Women The Recited Quran And Islamic Music In Indonesia:

Women, the Recited Qur'an, and Islamic Music in Indonesia Anne Rasmussen, 2010-08-23 Rasmussen has written a classic study of the world of Islamic soundscapes performances and forms of musical piety in that most complex of societies Indonesia With great sensitivity an alert musical response to players reciters and audiences a keen practitioner's ear and eye for subtlety as well as for the complexities of noise she changes common assumptions about Muslim music and not least gender in changing Islamic ritual cultures Her own political awareness and her professional as well as personal relations with women Qur'an reciters contribute to an exciting and original volume that I recommend to any one exploring the riches of Islamic performances and debates in the contemporary world Michael Gilson author of *Lords of the Lebanese Marches* Violence and Narrative in an Arab Society

Women, the Recited Qur'an, and Islamic Music in Indonesia Anne Rasmussen, 2010-08-23 *Women the Recited Qur'an and Islamic Music in Contemporary Indonesia* takes readers to the heart of religious musical praxis in Indonesia home to the largest Muslim population in the world Anne K Rasmussen explores a rich public soundscape where women recite the divine texts of the Qur'an and where an extraordinary diversity of Arab influenced Islamic musical styles and genres also performed by women flourishes Based on unique and revealing ethnographic research beginning at the end of Suharto's New Order and continuing into the era of Reformation the book considers the powerful role of music in the expression of religious nationalism In particular it focuses on musical style women's roles and the ideological and aesthetic issues raised by the Indonesian style of recitation

Sounding the Indian Ocean Jim Sykes, 2023-09-26 Providing numerous case studies ranging across the Indian Ocean across disparate time periods and historical and ethnographic approaches *Sounding the Indian Ocean Musical Circulations in the Afro Asiatic Seascape* brings together the disciplines of Indian Ocean and music studies As glimpsed above in the Sufi and Catholic networks connecting South and Southeast Asia the chapters in this volume explore how music helps materialize networks of connection across the Indian Ocean Region IOR and in several of its distinct locales Our focus is not simply the well worn tropes of Indian Ocean cosmopolitanism however nor a definition of the IOR as a site for the harmonious mixing of populations though some of our chapters do one or both of these Rather we show how music contributes to placemaking in distinct Indian Ocean worlds

Srinivas et al 2020 Instead of defining music's value in its ability to provide either narratives of identity formation or the celebration of mixture *Sounding the Indian Ocean* explores the role music plays in both boundary formation and boundary crossing in Indian Ocean contexts past and present

Conceptualizing Islam Frank Peter, Paula Schrode, Ricarda Stegmann, 2025-03-31 In recent decades academic debates on how to conceptualize Islam as an object of study and how to approach it theoretically have been revitalized Not only has research on Islam grown enormously and become much more differentiated but Islam is also being discussed more intensively in society and politics than ever before This reader which brings together the perspectives of various disciplines provides an overview of academic approaches to Islam against the

