

WOMEN & ADDICTION

"The once-neglected field of research in addiction and its treatment in women has flourished in the past 20 years, making this book a 'must read' for clinicians. Brady, Back, and Greenfield are leaders in research, clinical practice, and teaching. Their book is the definitive work on the subject, and the most important new volume in addiction psychiatry in recent years."

—Richard J. Frances, MD,
Clinical Professor of Psychiatry,
New York University Medical School

"An exceptional contribution. The breadth and depth of this book are impressive, with coverage of neurobiology, psychosocial models, epidemiology, and much more. The gender gap in the substance abuse literature has long been an issue, and this comprehensive work marks a leap forward. Readers will find much here to challenge old ideas and spark new ones. The 'Key Points' section in each chapter is especially helpful for those who want to quickly learn the gist of the science. Bravo to the editors and contributors for this truly fine work."

—Lisa M. Najavits, PhD,
Boston University School of Medicine,
Harvard Medical School, and National Center for PTSD,
Boston VA Medical Center

"Finally, a synthesis of research advances on addiction and women, and in a single volume! Scholarly yet easy to read, and written by leading researchers in the field, this is a perfect addition to the bookshelf of anyone interested in addictions. It offers comprehensive, current, and relevant coverage of such issues as hormones, pregnancy, co-occurring psychiatric disorders, and women's unique treatment needs. I highly recommend this book to a broad audience, including treatment professionals, students, basic scientists, and policymakers."

—Carrie Randall, PhD,
Distinguished University Professor,
Department of Psychiatry and Behavioral Sciences,
and Director, Charleston Alcohol Research Center,
Medical University of South Carolina

Women And Addiction A Comprehensive Handbook

Corinne C. Datchi, Julie R. Ancis

Women And Addiction A Comprehensive Handbook:

Women and Addiction Kathleen T. Brady, Sudie E. Back, Shelly F. Greenfield, 2009-04-02 For many years addiction research focused almost exclusively on men Yet scientific awareness of sex and gender differences in substance use disorders has grown tremendously in recent decades This volume brings together leading authorities to review the state of the science and identify key directions for research and clinical practice Concise focused chapters illuminate how biological and psychosocial factors influence the etiology and epidemiology of substance use disorders in women their clinical presentation course and psychiatric comorbidities treatment access and treatment effectiveness Prevalent substances of abuse are examined as are issues facing special populations *Women and Addiction* ,1988

Men, Addiction, and Intimacy Mark S. Woodford, 2012-06-14 In the substance abuse and addiction treatment realm males outnumber females two to one While gender issues are seen as a key element of women s treatment the acknowledgement that males are gendered beings who have lived lives full of male specific developmental challenges is often overlooked This text takes a developmental lifespan approach to examine the neurobiological and psychosocial factors associated with substance use disorders for males specifically in relation to emotional growth and awareness and how these areas in turn affect the development of healthy relationships Theoretical concepts from the field of interpersonal neurobiology the psychology of boys and men and the substance abuse and addiction literature are interwoven with practical clinical examples to help elucidate how the notion of fostering emotional development can strengthen the treatment and recovery processes with boys and men Relevant case examples are included that illustrate work with males of all ages and address a variety of factors associated with culture ethnicity race religion and sexual orientation Mental health practitioners will find this a valuable guide to understanding male development in relation to substance use and abuse and providing more comprehensive gender responsive counseling and assessment practices

Gender, Psychology, and Justice Corinne C. Datchi, Julie R. Ancis, 2017-04-18 Reveals how gender intersects with race class and sexual orientation in ways that impact the legal status and well being of women and girls in the justice system Women and girls contact with the justice system is often influenced by gender related assumptions and stereotypes The justice practices of the past 40 years have been largely based on conceptual principles and assumptions including personal theories about gender more than scientific evidence about what works to address the specific needs of women and girls in the justice system Because of this women and girls have limited access to equitable justice and are increasingly caught up in outdated and harmful practices including the net of the criminal justice system Gender Psychology and Justice uses psychological research to examine the experiences of women and girls involved in the justice system Their experiences from initial contact with justice and court officials demonstrate how gender intersects with race class and sexual orientation to impact legal status and well being The volume also explains the role psychology can play in shaping legal policy ranging from the areas of corrections to family court and drug court Gender Psychology and Justice provides a critical

analysis of girls and women's experiences in the justice system. It reveals the practical implications of training and interventions grounded in psychological research and suggests new principles for working with women and girls in legal settings. **Women's Mental Health, An Issue of Psychiatric Clinics** Susan G. Kornstein, Anita H. Clayton, 2010-05-05

This issue reviews psychiatric concerns that are specific to women. Comprehensive and up to the minute, the articles discuss topics such as PMS, PMDD, Perinatal Disorders, Menopause, Infertility, Female Sexual Dysfunction, Substance Abuse in Women, Gender Differences in ADHD, Fibromyalgia, Migraines in Women, Breast Cancer, Obesity in Women, Complementary and Alternative Medicine for Psychiatric Disorders in Women, Trauma and Violence Issues for Women in the Military, and Caring for the Elderly Female Psychiatric Patient. Encyclopedia of Criminology J. Mitchell Miller, Richard A. Wright, 2013-12-17

This three-volume work offers a comprehensive review of the pivotal concepts, measures, theories, and practices that comprise criminology and criminal justice. No longer just a subtopic of sociology, criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology, political science, behavioral science, law, economics, public health, family studies, social work, and many others. The three-volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work. More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource. The pivotal concepts, measures, theories, and practices of the field are addressed with an emphasis on comparative criminology and criminal justice. While the primary focus of the work is on American criminology and contemporary criminal justice in the United States, extensive global coverage of other nations' justice systems is included, and the increasing international nature of crime is explored thoroughly. Providing the most up-to-date scholarship in addition to the traditional theories on criminology, the Encyclopedia of Criminology is the essential one-stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field. **Addictions**

Counseling Today Kevin Alderson, 2019-12-03 Focusing on the new DSM-V classifications for addiction with an emphasis on CACREP, neuroscience, and treatment, this provocative contemporary text is an essential reference for both students and practitioners wanting to gain a deeper understanding of those with addiction. **Women's Lives** Claire A. Ettaugh, Judith S.

Bridges, 2015-07-14 *Women's Lives: A Psychological Exploration* 3rd Edition draws on a wealth of the literature to present a rich range of experiences and issues of relevance to girls and women. This text offers the unique combination of a chronological approach to gender that is embedded within topical chapters. Cutting edge and comprehensive, each chapter integrates current material on women differing in age, ethnicity, social class, nationality, sexual orientation, and ability. The third edition reflects substantial changes in the field while maintaining its empirical focus through engaging writing, student activities, and critical thinking exercises. With over 2,100 new references emphasizing the latest research and theories, the authors continue to pique interests in psychology of women. **Feminist Collections**, 2010 New Books on Women,
