With Stalin Against Tito Cominformist Splits In Yugoslav Communism:

With Stalin against Tito Ivo Banac, 2018-10-18 In 1948 in a series of moves that culminated in the famous Cominform Resolution Stalin struck at the Communist Party in Yugoslavia provoking the first split in the Communist state system With this long awaited book Ivo Banac becomes the first scholar to assess the domestic consequences of Yugoslavia's expulsion from the Cominform and his findings will radically revise some of our most basic assumptions about Tito's revolution Banac's subject is the nature and fate of those elements in the Yugoslav Communist party who were said to have sided with Moscow against their own country's leadership He demonstrates that the so called Cominformists represented as much as twenty percent of the party membership and had widely divergent aims He then reconstructs the history of the labyrinthine factional struggles that preceded and accompanied the 1948 split and shows that as always the national question played the dominant role in Yugoslav politics After identifying the members of the opposition and mapping its course Banac recounts the harsh repression of the movement He provides massive documentation of startling irony the conflict with Stalin played the same part in the shaping of Yugoslavia's political system as the collectivization and purges of the 1930s did in the history of Soviet communism

The Search for a Cold War Legitimacy: Foreign Policy and Tito's Yugoslavia Robert Edward Niebuhr, 2018-01-03 Titoist Yugoslavia is a particularly interesting setting to examine the integrity of the modern nation state especially the viability of distinctly multi ethnic nation building projects Scholarly literature on the brutal civil wars that destroyed Yugoslavia during the 1990s emphasizes divisive nationalism and dysfunctional politics to explain why the state disintegrated But the larger question remains unanswered just how did Tito's state function so successfully for the preceding forty six years In an attempt to understand better what united the stable multi ethnic and globally important Yugoslavia that existed before 1991 Robert Niebuhr argues that we should pay special attention to the dynamic and robust foreign policy that helped shape the Cold War

Stalin and the Cold War in Europe Gerhard Wettig, 2008 The Cold War was a unique international conflict partly because Josef Stalin sought socialist transformation of other countries rather than simply the traditional objectives This intriguing book based on recently accessible Soviet primary sources is the first to explain the emergence of the Cold War and its development in Stalin's lifetime from the perspective of Soviet policy making The book pays particular attention to the often neglected societal dimension of Soviet foreign policy as a crucial element of the genesis and development of the Cold War It is also the first to put German postwar development into the context of Soviet Cold War policy Stalin vainly tried to mobilize the Germans with slogans of national unity and then to discredit the West among the Germans by forcing the surrender of Berlin Further attempts to prevail deadlocked him into a confrontation with the newly united Western powers Comparing Stalin's internal statements with Soviet actions Gerhard Wettig draws original conclusions about Stalin's meta plans for the regions of Germany and Eastern Europe This fascinating look at Soviet politics during the Cold War provides readers with new insights into Stalin's willingness to initiate crisis with the West while still avoiding military conflict
