Vulnerable Places Vulnerable People Vulnerable Places Vulnerable People:

Vulnerable Places, Vulnerable People Jonathan A. Cook, 2010-01-01 The case studies and subsequent summarizing discussions provide interesting insights on the many interactions of trade poverty and the environment digestible also for those without an academic background in economics Quarterly Journal of International Agriculture While some argue that trade liberalization has raised incomes and led to environmental protection in developing countries others claim that it generates neither poverty reduction nor sustainability The detailed case studies in this book demonstrate that neither interpretation is universally correct given how much depends on specific policies and institutions that determine on the ground outcomes Drawing on research from six countries around the developing world the book also presents the unique perspectives of researchers at both the world s largest development organization The World Bank and the world s largest conservation organization World Wildlife Fund on the debate over trade liberalization and its effects on poverty and the environment The authors trace international trade rules and events down through national development contexts to investigate on the ground outcomes for real people and places The studies underscore the importance of evaluating trade from a perspective that pays attention to environmental and social vulnerability and understands the linkages between poverty reduction and environmental protection The lessons drawn provide a critical first step in developing the appropriate response options needed to ensure that trade plays a positive role in promoting truly sustainable development Academics and students in environmental economics development economics and agriculture as well as policymakers and those in development institutions will appreciate this groundbreaking work *A Companion to Health and Medical Geography* Tim Brown, Sara McLafferty, Graham Moon, 2009-11-19 This Companion provides a comprehensive account of health and medical geography and approaches the major themes and key topics from a variety of angles Offers a unique breadth of topics relating to both health and medical geography Includes contributions from a range of scholars from rising stars to established internationally renowned authors Provides an up to date review of the state of the sub discipline Thematically organized sections offer detailed accounts of specific issues and combine general overviews of the current literature with case study material Chapters cover topics at the cutting edge of the sub discipline including emerging and re emerging diseases the politics of disease mental and emotional health landscapes of despair and the geography of care **One Billion Hungry** Gordon Conway, 2012-10-16 Hunger is a daily reality for a billion people More than six decades after the technological discoveries that led to the Green Revolution aimed at ending world hunger regular food shortages malnutrition and poverty still plague vast swaths of the world And with increasing food prices climate change resource inequality and an ever increasing global population the future holds further challenges In *One Billion Hungry* Sir Gordon Conway one of the world s foremost experts on global food needs explains the many interrelated issues critical to our global food supply from the science of agricultural advances to the politics of food security He expands the discussion begun in his influential *The*

Doubly Green Revolution Food for All in the Twenty First Century emphasizing the essential combination of increased food production environmental stability and poverty reduction necessary to end endemic hunger on our planet Beginning with a definition of hunger and how it is calculated and moving through issues topically both detailed and comprehensive each chapter focuses on specific challenges and solutions ranging in scope from the farmer s daily life to the global movement of food money and ideas Drawing on the latest scientific research and the results of projects around the world Conway addresses the concepts and realities of our global food needs the legacy of the Green Revolution the impact of market forces on food availability the promise and perils of genetically modified foods agricultural innovation in regard to crops livestock pest control soil and water and the need to both adapt to and slow the rate of climate change One Billion Hungry will be welcomed by all readers seeking a multifacted understanding of our global food supply food security international agricultural development and sustainability

City-making, Space and Spirituality Stéphan de Beer,2023-09-29 This book is about the soul of the city embodied in its spaces and people It traces dynamics in inner city neighbourhoods of South Africa s post apartheid capital Pretoria Viewing the city through its most vulnerable people and places it recognizes that urban space is never neutral and shaped by competing value frameworks The first part of the book invites planners city makers and ordinary urban citizens to consider a new self understanding reclaiming their agency in the city making process Through the metaphor of becoming like children planning practice is deconstructed and re imagined A praxis based methodology is presented cultivating four distinct moments of entering reading imagining and co constructing the city After deconstructing urban spaces and discourses the second part of the book explores a concrete spirituality and ethic of urban space It argues for a shift from planning as technocracy to planning as immersed participatory artistry opening up to the genius of space responsive to urban cries and joining to construct new soul full spaces Local communities and interconnected movements become embodiments of urban alternatives through resistance and reconstruction building on local assets animating local reclamations and weaving nets of hope that will span the entire city Providing a concrete methodology for city making that is rooted in a community based urban praxis this book will be of interest to urban planning researchers professional planners and designers and also grass root community developers or activists
