II, Trident Technical College collaborated in the translation of the original Japanese manuscript into English. **Transformations Of The Confucian Way** John Berthrong, 2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world. John Berthrong's comprehensive new work tells the story of the grand intellectual development of the Confucian tradition, revealing all the historical phases of Confucianism and opening the reader's eyes to the often neglected gifts of scholars of the Han, Tang, and the modern periods as well as to the vast contributions of Korea and Japan. The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West.
