discussion of the legal and clinical contexts of forensic assessment along with best practice guidelines for participating effectively and ethically in a wide range of criminal and civil proceedings Presented are findings instruments and procedures related to criminal and civil competencies civil commitment sentencing personal injury claims antidiscrimination laws child custody juvenile justice and more **The Oxford Handbook of Law and Economics** Francesco Parisi,2017-04-04

Covering over one hundred topics on issues ranging from Law and Neuroeconomics to European Union Law and Economics to Feminist Theory and Law and Economics The Oxford Handbook of Law and Economics is the definitive work in the field of law and economics The book gathers together scholars and experts in law and economics to create the most inclusive and current work on law and economics Edited by Francisco Parisi the Handbook looks at the origins of the field of law and economics tracks its progression and increased importance to both law and economics and looks to the future of the field and its continued development by examining a cornucopia of fields touched by work in law and economics The uniqueness of its breadth depth and convenience make the volume essential to scholars students and contributors in the field of law and economics **Exploring the Domain of Accident Law** Don DeWees,David Duff,Michael Trebilcock,1996-01-04

In the mid 1980s there was a crisis in the availability affordability and adequacy of liability insurance in the United States and Canada Mass tort claims such as the asbestos DES and Agent Orange litigation generated widespread public attention and the tort system came to assume a heightened prominence in American life While some scholars debate whether or not any such crisis still exists there has been an increasing political judicial and academic questioning of the goals and future of the tort system Exploring the Domain of Tort Law reviews the evidence on the efficacy of the tort system and its alternatives By looking at empirical evidence in five major categories of accidents automobile medical malpractice product related accidents environmental injuries and workplace injuries the authors evaluate the degree to which the tort system conforms to three normative goals deterrence corrective justice and distributive justice In each case the authors review the deterrence and compensatory properties of the tort system and then review parallel bodies of evidence on regulatory penal and compensatory alternatives Most of the academic literature on the tort system has traditionally been doctrinal or in recent years highly theoretical Very little of this literature provides an in depth consideration of how the system works and whether or not there are any feasible alternatives Exploring the Domain of Tort Law contributes valuable new evidence to the tort law reform debate It will be of interest to academic lawyers and economists policy analysts policy professionals in government and research organizations and all those affected by tort law reform **Tort Law in New Zealand** Stephen

Todd,2022-07-20 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides ready access to how the legal dimension of prevention against harm and loss allocation is treated in New Zealand This traditional branch of law not only tackles questions which concern every lawyer whatever his legal expertise but also concerns each person s most fundamental rights on a worldwide scale Following a general introduction that probes the distinction between

tort and crime and the relationship between tort and contract the monograph describes how the concepts of fault and unlawfulness and of duty of care and negligence are dealt with in both the legislature and the courts The book then proceeds to cover specific cases of liability such as professional liability liability of public bodies abuse of rights injury to reputation and privacy vicarious liability liability of parents and teachers liability for handicapped persons product liability environmental liability and liability connected with road and traffic accidents Principles of causation grounds of justification limitations on recovery assessment of damages and compensation and the role of private insurance and social security are all closely considered Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable resource for lawyers in New Zealand Academics and researchers will also welcome this very useful guide and will appreciate its value not only as a contribution to comparative law but also as a stimulus to harmonization of the rules on tort
