matters most This is one of the few books on the subject matter of law enforcement management and organizations that is bound to have an impact beyond the semester in which it is read Harald Otto Schweizer Ph D Associate Professor of Criminology California State University Fresno This excellent book examines pathologies in law enforcement organizations using contemporary cases as well as classic cases whose implications for police management remain fresh today Whether writing about law enforcement intelligence failures before and after 9 11 racial profiling renegade officers who dishonor the badge or failed police operations where communications oversight and supervision broke down this book is full of sharp insights about how police agencies can work better This book should be required reading so that present and future law enforcement managers can better understand and address organizational dysfunctions before they erupt into critical incidents Michael C Walker Police Director City of Paterson New Jersey Police and Assistant Professor Passaic County Community College A must reading for anyone who wants a window into the multiple sources of law enforcement organizational failures O Hara s volume is an insightful and important contribution to the field Eli B Silverman Professor Emeritus John Jay College of Criminal Justice Author of NYPD Battles Crime Innovative Strategies in Policing In each chapter the defects in the law enforcement organizations begin to emerge with shocking clarity O Hara uses these examples to provide law enforcement with the tools necessary to change the structural behavioral and technical errors of the past especially useful in any criminal justice course that discusses police and police behaviors The book is meant for everyone but those who are already in law enforcement or planning to be should keep this book in mind It is filled with many situations from which one can learn valuable lessons and it is replete with suggestions that should be taken to heart ACJS Today More than a dozen case studies from the 1980s to the present examine many topics from 9 11 related law enforcement failures to racial profiling rogue cops who dishonor the badge and failures of the FBI Lab These case studies capture the reader s attention and help to clearly delineate the multiple sources of police agency organizational failures O Hara not only points out the problems and issues that confront law enforcement organizations but suggests remedies as well He writes in a clear concise manner and anyone involved in law enforcement management would be well advised to read this book