backdrop of these in some cases tense entanglements Through two contributions from scholars working on Buddhism and Hinduism these debates are situated in the context of broader trajectories of research history In sum this book does not only offer its readers entry points to a more complex and refined understanding of Islam but also to research processes within the study of Islam as well as religion in general *Hearing Islam* Lauren E. Osborne,2024-07-31 *Hearing Islam* introduces the global religious tradition of Islam through its rich history of sounds and music The book explores how the centrality of sonic practices and experiences within Islamic traditions stems largely from the orality of the Qur'an and the importance of recitation while arguing that sound can provide a productive point of entry to human cultures in general Its tripartite structure guides the reader through the foundations of Islamic traditions and sounds theoretical frameworks of orality listening and deafness and some of the major types of sonic practices and genres related to Islam such as chanting the Islamic poetic tradition South Asian qawwali and hip hop This cutting edge textbook is the go to volume for students of Islam and sound Islamic studies religion and sound and the practice of Islam *Sufism in Morocco's Religious Politics* John C. Thibdeau,2023-07-25 This book outlines the role of Sufism in Moroccan politics in the twenty first century through a comparative study of contemporary Sufi organizations The author begins his analysis by highlighting the strategies employed by the Moroccan state over the past twenty years aimed at regulating and producing an authorized Moroccan Islam in the kingdom Despite these policies of spiritual security and spiritual diplomacy including the state sponsorship of Sufi organizations the author argues that this has not decreased diversity nor produced a banal interpretation of Islam but rather given rise to diverse articulations and performances of this religiosity Through a comparative analysis of three Sufi organizations based on eighteen months of fieldwork two of which have never before been studied the author brings into relief the spaces of creative enactment of Sufism as an ethical tradition Ultimately it is argued that each Sufi organization reflects a different refraction of Islam a concept emphasising the cultivation of public piety which underpins the Moroccan state's formulation of Islam Focused on both theoretical contributions to Islamic studies and topical treatments of geopolitical issues like spiritual diplomacy the Western Sahara and Morocco Algeria the book spans multiple disciplines including anthropology religious studies sociology and political science *The ^AOxford Handbook of Timbre* Emily I. Dolan,Alexander Rehding,2021-09-15 With essays covering an array of topics including ancient Homeric texts contemporary sound installations violin mutes birdsong and cochlear implants this volume reveals the richness of what it means to think and talk about timbre and the materiality of the experience of sound *The Georgetown Companion to Interreligious Studies* Lucinda Mosher,2022-06-01 *The Georgetown Companion to Interreligious Studies* provides fifty thought provoking chapters on the field's unique history priorities challenges pedagogies and practical applications written by an international roster of experts and practitioners across religious traditions This will serve as a valuable reference to students in the field

The Oxford Handbook of Qur'anic Studies ,2020-04-28 Traditionally revered as the literal word of God the Qur'an

serves as Islam's sacred book of revelation. Accordingly, its statements and pronouncements rest at the core of the beliefs and teachings that have inexorably defined expressions of the Islamic faith. Indeed, over the centuries, engaging with and poring over the contents of the Qur'an inspired an impressive range of traditional scholarship. Notwithstanding its religious pre-eminence, the Qur'an is also considered to be the matchless masterpiece of the Arabic language, and its impact as a text can be discerned in all aspects of the Arabic literary tradition. Presenting contributions from leading experts in the field, *The Oxford Handbook of Qur'anic Studies* offers an authoritative collection of chapters that guide readers through the gamut of themes, subjects, and debates that have dominated the academic study of the Qur'an and its literary heritage. These range from chapters that explore the text's language, vocabulary, style, and structure to detailed surveys of its contents, concepts, transmission, literary influence, historical significance, commentary tradition, and even the scholarship devoted to translations. With the aim of serving as an indispensable reference resource, the Handbook assesses the implications of research, discourses, and discussions shaping the study of the Qur'an today. There exists no single volume devoted to such a broad review of the scholarship on the Qur'an and its rich commentary tradition.

Language Maintenance, Revival and Shift in the Sociology of Religion Rajeshwari Vijay Pandharipande, Maya Khemlani David, Miriam Eisenstein Ebsworth, 2019-12-06

This volume addresses the question: What role does religion play in the maintenance, revival, and/or shift of languages? The chapters in this volume explore the complex and dynamic relationship between religion and the maintenance, revival, and/or shift of languages in different multilingual, multicultural contexts under diverse sociopolitical conditions at different points in time. The 12 chapters cover data from Algeria, India, Israel, Malaysia, Nigeria, Singapore, UK, USA, and Uganda, and discuss the impact of context, ideology, identity, and education on the following religions: Buddhism, Christianity, Hinduism, Islam, Judaism, Sikhism, and some religions closely associated with China, such as Confucianism and Taoism, and their respective languages and varieties of language in these regions. The languages discussed by the writers in this volume include Arabic, English, Hebrew, Malay, Mandarin, Portuguese, Punjabi, Pali, Sanskrit, Tamazight, and Yoruba.
