We Resist Cynthia Levine-Rasky, Lisa Kowalchuk, 2020-05-21 The 2016 US presidential election exposed rising xenophobic and nationalist sentiment within the United States and other democratic countries As populist movements grow democratic freedoms erode We Resist demonstrates that the things we often take for granted safety family employment health a promising future are under attack and we must fight to preserve these resources before it's too late We are currently witnessing the dismantlement of social programs growing disinterest in international cooperation and the devaluation of evidence based knowledge This disturbing shift in politics is leading to increased national security measures violations to basic human rights and widening social and economic inequalities The rise of far right populism brings with it intolerance of ethnic sexual and all other minority groups and a rejection of democratic society We Resist gathers the compelling perspectives of scholars and activists who are deeply embedded within political and community struggles who participate in policy decisions and who are engaged in research that advances those struggles An essential and timely book We Resist confronts the problems we face as a human community and impels a cross sectoral movement to defend our rights and revitalize the common good

connections between the discussion of millennials and Mills's concept of the sociological imagination *Angel Song: Medieval English Music in History* Lisa Colton, 2016-12-08 Although medieval English music has been relatively neglected in comparison with repertoire from France and Italy there are few classical musicians today who have not listened to the thirteenth century song *Sumer is Icumen in* or read of the achievements and fame of fifteenth century composer John Dunstaple Similarly the identification of a distinctively English musical style sometimes understood as the *contenance angloise* has been made on numerous occasions by writers exploring the extent to which English ideas influenced polyphonic composition abroad *Angel Song: Medieval English Music in History* examines the ways in which the standard narratives of English musical history have been crafted from the Middle Ages to the present Colton challenges the way in which the concept of a canon of English music has been built around a handful of pieces composers and practices each of which offers opportunities for a reappraisal of English musical and devotional cultures between 1250 and 1460

Who Saved the Parthenon? William St Clair, 2022-05-26 In this magisterial book William St Clair unfolds the history of the Parthenon throughout the modern era to the present day with special emphasis on the period before during and after the Greek War of Independence of 1821 32 Focusing particularly on the question of who saved the Parthenon from destruction during this conflict with the help of documents that shed a new light on this enduring question he explores the contributions made by the Philhellenes Ancient Athenians Ottomans and the Great Powers Marshalling a vast amount of primary evidence much of it previously unexamined and published here for the first time St Clair rigorously explores the multiple ways in which the Parthenon has served both as a cultural icon onto which meanings are projected and as a symbol of particular national religious and racial identities as well as how it illuminates larger questions about the uses of built heritage This book has a companion volume with the classical Parthenon as its main focus which offers new ways of recovering the monument and its meanings in ancient times St Clair builds on the success of his classic text *The Reading Nation in the Romantic Period* to present this rich and authoritative account of the Parthenon's presentation and reception throughout history With weighty implications for the present life of the Parthenon it is itself a monumental contribution to accounts of the Greek Revolution to classical studies and to intellectual history

The Jazz Bubble Dale Chapman, 2018-03-23 Hailed by corporate philanthropic and governmental organizations as a metaphor for democratic interaction and business dynamics contemporary jazz culture has a story to tell about the relationship between political economy and social practice in the era of neoliberal capitalism The Jazz Bubble approaches the emergence of the neoclassical jazz aesthetic since the 1980s as a powerful if unexpected point of departure for a wide ranging investigation of important social trends during this period extending from the effects of financialization in the music industry to the structural upheaval created by urban redevelopment in major American cities Dale Chapman draws from political and critical theory oral history and the public and trade press making this a persuasive and compelling work for scholars across music industry and cultural studies

Sold Down the Yangtze Gus Van Harten, 2015-08-13 When legal experts finally saw the terms of the investment deal Canada had signed with China they could hardly believe what their eyes saw The deal was unprecedented Canada had never given so much away to a trading partner But Ottawa did not allow a full public review and ultimately ratified the deal in 2014 with no changes And the government moved forward with other trade deals that contain many of the same flaws In this book investment treaty expert Gus Van Harten offers the first ever independent take on the details of the China Canada investment deal and what it means for Canadians Many of the deal's provisions are so extreme that readers may find it almost impossible to believe that the Canadian government agreed to them He explains how this agreement and others like it give multinational corporations and rich investors superpowers over governments Secretive courts staffed by private lawyers not judges are able to order governments to pay these investors

billions for policies and decisions they object to In simple language and easy to follow analysis Van Harten offers a window into this secretive and obscure world He documents the many ways Canadians lose out in the China Canada deal and how taxpayers may find themselves footing the bill for billions of dollars to Chinese investors who object to the actions of democratically elected municipal provincial and federal governments This deal in place for a minimum 15 years includes terms that may well turn up in other trade and investment agreements Gus Van Harten offers practical steps for a better more informed public debate on this vital topic
