**Words and Witnesses** Robert Woods, Robert H. Woods, Jr., Naaman K. Wood, 2018-01-01 How should Christians address specific problems controversies and crises in communication today By looking at influential Christian thinkers throughout history we can identify wisdom that enriches us today in practical ways Words and Witnesses explores various influential Christian thinkers and theologians from across church history in order to expand our contemporary conversations in communication studies and media theory Individual chapters written by contributing scholars focus on major Christian thinkers starting with Athanasius St Augustine and John Chrysostom moving through the Middle Ages to address figures such as Anselm Nicholas of Cusa Teresa of Lisieux and arriving in the present with reflections on the work of John Howard Yoder C S Lewis Martin Luther King Jr Abraham Kuyper and Desmond Tutu among others Each chapter

delves into how the contemporary church and scholars of media can turn to these influential Christian thinkers as resources for addressing specific problems in communication today By analyzing church practices doctrine and biblical texts this book provides the church with resources and inspiration to communicate in distinctly Christian ways      **Witness Is Presence** Miika Tolonen,2014-01-07 In a postsecular cultural situation the conditions for understanding and communicating a Christian tradition have changed None of the established religions can any longer claim monopoly in the marketplace of religions A claim of this study is that a postsecular situation characterized among other things by dwindling memberships in established churches as well as a new visibility of alternative religious expressions opens up a need to reflect on alternative ways of understanding Christianity in its context This study focuses on the question how can a Christian tradition be communicated understandably in a postsecular context In traditional terms how can Christian witness be understood in our situation It is to this need according to this study that the ecclesiology of Stanley Hauerwas provides a meaningful perspective This perspective becomes relevant because in a postsecular context a Christian church even a folk church cannot assume to be in a position of majority or power There is therefore a need to ask how to understand Christianity as a community of witness that is neither in power nor a majority The study suggests that embodiment of Christian convictions becomes a central factor in a meaningful postsecular notion of witness      **A JOURNEY THROUGH TIME** Elizabeth Fretty,2023-06-23 Sophia led a rebellion that fought for years and ultimately achieved freedom for her people Her legacy lived on inspiring others to stand up for what is right A statue was erected in her honor and people from all over the world came to pay their respects Elena a nurse who grew up in poverty joined the resistance when war broke out in her country She learned the importance of hope freedom and resilience as she fought for her people Elena s legacy of hope was passed on to a new generation inspiring them to continue the fight for what is right As she sat on her porch surrounded by the peace and beauty she helped create Elena knew her journey was complete and her legacy would live on      **Global Witness Through Weakness** Joseph M. Lear,2025-04-18 The apostle Paul is recognized as the paramount example of what it means to be a Christian missionary committed to the cause of Christ In his Second Epistle to the Corinthians we read of the struggles he endured in establishing the church in Corinth These struggles gave rise to his expos of his own paradoxical life and ministry based on his firm conviction that strength only comes through weakness Paul in his confessed weakness poured out his life as a participant in the sufferings and death of the Savior He believed that only in such participation would resurrection grace and power be released for the salvation of lost humanity This letter is a powerful blueprint for missionary training institutes and sending agencies as they prepare select and send missionaries to the four corners of the earth      **Lesslie Newbigin** Geoffrey Wainwright,2000-10-19 This book offers an intellectual and spiritual biography of Lesslie Newbigin a figure of patristic proportions in the twentieth century history of the Church Drawing on thirty five years of personal and literary acquaintance with his subject and on a thorough examination of the Newbigin archives Geoffrey Wainwright crafts a rich and varied

*Communities of Memory* William James Booth, 2018-07-05 Memory has fueled merciless violent strife and it has been at the core of reconciliation and reconstruction. It has been used to justify great crimes and yet it is central to the pursuit of justice. In these and more everyday ways we live surrounded by memory individual and social in our habits, our names, the places where we live, street names, libraries, archives, and our citizenship institutions and laws. Still we wonder what to make of memory and its gifts, though sometimes we are hardly even certain that they are gifts. Of the many chambers in this vast palace I mean to ask particularly after the place of memory in politics, in the identity of political communities, and in their practices of doing justice. From the Preface W. James Booth seeks to understand the place of memory in the identity, ethics, and practices of justice of political communities. Identity, he believes, is a particular kind of continuity across time, one central to the possibility of agency and responsibility, and memory plays a central role in grounding that continuity. Memory, identity, takes two forms: a habitlike form, the deep presence of the past that is part of a life led in common, and a more fragile, vulnerable form in which memory struggles to preserve identity through time, notably in bearing witness. A form of memory work, deeply bound up with the identity of political communities, Booth argues that memory holds a defining place in determining how justice is administered. Memory is tied to the very possibility of an ethical community, one responsible for its own past, able to make commitments for the future, and driven to seek justice. Underneath and motivating the politics of memory, understood as contests over the writing of history, over memorials, museums, and canons, he writes, there lies an intertwining of memory, identity, and justice. *Communities of Memory* both argues for and maps out that intertwining.
