

Toshiba DP5000-Series Digital Telephones

Product Summary

Toshiba's next generation digital telephones are here. The DP-5000 product line offers a sleek, low-profile design with a stylish tilt stand, an integrated headset interface and a full set of display and call handling features making Toshiba the obvious choice in leading-edge digital telephones. Toshiba continues to be proud of its backward compatibility allowing customers a new look on their desktop while maintaining much of their initial telephone system investment.

The most noticeable enhancements are the backlit displays, updated button placement and a high-end model with LCD key strips.

The telephone models are referenced by the total number of keys that are on the telephone (excluding the dial pad); the number of programmable keys have been specified in the descriptions and throughout the document.

The DP5008 with one programmable key and DP5018-S with ten programmable keys are the two non-display models offered for locations where a lower cost telephone is appropriate.

DP5008

DP5018-S
