Yankee Doodle Dandy Brian Mulroney And The American Agenda:

Yankee Doodle Dandy Marci McDonald,1995 **The Armageddon Factor** Marci McDonald,2011-04-13 In her new book award winning journalist Marci McDonald draws back the curtain on the mysterious world of the right wing Christian nationalist movement in Canada and its many ties to the Conservative government of Stephen Harper To most Canadians the politics of the United States where fundamentalist Christians wield tremendous power and culture wars split the country seem too foreign to ever happen here But *The Armageddon Factor* shows that the Canadian Christian right infuriated by the legalization of same sex marriage and the increasing secularization of society has been steadily and stealthily building organizations alliances and contacts that have put them close to the levers of power and put the government of Canada in their debt Determined to outlaw homosexuality and abortion and to restore Canada to what they see as its divinely determined destiny to be a nation ruled by Christian laws and precepts this group of true believers has moved the country far closer to the American mix of politics and religion than most Canadians would ever believe McDonald s book explores how a web of evangelical far right Christians have built think tanks and foundations that play a prominent role in determining policy for the Conservative government of Canada She shows how Biblical belief has allowed Christians to put dozens of MPs in office and to build a power base across the country across cultures and even across religions What drives that growing Christian nationalist movement is its adherents conviction that the end times foretold in the book of Revelation are at hand writes McDonald Braced for an impending apocalypse they feel impelled to ensure that Canada assumes a unique scripturally ordained role in the final days before the Second Coming and little else *The Armageddon Factor* shows how the religious right s influence on the Harper government has led to hugely important but little known changes in everything from foreign policy and the makeup of the courts to funding for scientific research and social welfare programs like daycare And the book also shows that the religious influence is here to stay regardless of which party ends up in government For those who thought the religious right in Canada was confined to rural areas and the west this book is an eye opener outlining to what extent the corridors of power in Ottawa are now populated by true believers For anyone who assumed that the American religious right stopped at the border *The Armageddon Factor* explains how US money and evangelists have infiltrated Canadian politics This book should be essential reading for Canadians of every religious belief or political stripe Indeed *The Armageddon Factor* should persuade every Canadian that with the growth of such a movement the future direction of the country is at stake **Diplomatic Departures** Kim R. Nossal,Nelson Michaud,2007-10-01 During the nine years that the Conservatives under Brian Mulroney held power in Ottawa Canadian foreign policy underwent a series of important departures from established policy Some of these changes mirrored the major transformations in global politics that occurred during this period as the Berlin Wall was breached the Cold War came to an end and a globalized economy emerged But some of the changes were the results of initiatives taken by the Conservative government The first major scholarly

examination of the foreign policy of this period this collection explores and analyzes the many departures from traditional Canadian statecraft that took place during the Mulroney Conservative era free trade with the U S a continentalized energy policy initiatives over the environment and the Arctic the withdrawal of Canadian forces from Europe and the transformation of peacekeeping into peacemaking

The Tangled Garden Richard Stursberg, 2019-04-09 The emergence of Facebook Amazon Apple Netflix and Google the FAANGs has created an unprecedented challenge to Canada's news television and film businesses In this book Richard Stursberg offers a brief account often based on his insider's experience of how Canada's cultural industries were built And he explains that independent Canadian media and cultural industries are unlikely to survive due to the large share of ad dollars and audience attention captured by the big digital media companies Faced with similar challenges many governments around the world have responded by protecting and strengthening their national cultural life Canada stands out for its passivity Richard Stursberg identifies the path that would assure a strong continued news media and a reasonable share of audiences for Canadian creative work He warns that time for action is short and many more media outlets will soon disappear like the thirty six newspapers shut down by the Toronto Star Postmedia deal in 2017 Richard Stursberg's knowledge and experience across a wide range of cultural organizations in Canada make this an important and informative book on a topic of vital significance At the same time this is an engaging account for any reader who wants to continue to enjoy Canadian stories and hear Canadian voices in the media and on our screens

North American Regionalism Eric Hershberg, Tom Long, 2025-02-01 North American Regionalism problematizes North America as an important region in its own right breaking with the area studies convention that divides the Global North and Global South portions of the Western Hemisphere at the US Mexican border By cutting across this division the theoretically sophisticated essays in this volume yield new insights about politics society and the economy of North America opening dialogues with the New Regionalism approach and the literature on comparative regional studies Drawing on a six year interdisciplinary collaboration among leading scholars from Canadian Mexican US and European universities the book brings North America back into International Relations study of regions and regionalism The book includes robust theoretical and empirical engagement with issues of trade migration security energy and climate and the rise of China
