scholarly pursuits doesn't necessarily mean that he's prepared to educate others. Schachter offers information about the application process and factors to take into account in choosing amongst offers of faculty appointment. There's information about designing a course, crafting a syllabus, and choosing textual materials. In an effort to facilitate review of matters of particular interest, headings, a table of contents, and a detailed index have been included. Cross references have also been incorporated to enable additional textual review. I was impressed with the practical advice that *The Law Professor's Handbook* offered for a variety of situations. As Academic Dean, I had it distributed to many of our most involved adjuncts. They were grateful for the information, and their feedback was overwhelmingly positive. We plan to continue distributing it to adjuncts and new faculty in the future.
