Else-Quest, Janet Shibley Hyde, 2021-01-20 A psychology of women textbook that fully integrates transgender research issues and concerns With clear comprehensive and cutting edge coverage The Psychology of Women and Gender Half the Human Experience delivers an authoritative analysis of classical and up to date research from a feminist psychological viewpoint Authors Nicole M Else Quest and Janet Shibley Hyde examine the cultural and biological similarities and differences between genders noting how these characteristics can affect issues of equality Students will come away with a strong foundation for understanding the dynamic influences of gender sexual orientation and ethnicity in the context of psychology and society The Tenth Edition further integrates intersectionality throughout every chapter updates language for more transgender inclusion and incorporates new content from guidelines put forth from the American Psychological Association **The Oxford Handbook of Evolution and the Emotions** Laith Al-Shawaf, Todd K. Shackelford, 2024 In this Handbook Laith Al Shawaf and Todd K Shackelford have gathered a group of leading scholars in the field to present a centralized resource for researchers and students wishing to understand emotions from an evolutionary perspective Experts from a number of different disciplines including psychology biology anthropology psychiatry and others tackle a variety of how proximate and why ultimate questions about the function of emotions in humans and nonhuman animals how emotions work and their place in human life Comprehensive and integrative in nature this Handbook is an essential resource for students and scholars from a diversity of fields wishing to build upon their theoretical and empirical understanding of the emotions *Food and Emotions in Italian Women's Writing* Patrizia Sambuco, 2024-11-30 Food and Emotions in Italian Women's Writing discusses the relevance of food imagery in the writing of Italian women over a period of one hundred years from the 1920s to the present day while offering new ways to narrate women's history and creativity In this groundbreaking work Patrizia Sambuco shows how food imagery in different historical periods challenge established political discourses by conveying unexpressed alternative or transgressive emotions Through literary analysis archival

research and philosophical approaches to the senses emotions and food the book considers a variety of authors from the celebrated to the hardly known Sambuco argues that in different ways throughout the decades the conceptual domain of food has helped express forms of selfhood that push the boundaries of womanhood and interact with cultural and political panoramas at national and international levels Building an alternative history of Italian women and their creativity Sambuco shows how the interplay of the senses and emotions becomes a profitable way to illuminate overlooked aspects of women s subjectivity Food and Emotions in Italian Women s Writing ultimately reassesses women s writing giving value to the marginality of women s bodies and positions through the conceptual domain of food **What Is It about Women... ? And Their Emotions** Troy Defray,2012-04-17 Ladies what would you do if you found out your partner had cheated on you Would you do like Lady A or Melaine Lady A wrote My ex is really allergic to cats so I let a few of our neighbour s cats into our apartment to roam and feel as much at home as possible By the time he got back from work the cat s had done their work as he was wheezing his face became all puffy and red with watering eyes 10 minutes after he got into the house I pretended I knew nothing and took him to the Emergency room Punishment is a bitch melainesrevenge wrote When I found out that my now ex was cheating on me I crushed half a bottle of laxatives into his morning coffee He spent half the day doubled up on the floor Good riddance to bad rubbish Pun intended OR would you do like Abby A I stay with my boyfriend of four years who has cheated on me more times than I can count I stay because I love him and because without him I am nothing He tells me that and I believe him The women are to blame not him he s a man and they put it out there freely for him It s about temptation This is not a book on revenge or a book posed at self help This is a book of inadvertent enlightenment Want to find out more Would you like to learn what Emotion s has to do with women and their reactions in relationships Intrigued yet Welcome to the new age of enlightenment *The Representation of Women's Emotions in Medieval and Early Modern Culture* Lisa Renée Perfetti,2005 This collection investigates the social and cultural factors that shaped the representation of women s emotions in the medieval and early modern periods and explores the consequences of this representation for women s participation in public and private life The essays focus on emotions such as sorrow joy love anger and shame as depicted in a range of texts including devotional literature drama chanson de geste lyric theological treatises and legal texts As a central component of human behavior and social interaction emotion is a fundamental category of analysis for understanding cultures of the past Teachers and scholars of medieval history religion and literature will find the questions raised by these essays to be of great value in guiding students to understand medieval culture on its own terms while appreciating the ways in which it continues to influence us today An introduction synthesizes the findings of the individual essays demonstrating how the representation of women s emotions is rooted in the medieval understanding of female embodiment which means that emotions are virtually coded as sexual when they apply to women although class and ethnicity are important factors that are shown to work in conjunction with gender in how emotions are represented The introduction also lays out several helpful

theoretical models of emotion used by anthropologists psychologists and social historians **Handbook of Emotions** Lisa Feldman Barrett, Michael Lewis, Jeannette M. Haviland-Jones, 2018-03-20 Recognized as the definitive reference this handbook brings together leading experts from multiple psychological subdisciplines to examine one of today's most dynamic areas of research. Coverage encompasses the biological and neuroscientific underpinnings of emotions as well as developmental, social, and personality, cognitive and clinical perspectives. The volume probes how people understand, experience, express, and perceive affective phenomena and explores connections to behavior and health across the lifespan. Concluding chapters present cutting-edge work on a range of specific emotions. Illustrations include 10 color plates. New to This Edition: Chapters on the mechanisms, processes, and influences that contribute to emotions such as genetics, the brain, neuroendocrine processes, language, the senses of taste and smell; Chapters on emotion in adolescence and older age and in neurodegenerative dementias; Chapters on facial expressions and emotional body language; Chapters on stress, health, gratitude, love, and empathy. Many new authors and topics extensively revised with the latest theoretical and methodological innovations. A Choice Outstanding Academic Title **A Cultural History of the Emotions in Antiquity** Douglas Cairns, 2020-08-20 This volume provides an overview of some of the salient aspects of emotions and their role in life and thought of the Greco-Roman world from the beginnings of Greek literature and history to the height of the Roman Empire. This is a wide remit dealing with a wide range of sources in two ancient languages and in the full range of contexts that are covered by the format of this series. The volume's chapters survey the emotional worlds of the ancient Greeks and Romans from multiple perspectives: philosophical, scientific, medical, literary, musical, theatrical, religious, domestic, political, art, historical, and historical. All chapters consider both Greek and Roman evidence ranging from the Homeric poems to the Roman Imperial period and making extensive use of both elite and non-elite texts and documents including those preserved on stone, papyrus, and similar media and in other forms of material culture. The volume is thus fully reflective of the latest research in the emerging discipline of ancient emotion history *A Cultural History of the Emotions in the Age of Romanticism, Revolution, and Empire* Susan J. Matt, 2020-08-20 Between 1780 and 1920, modern conceptions of emotion, conceptions still very much present in the 21st century, first took shape. This book traces that history, charting the changing meaning and experience of feelings in an era shaped by political and market revolutions, romanticism, empiricism, the rise of psychology and psychoanalysis. During this period, the word "emotion" itself gained currency, gradually supplanting older vocabularies and visions of feeling. Terms to describe feelings changed, so too did conceptions of emotions' proper role in politics, economics, and culture. Political upheavals turned a spotlight on the role of feeling in public life; in domestic life, sentimental bonds gained new importance as families were transformed from productive units to emotional ones. From the halls of parliaments to the familial hearth, from the art museum to the theatre, from the pulpit to the concert hall, lively debates over feelings raged across the 19th century **Handbook of Emotions** Michael Lewis, Jeannette M.
