honour of the names of the Cid Campeador, Gayferos and Gonzalvo de Cordova, gigantic shadows in harness, a pantheon of heroes which the martial legends of few lands can equal and none surpass. The epic of our British Arthur, the French chansons de gestes, are indebted almost as much to folklore as to the imagination of the singers who first gave them literary shape. But in the romances of Spain we find that folklore plays an inconsiderable part and that her chivalric fictions are either the offspring of historic happenings or of that brilliant and glowing imagination which illumines the whole expanse of Peninsular literature. I have given more space to the proofs of connexion between the French chansons de gestes and the Spanish cantares de gesta than most of my predecessors who have written of Castilian romantic story. Indeed, with the exception of Mr Fitzmaurice Kelly, whose admirable work in the field of Spanish letters forms so happy an exception to our national neglect of a great literature, I am aware of no English writer who has concerned himself with this subject. My own opinion regarding the almost total lack of Moorish influence upon the Spanish romancers is in consonance with that of critics much better qualified to pass judgment upon such a question. But for my classification of the ballad, I am indebted to no one, and this a long devotion to the study of ballad literature perhaps entitles me to make. I can claim too that my translations are not mere paraphrases but provide renderings of tolerable accuracy. I have made an earnest endeavour to provide English readers with a conspectus of Spanish romantic literature as expressed in its cantares de gesta, its chivalric novels, its romancers or ballads, and some of its lighter aspects. The reader will find full accounts and summaries of all the more important works under each of these heads, many of which have never before been described in English. If the perusal of this book leads to the more general study of the noble and useful Castilian tongue on the part of but a handful of those who read it, its making will have been justified. The real brilliance and beauty of these tales lie behind the curtains of a language unknown to most British people and can only be liberated by the spell of study. This book contains merely the poor shadows and reflected wonders of screened and hidden marvels.
