Within Walls Private Life In The German Democratic Republic:

Within Walls Paul Betts, 2012-11-22 A history of private life in the German Democratic Republic showing how the private sphere assumed central importance in the GDR from the very outset and revealing the myriad ways in which privacy was expressed staged and defended by citizens living in a communist society [Private Life and Privacy in Nazi Germany](#) Elizabeth Harvey, Johannes Hürter, Maiken Umbach, Andreas Wirsching, 2019-07-18 Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy **The German Democratic Republic** Peter Grieder, 2012-11-02 A clear concise and thought provoking introduction to the history of East Germany which engages critically with key debates and advances new interpretations of the origins development and demise of the GDR Peter Grieder also offers an original conceptualization of the GDR as a totalitarian welfare state **Becoming East German** Mary Fulbrook, Andrew I. Port, 2013-09-01 For roughly the first decade after the demise of the GDR professional and popular interpretations of East German history concentrated primarily on forms of power and repression as well as on dissent and resistance to communist rule Socio cultural approaches have increasingly shown that a single minded emphasis on repression and coercion fails to address a number of important historical issues including those related to the subjective experiences of those who lived under communist regimes With that in mind the essays in this volume explore significant physical and psychological aspects of life in the GDR such as health and diet leisure and dining memories of the Nazi past as well as identity sports and experiences of everyday humiliation Situating the GDR within a broader historical context they open up new ways of interpreting life behind the Iron Curtain while providing a devastating critique of misleading mainstream scholarship which continues to portray the GDR in the restrictive terms of totalitarian theory **Architecture, Politics, and Identity in Divided Berlin** Emily Pugh, 2014-03-21 On August 13 1961 under the cover of darkness East German authorities sealed the border between East and West Berlin using a hastily constructed barbed wire fence Over the next twenty eight years of the Cold War the Berlin Wall grew to become an ever present physical and psychological divider in this capital city and a powerful symbol of Cold War tensions Similarly stark polarities arose in nearly every aspect of public and private life including the built environment In *Architecture Politics and Identity in Divided Berlin* Emily Pugh provides an original comparative analysis of selected works of architecture and urban planning in both halves of Berlin during the Wall era revealing the importance of these structures to the formation of political cultural and social identities Pugh uncovers the roles played by organizations such as the Foundation for Prussian Cultural Heritage and the Building Academy in conveying the political narrative of their respective states through constructed spaces She also provides an overview of earlier notable architectural works to show the precursors for design aesthetics in Berlin at large and considers projects in the post Wall period to demonstrate the ongoing effects of the Cold War Overall Pugh offers a compelling case study of a divided city poised between powerful contending political and ideological forces and she highlights the effort expended by each side to

influence public opinion in Europe and around the World through the manipulation of the built environment **Feminist Transformations and Domestic Violence Activism in Divided Berlin, 1968-2002** Jane Freeland, 2024-07-19 This is the first in depth historical study of feminist activism against domestic violence in divided Berlin between 1968 and 2002 Starting in the 1970s feminists in West and then East Berlin campaigned against domestic violence as a key issue of women s inequality They exposed the harmful gender norms that left women unprotected and vulnerable to abuse in the home and called for this to change Indeed domestic violence has been one of the issues most effectively addressed by the women s movement in Germany Since the first shelter opened in West Berlin in 1976 women s shelters have spread throughout the country and today up to 45 000 women a year turn to emergency housing in Germany with many more accessing helplines and crisis centres Situating domestic violence activism within a broader history of feminism in post war Germany Feminist Transformations traces the evolution of this movement both across political division and reunification and from grassroots campaign to established professionalised social service In doing so it brings the histories of feminism in East and West Berlin together for the first time and explores how feminism successfully changed women s rights in Germany But it also asks what popular and political support for domestic violence activism has meant for feminism and the advancement of women s rights more broadly Examining the trajectory of feminism in Germany Jane Freeland reveals the limitations of gender equality as advancements in women s rights were often built on the reassertion of patriarchal gender roles Outside the "Comfort Zone" Tatiana Klepikova, Lukas Raabe, 2020-07-06 Traditionally privacy studies have focused on the liberal democratic societies of the global West whereas non democratic contexts have played a marginal role in the discussion of the private and public spheres not in the least because of the political stances of the Cold War era This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally economically and politically specific constructions of late socialism in individual states of the Warsaw Pact While the experience of socialism varied across the Bloc there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states Contributions to this volume take us across the Eastern Bloc and beyond it from the Soviet Union into late socialist Poland Romania and East and West Germany While looking at specific countries they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states Together these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc thereby contributing to rethinking Cold War rhetoric in regard to these states **The Socialist Good Life** Cristofer Scarboro, Diana Mincyte, Zsuzsu Gille, 2020-06-02 First class rigorously researched richly documented and thought provoking essays on the consumer experience in socialist Eastern Europe Graham H Roberts author of Material Culture in Russia and the USSR As communist regimes denigrated Western countries for widespread unemployment and consumer excess socialist Eastern European states

