Wisdom Of The Heart New Directions Paperback:

The Wisdom of the Heart Henry Miller, 2016-12-20 An essential collection of writings bursting with Henry Miller's exhilarating candor and wisdom. In this selection of stories and essays, Henry Miller elucidates, revels, and soars, showing his command over a wide range of moods, styles, and subject matters. Writing from the heart, always with a refreshing lack of reticence, Miller involves the reader directly in his thoughts and feelings. His real aim, Karl Shapiro has written, is to find the living core of our world whenever it survives and in whatever manifestation in art, in literature, in human behavior itself. It is then that he sings, praises, and shouts at the top of his lungs with the uncontrollable hilarity he is famous for. Here are some of Henry Miller's best-known writings: an essay on the photographer Brassai, *Reflections on Writing* in which Miller examines his own position as a writer, *Seraphita* and *Balzac*, and *His Double* on the works of other writers, and *The Alcoholic Veteran*, *Creative Death*, *The Enormous Womb*, and *The Philosopher Who Philosophizes*. **Just Wild about Harry** Henry Miller, 1963

A melo melo in seven scenes, *Just Wild About Harry* is Henry Miller's only excursion into playwriting. Harry is pure Miller, welling up from the same abundant love of life and freedom from convention that made its author the dean of writers dedicated to human liberation. Admittedly inspired by Ionesco and the Theatre of the Absurd, Miller's tragicomic slapstick is nevertheless as American as the Marx Brothers and the blues: the simple story of a heartless Harry, the one the ladies are wild about, who learns a bittersweet lesson about life, death, and love. Begun in Europe in 1960, *Just Wild About Harry* was first published by New Directions in 1963. *National Union Catalog*, 1968. Includes entries for maps and atlases. **The Look of the Book** Peter Mendelsund, David J. Alworth, 2020-10-06

Why do some book covers instantly grab your attention while others never get a second glance? Fusing word and image as well as design thinking and literary criticism, this captivating investigation goes behind the scenes of the cover design process to answer this question and more. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW. As the outward face of the text, the book cover makes an all-important first impression. *The Look of the Book* examines art at the edges of literature through notable covers and the stories behind them: galleries of the many different jackets of bestselling books; an overview of book cover trends throughout history; and insights from dozens of literary and design luminaries. Co-authored by celebrated designer and creative director Peter Mendelsund and scholar David Alworth, this fascinating collaboration featuring hundreds of covers challenges our notions of what a book cover can and should be. *Exhibition Catalog*, 1961. **Catalog of Printed Books.**

Supplement Bancroft Library, **Henry Miller** Lawrence J. Shifreen, 1993 *Wild Dreams of a New Beginning* Lawrence Ferlinghetti, 1988. Two acclaimed poetry volumes: *Who Are We Now?* 1976 and *Landscapes of Living and Dying* 1979 are brought together. **The Moderns** Steven Heller, Greg D'Onofrio, 2017-09-19. In *The Moderns*, we meet the men and women who invented and shaped Midcentury Modern graphic design in America. The book is made up of generously illustrated profiles, many based on interviews of more than 60 designers whose magazine, book, and record covers, advertisements, and

package designs posters and other projects created the visual aesthetics of postwar modernity Some were migr s from Europe others were homegrown all were intoxicated by elemental typography primary colors photography and geometric or biomorphic forms Some are well known others are honored in this volume for the first time and together they comprised a movement that changed our design world

The Poetry of Miklós Radnóti Emery Edward George,1986 **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System). The Rationality of Faith Carl Michalson,1963 My goal will be to describe the rationality of the Christian faith Rationality is a contextual concept Inasmuch as the context of the Christian faith is history I will specify its rationality by setting the Christian faith in the context of history alone In pursuing this goal I will necessarily be guided by a great variety of intellectual suggestions Most refreshing of all to me as theologian is the realization that for probably the first time in the history of the church the formulations of theology must now be instructed by the historiographers more than by the philosophers I expect to show how it comes about that Christians and non Christians alike impute to Christianity absurdities which are not really there and how these absurdities may evaporate and give way to solidly redemptive meaning when the question of Christian understanding is rigorously set within the logic of history Introduction
