Youth Volunteer Activity Planning Program

In response to the call of the Central Committee of the Communist Youth League, the spirit of volunteers has been thoroughly implemented among the young student groups, so as to inspire and guide young students to be positive, willing to help others, and contribute their youth and strength to a well-off life and the construction of a modern country. Under the guidance of the school and the youth league committees, the student union decided to advocate and launch youth volunteer activities throughout the school.

1. Guiding Ideology:

Youth volunteer activities are a new form of expression of Lei Feng spirit under the conditions of the current era. Its main theme is dedication, friendship, mutual assistance, and progress. Its spiritual connotation is to live with Lei Feng spirit, and it is the extension and expansion of Lei Feng spirit.

2. Objectives and objectives:

Through youth volunteer activities, carry forward the spirit of Lei Feng, stimulate young students' enthusiasm for caring and helping each other, and see it in their daily behaviors, form an upsurge of mutual helping and helping each other on campus, and create a harmonious, relaxed and healthy environment for learning and life.

3. Organization method:

The Youth League Committee takes the lead in organizing and arranging activities in units of colleges, student unions, grades, and classes.

4. Main method and content of activities:

The main steps are individual activities, class activities, grades and college activities. In the activities, it is necessary to carry forward the "Lei Feng spirit" as the primary content, and at the same time determine it in combination with the way of activities.

1. Content of personal activities. On the premise of strengthening self-cultivation and improving one's own quality, improving the learning environment of the class as a breakthrough, and helping students make progress together as a service goal, restraining one's own behavior, and using one's own practical actions to influence and educate others. Every volunteer is required to start from himself, from now on, to review one's bad habits and develop good behaviors. To determine a good start, for example, start from not littering and picking up paper scraps on the ground, start from speaking in a civilized language, start from obeying traffic laws, etc., that is, start from the little things around us, do not waste vigor and vitality, but seek solid and effective.

2. Content of class activities. Based on the construction of class style and style of study, and aiming at creating an advanced collective, the class will form a united, friendly, and positive learning atmosphere. Start by grasping the weak links of the class, identify the entry point, and strive to adopt a method to achieve a result. For example, we will carry out public welfare activities, and continuously carry out "one for one" and "many for one" activities.

3. Contents of grade and college activities. With construction, publicity, service as the overall idea, work is carried out around public welfare labor and other activities inside and outside the school.

5. Activity arrangement:

1. Propaganda launch stage: The Youth League Committee of the school issued a proposal of "Learning from Comrade Lei Feng", and used the radio station, cultural corridors, and blackboard newspapers. In each class as the main propaganda position to vigorously promote the spirit of Lei Feng and the spirit of young volunteers.

2. Go deep into the community and welfare homes:

(1) Carried lectures on various subject knowledge for students in the community. This is a service that combines our professional and community needs. In the event, we not only give some simple lectures on various subject knowledge for the masses in the community, but also help students with professional knowledge counseling to bring them convenience.

(2) Publicity work such as hand newspapers and window displays. In order to enrich the lives of community residents, do a good job in various publicity work and create a learning atmosphere. Change the content of the community's window and hand newspaper every two weeks.

(3) Contribute to the elderly who cannot take care of themselves. In order to promote the service of respecting teachers and respecting the elderly to the society, we regularly provide services to an elderly person who cannot take care of himself, help them do some housework within their ability, and send warmth to them.

(4) Go to the orphanage to send our love to the children, and help the orphanage to do what we can, such as clean up and teach knowledge to the children voluntarily.

6. Activity Requirements:

Guaranteed time, guaranteed location and guaranteed tasks must be persevering.

7. Commendation:

It is divided into individual activity commendation and academic year summary commendation. The individual commendation awards are determined according to specific circumstances. The school year summary commendation includes 10 people with class titles, 20 people with grade titles per grade, and 20 people with school level titles.
