Silent Voices Brenda Ayres, 2003-04-30 Some of the greatest English novels were written during the Victorian era and many are still widely read and taught today But many others written during that period have been neglected by scholars and modern readers alike A number of these novels were written by women and were popular when published Moreover they reveal perspectives of 19th century British culture not present in canonized works and therefore revise our understanding of Victorian life and attitudes With the increasing interest in revising Victorian history and gender scholarship especially through the rediscovery of lost texts written by women this book is a timely and much needed study The expert contributors to this volume argue the value of novels by such Victorian women writers as Grace Aguilar Catherine Crowe Charlotte Elizabeth Tonna Annie E Holdsworth Ella Hepworth Dixon Flora Annie Steel Anne Thackeray Sarah Grand Marie Corelli and others Most of the chapters address numerous works by a particular writer Each focuses on different social issues as well though most of them share an interest in gender politics Topics discussed include a 19th century Jewish novelist's navigation through Protestant spirituality the relationship of noncanonical governess novels to class and gender issues and forgotten works by women crime writers Other chapters analyze how women writers impelled social reform and subverted patriarchally defined religious issues
