Credit Book Produce Reporter Company, 1916 Black Bodies That Matter James Garrison, 2024-12-15 Responding to interconnected tragedies affecting minority populations in America Black Bodies That Matter Mourning Rage and Beauty brings together the Black Lives Matter movement with the framework developed by Judith Butler in Bodies That Matter Butler's analysis of subject life as a kind of melancholy preempted mourning where loss itself is lost and her advocacy of public forms of grieving like the AIDS Quilt which brings lost lives out of the shadows highlight the problematic connection between memory and loss when it comes to subjects who do not fully matter as they should Taking her remarks on public memorials like the AIDS Quilt her reading of Michel Foucault's idea of the subject as a self surveilling prisoner and her examination of Louis Althusser's scene where the voice of police authority bellows Hey you there and creates the you that turns around beholden to conscience James Garrison examines resonances with black experience in America which itself is marked by violence surveillance imprisonment and encounters with the ominous voice of police authority Investigating a wide array of black cultural expression Black Bodies That Matter brings new insight to how mourning vulnerability and invulnerability rage and beauty connect to human dignity and the depth and breadth of black loss Technology in Services National Academy of Engineering, 1988-02-01 Beginning by dispelling some of the myths about services this provocative volume examines the growth in services the way technology has shaped this growth and the consequences for the American economy Chapters discuss such topics as the effects of technology on employment patterns and wages international trade in services and the relationship between services and the traditional manufacturing industries **Beyond the Living Dead** Bruce Peabody, Gloria Pastorino, 2021-09-13 In 1968 George Romero's film Night of the Living Dead premiered launching a growing preoccupation with zombies within mass and literary fiction film television and video games Romero's creativity and enduring influence make him a worthy object of inquiry in his own right and his long career helps us take stock of the shifting interest in zombies since the 1960s Examining his work promotes a better understanding of the current state of the zombie and where it is going amidst the political and social turmoil of the twenty first century These new essays document interpret and explain the meaning of the still budding Romero legacy drawing cross disciplinary perspectives from such fields as literature political science philosophy and comparative film studies Essays consider some of the sources of Romero's inspiration including comics science fiction and Westerns chart his influence as a storyteller and a social critic and consider the legacy he leaves for viewers artists and those studying the living dead Mastering Fear Rikke Schubart, 2018-07-12 Mastering Fear analyzes horror as play and examines what functions horror has and why it is adaptive and beneficial for audiences It takes a biocultural approach and focusing on emotions gender and play it argues we play with fiction horror In horror we engage not only with the negative emotions of fear and disgust but with a wide range of emotions both positive and negative The book lays out a new theory of horror and analyzes female protagonists in contemporary horror from child to

teen adult middle age and old age Since the turn of the millennium we have seen a new generation of female protagonists in horror There are feisty teens in The Vampire Diaries 2009 2017 troubled mothers in The Babadook 2014 and struggling women in the New French extremity with Martyrs 2008 and Inside 2007 At the fuzzy edges of the genre are dramas like Pan's Labyrinth 2006 and Black Swan 2010 and middle age women are now protagonists with Carol in The Walking Dead 2010 and Jessica Lange's characters in American Horror Story 2011 Horror is not just for men but also for women and not just for the young but for audiences of all ages

National perspectives on a multipolar order Benjamin Zala, 2021-10-26 The global distribution of power is changing But how should we make sense of this moment of transition With the rise of new powers and the decline of seemingly unchallenged US dominance in world politics a conventional wisdom is gaining ground that a new multipolar order is taking shape Yet multipolarity an order with multiple centres of power is variously used as a description of the current distribution of power of the likely shape of a future global order or even as a prescription for how power should be distributed in the international system To understand the power of the different and sometimes competing narratives on offer today about the changing global order a global perspective is necessary This book explores how the concept of a multipolar order is being used for different purposes in different national contexts From rising powers to established powers contemporary debates are analysed by a set of leading scholars to provide in depth insight into the use and abuse of a widely employed but rarely explored concept

Behind the Swap Andrew DeJoy, 2022-05-10 Andrew DeJoy's Behind the Swap offers a middle office perspective on the risks and miscommunications in post trade processing and provides a framework and solutions for a better approach In August of 2020 Citibank made one of the worst mistakes in banking history it accidentally sent out almost 900 million of its own funds Many of the recipients didn't give back the money Citibank sued And a federal court ruled that the recipients could keep the funds Citibank's error is not surprising The underlying contributors that led to the mistaken payment permeate the global financial services industry Manual data entry decades old technological infrastructure inadequate training and systems that can't interact with one another are just a few of the problems that face post trade processing the machinery behind financial markets Unfortunately years of neglect by regulators and financial institutions themselves has left this infrastructure needlessly complex astoundingly inefficient frequently inaccurate and woefully inadequate for modern financial markets The problems are easy to see but difficult to admit For financial institutions the current system costs billions of dollars each year in labor systems maintenance and lost funds For regulators the current system precludes the ability to track systemic risk It also artificially inflates the stability of the global financial system For lawyers and prosecutors the current system allows ample opportunity for unlawful misconduct such as rogue trading and fraud Andrew DeJoy's Behind the Swap examines the risks involved in post trade processing in swaps and derivative markets and provides solutions to better control those risks While Andrew doesn't claim to have all the answers he does believe there is a better system that is both achievable and necessary

Cybernetic

Capitalism Jan Overwijk,2025-01-07 This book offers a conceptual interrogation of how capital navigates its cybernetic environment Taking an immanent perspective the book develops a unique synthesis between Niklas Luhmann's systems theory and the critical theory tradition Overwijk shows how neoliberal capitalism's version of rationalization depends on the organization and management of society on the basis of cybernetic principles Overwijk seeks to update earlier critiques of cybernetic capitalism that stressed the system's colonization of its environment its making the entirety of social life communicable Under today's cybernetic rationalization things are radically different Neoliberal political economy aims to incite the incalculability of the market platform capitalists venture to capitalize on the unpredictable efforts of their users and post Fordist management seeks to encourage the creativity of service workers As this book uniquely shows capital no longer aims at total communicability but instead seeks to provoke and exploit the incommunicability of its environment In this sense it offers an ecological theory of capitalism laying conceptual the groundwork for understanding the extractivist logic of the Anthropocene Cybernetic Capitalism shows how the cultural obsession with incommunicability that animates cybernetic rationalization has taken an irrationalist turn resurfacing in the mysticism of conspiracy theory and radical right politics The book offers a novel and compelling materialist interpretation of today's paradoxical connections between neoliberal rationalism and radical right irrationalism **Master Of Pleasure (Mills & Boon Modern)** Penny