simultaneously legitimized their power through their apparent ability to satisfy consumers needs Moving beyond binaries of production and consumption the essays collected here examine the lessons consumption studies can offer about ethnic and national identity and the role of economic expertise in shaping consumer behavior From Polish VCRs to Ukrainian fashion boutiques tropical fruits in the GDR to cinemas in Belgrade The Socialist Good Life explores what consumption means in a worker state where communist ideology emphasizes collective needs over individual pleasures *The Contemporary Review*, 2011 **Michigan State Journal of International Law**, 2013 *Everyday Subversion* Kerry Kathleen Riley, 2008 Tracing the evolution of grassroots social movements in the former German Democratic Republic GDR this work reveals the democratically spirited subversive forms of communication that were practiced behind the Wall before it fell on November 9 1989 Réinventer le monde Roman Krakovský, 2014 Au lendemain de la Seconde Guerre mondiale les nouveaux r gimes centre est europ ens promettent des peuples d sabus s d accomplir une v ritable r volution sociale et de faire advenir un monde nouveau La transformation des mani res de penser et de vivre l espace et le temps est au coeur de cette entreprise La planification est cens e produire une acc l ration du temps les nouvelles sociabilit s rompre avec le rythme hebdomadaire s culier Les transferts de propri t bouleversent le fonctionnement de l espace public et r duisent la sph re priv e peau de chagrin Dans la culture politique l espace temps met en sc ne les nouvelles valeurs du r gime et la vision d une soci t venir travers l exemple tch coslovaque Roman Krakovsk explore comment le pouvoir communiste a voulu dominer les mani res de penser et d agir en changeant les cadres sociaux et comment les populations l ont v cu et y ont r agi au quotidien En reconstituant l horizon temporel et spatial de l individu sous le communisme il fait appara tre les contours de la derni re grande tentative europ enne de r inventer le monde **Twelve Artists from the German Democratic Republic** Peter Nisbet, 1989 *Demokratie im Schatten der Gewalt* Daniel Fulda, 2010 Die Geschichte Europas im 20 Jahrhundert bewegt sich zwischen zwei Extremen Auf der einen Seite der Absturz im Krieg und V lkermord auf der anderen die R ckkehr zu Frieden und Demokratie Die Forschung hat sich bislang vorwiegend mit dem Weg der Deutschen in den Nationalsozialismus hinein besch ftigt und wenig damit wie sie aus dieser Gewaltgeschichte wieder herausgefunden haben Wie verlief im Schatten der Teilhabe an Vernichtungskrieg und V lkermord die private Suche der Deutschen nach der Demokratie als Lebensform Worin unterscheiden sich literarische und historiographische Perspektiven auf den deutschen Nachkrieg **Walls and Mirrors** Duncan Smith, 1988-02-11 In this study the author examines the socialist society of the German Democratic Republic Throughout the book questions are raised about the nature of representation the role of subjectivity in ideological formations and especially the role of such subjectivity when westerners attempt to tell the objective truth about socialist societies Neue Bücher und Aufsätze in der Bibliothek Germany. Bundestag. Bibliothek, 2011 **Zeitschrift für Geschichtswissenschaft**, 2011 **Bending Spines** Randall L. Bytwerk, 2004-07-31 Why do totalitarian propaganda such as those created in Nazi Germany and the former German Democratic Republic initially succeed and why do they ultimately

fail Outside observers often make two serious mistakes when they interpret the propaganda of this time First they assume the propaganda worked largely because they were supported by a police state that people cheered Hitler and Honecker because they feared the consequences of not doing so Second they assume that propaganda really succeeded in persuading most of the citizenry that the Nuremberg rallies were a reflection of how most Germans thought or that most East Germans were convinced Marxist Leninists Subsequently World War II Allies feared that rooting out Nazism would be a very difficult task No leading scholar or politician in the West expected East Germany to collapse nearly as rapidly as it did Effective propaganda depends on a full range of persuasive methods from the gentlest suggestion to overt violence which the dictatorships of the twentieth century understood well In many ways modern totalitarian movements present worldviews that are religious in nature Nazism and Marxism Leninism presented themselves as explanations for all of life culture morality science history and recreation They provided people with reasons for accepting the status quo Bending Spines examines the full range of persuasive techniques used by Nazi Germany and the German Democratic Republic and concludes that both systems failed in part because they expected more of their propaganda than it was able to deliver *Mass Media in the Federal Republic of Germany* Hermann Meyn, 1994 **Harper's Weekly** John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1868
