Women And Politics In A Global World:

Women and Politics in a Global World Sarah Henderson, Alana S. Jeydel, 2014 *Women and Politics in a Global World* Third Edition is the only text that offers a cross national and comparative examination of the impact of women on politics and the impact of politics on women Sarah L Henderson and Alana S Jeydel carefully consider women s participation in institutionalized politics social protest and nationalist fundamentalist and revolutionary movements To help make the material more accessible to students the authors unify their discussions around four core areas The assurance of women s safety and autonomy Reproductive rights and health care for mothers and children Equal access to employment and public resources Women s access to political institutions and positions of authority

Participation and Protest Sarah Henderson, Alana S. Jeydel, 2007 Despite increased international rhetoric in support of women s equality women currently comprise a disproportionate share of the world s illiterate poor displaced underpaid underemployed and underrepresented populations And though women have gained visibility and influence in a wide array of political and economic arenas their position and status in society are still far from equal to those of men On the other hand since the post World War II era there has been a global explosion of women s activism on behalf of equality liberation and better living conditions women are standing up not only for themselves but also for other disempowered groups

Women and Gender in International History Karen Garner, 2018-06-28 Most governments and global political organizations have been dominated by male leaders and structures that institutionalize male privilege As *Women and Gender in International History* reveals however women have participated in and influenced the traditional concerns of international history even as they have expanded those concerns in new directions Karen Garner provides a timely synthesis of key scholarship and establishes the influential roles that women and gender power relations have wielded in determining the course of international history From the early 20th century onward women have participated in state to state relations and decisions about when to pursue diplomacy or when to go to war to settle international conflicts Particular women as well as masculine and feminine gender role constructs have also influenced the establishment and evolution of intergovernmental organizations and their political social and economic policy making regimes and agencies Additionally feminists have critiqued male dominated diplomatic establishment and intergovernmental organizations and have proposed alternative theories and practices This text integrates women and gender and feminist analyses into the study of international history in order to produce a broader understanding of processes of international change during the 20th and 21st centuries

Women, Politics, and Power Pamela Paxton, Melanie M. Hughes, 2015-12-30 *Women Politics and Power A Global Perspective* Third Edition provides a clear detailed introduction to women s political participation and representation across a wide range of countries and regions Through broad statistical overviews and detailed case study accounts authors Pamela Paxton and Melanie M Hughes document both historical trends and the contemporary state of women s political strength Readers see the cultural structural political and international

influences on women's access to political power and the difference women make once in political office. The text acknowledges differences among women through attention to intersectionality and women from marginalized groups.

Politics @ global-world . intl J-G Matuszek, 2024-05-11 In today's interconnected world no country can afford to be isolated or to ignore the challenges and opportunities presented by international politics. Issues such as climate change, trade agreements, global security threats and humanitarian crises all require coordinated efforts and cooperation between nations. Ignoring these issues or pursuing short-sighted policies can have dire consequences for a country's future viability. It is therefore crucial for citizens to be well informed about international affairs and to support political leaders who prioritize diplomacy, collaboration and long-term planning. By voting for candidates and parties that advocate for responsible and forward-thinking policies on the global stage, citizens can play a vital role in shaping their country's future trajectory and ensuring its success in a rapidly changing world.

The Globalized Woman Christa Wichterich, 2000-02 Globalization creates growth without jobs in the North, structural adjustment in the South, privatization in the East and the dismantling of states everywhere. The author of this extraordinary book uses a mixture of case studies, examples and quotations to illustrate some hard facts. She looks at women across the world to show how their lives have been turned upside down by industrialization in the South and a return to homeworking in the North. From New York to Phnom Penh, from Moscow to Dakar, we see the devastating effects of the unfettered power of transnational corporations on women's lives.

Weiss, Rorden Wilkinson, 2013-10-15 Featuring a strikingly diverse and impressive team of authors this is the most comprehensive textbook available for courses on international organizations and global governance This book covers the history theories structure activities and policies of both state centred institutions and non state actors in global politics *New Books on Women and Feminism* ,2006 A Report on Large Landholdings in Southern California, with Recommendations California Commission of Immigration and Housing, 1919 Women and Politics Malliga Och, 2023-02-14 Focusing on the distinct identities and diverse lived experiences of women in a wide range of countries and cultures this book provides a comprehensive overview of women in local regional and national politics around the world Woman and Politics takes on the historical challenges women have and continue to face and the victories they have achieved in political cultures and structures around the world The introduction walks readers through the key issues pressing concerns and foremost questions that researchers confront in their studies of women in various political roles across the globe The remainder of the book divided into eight chapters covers such topics as women's suffrage the status of women in politics today women as national leaders barriers to women's political representation and others Leading experts and emerging scholars come together in this volume to ask and provide answers to the question of why gender parity is so important in politics They answer that only women who as a group have a distinct

identity and lived experiences that differ from men's collective identities and interests can accurately represent themselves both at home and on the world stage

Gender Politics in Global Governance Mary K. Meyer, Elisabeth Prügl, 1999 This volume draws together a wide range of exciting new research that looks at the gendered nature of the institutions practices and discourses of global governance

Liberal Peacebuilding and Global Governance David Roberts, 2011-03-01 This book examines the limits to cosmopolitan liberal peacebuilding caused by its preoccupation with the values and assumptions of neoliberal global governance The peace people experience is determined by the processes privileged in peacebuilding This book is about four things that shape the processes involved First it is a critique of orthodox postconflict peacebuilding It takes the position that the present approach although seemingly hegemonic is routinely ignored or manipulated by elites and society and converted into a miasma that to some degree wastes the energies and opportunities involved Second it is about alternatives which invoke the kind of peace people might seek in postconflict places if they had more control over the process of peacebuilding a notion referred to here as popular peace It is thus not the kind of critical work that some describe as reflexive anti liberalism Rather it seeks alternatives that are grounded in the lives of people in postconflict spaces and which also reflect some of the essential values of Liberalism Third it is about the role of both informal and formal actors institutions and practices in the creation of such a peace For instance it is concerned with the legitimacy of informal practices that lie beyond Liberal tolerance and which are vital in the pursuit of everyday peace Fourth it is about a transversal rather than vertical or hierarchical relationship of global and local governance in securing a peace that reflects the needs and values of both In short this work is a response to the substantial inconsistencies that appear between peacebuilding rhetoric and everyday outcomes in postconflict places This book will be of much interest to students of peacebuilding post conflict statebuilding conflict studies global governance and International Relations in general

Women's Studies Index, 2003

Women's Activism and Globalization Nancy A.

Naples, Manisha Desai, 2004-04-16 Women's Activism and Globalization is a broad and comprehensive collection that shows how women activists across the globe are responding to the forces of the new world order in their communities. The first person accounts and regional case studies provide a truly global view of women working in their communities for change. The essays examine women in urban, rural, and suburban locations around the world to provide a rich understanding of the common themes as well as significant divergences among women activists in different parts of the world. On Feminist Ethics and Politics Claudia Card, 1999 For years mainstream feminist ethics focused criticism on male supremacy. Feminist philosophers in this volume adopt a less male focused stance to look closely at oppression's impact on women's agency and on women's relations with women. Examining legal, social, and physical relationships, these philosophers confront moral ambiguity, moral compromise, and complicity in perpetuating oppression. Combining personal experience with philosophical inquiry, they vividly portray their daily engagement with oppression as both victims and perpetrators. They explore such issues as how pornography silences women and radical feminist politics complicity in racism. Among these insightful essays, Sandra Bartky argues that women share guilt for racism when they benefit from it without protest. Susan Brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for rape or murder. Joan Callahan examines fallout of derogatory speech directed at lesbians. Virginia Held proposes carrying care into marketplaces and governments and in her introduction Claudia Card draws on Primo Levi's conception of gray zones in exploring dangers of character damage to victims of misogyny. A fitting companion to Card's highly regarded *Feminist Ethics*, this volume interweaves observations on character, political ethics, violence, and love into an accessible sourcebook for students. It tackles some of feminism's most pressing issues and helps readers to identify and then overcome the real damage caused by oppression.

Gender and Development: Aspects of culture and health Janet Henshall Momsen, 2008 **Governing in a Global World** Maria J. D'Agostino, Marilyn Marks Rubin, 2017-11-28 *Governing in a Global World* captures the panorama of women governing around the world. Even though the modern era marks history's greatest advancements for women worldwide, they hold fewer than 30 percent of decision-making positions and are often missing from negotiating tables where policies are made and conflicts resolved. The opening chapters present trends and context for studying women in public service by focusing on path setters across the globe, the status of women in the world's executive and legislative bodies, and their participation in public service across several nations. Later chapters examine power, leadership, and representation of women in public service, with several chapters looking at women governing from a regional perspective in the Middle East, Sub-Saharan Africa, Latin America, and China. The final chapter presents empirical evidence that shows how policies to increase women's representation in the public arena reduce gender inequality more than any other policy intervention. Taken together, the chapters illustrate the worldwide importance of and challenges to promoting gender equality and women governing.
