Torture Team Rumsfelds Memo And The Betrayal Of American Values:

Torture Team Philippe Sands, 2008-05-13 Offers a study of a document signed by Secretary of Defense Donald Rumsfeld in December 2002 that authorized the use of eighteen controversial interrogation techniques that were used at Guantanamo and Abu Ghraib and set the stage for a betrayal of the Geneva Convention **Coercive Interrogation Techniques** United States. Congress. Senate. Committee on the Judiciary, 2009 **Europe and the Americas** Erik André Andersen, Eva Maria Lassen, 2015-04-21 In Europe and the Americas Transatlantic Approaches to Human Rights leading scholars of different disciplines offer new insight into transatlantic approaches to human rights At a time when global challenges economic crises poverty terrorism mass migration and climate change have a profound impact on the universal development of human rights and democracy a common transatlantic understanding of human rights may prove instrumental in meeting these challenges Through conceptual discussions by analysing different human rights topics in different periods and regions Europe the United States and Latin America and by focusing on a diverse range of actors from policy makers and judicial institutions to academics and civil society the authors identify key developments of human rights within a transatlantic framework *The Air Force Law Review* , 2011 The Rhetorical Invention of America's National Security State Marouf Hasian Jr., Sean Lawson, Megan D. McFarlane, 2015-07-29 The Rhetorical Invention of America s National Security State examines the rhetoric and discourse produced by and constitutive of America s national security state Hasian Lawson and McFarlane illustrate the importance of rhetoric to the expansion of the American national security state in the post 9 11 era through their examination of the global war on terrorism enhanced interrogation techniques drone crew stress activities of Edward Snowden rise of Special Forces and popular representations of counterterrorism The coauthors contend this expansion was not the result of lone imperial executives or a nefarious state within a state but was co produced by elite and non elite Americans alike who not only condoned but also in many cases demanded the expansion of the national security state This work will be of interest to scholars in communication studies and political science Reaffirming Legal Ethics Kieran Tranter, Francesca Bartlett, Lillian Corbin, Michael Robertson, Reid Mortensen, 2010-07-02 It has been over thirty years since the founding crises that birthed legal ethics as both a field of study and a discrete field of law In that time thinking about the ethical dimension of legal practice has taken several turns from justifications of zealous advocacy to questions of process and connections to specifically legal values to more recently consideration of legal conduct as part of a wider field of virtue Parallel to this dynamism of thought there has also been significant changes in how legal professions especially within those that possess a common law heritage have been regulated and the values and conceptions of legitimate conduct that has informed this regulation This volume represents an opportunity for a comprehensive review of legal ethics as an international movement Contributors include many of the key participants to the legal ethics field from the United States United Kingdom Canada Australia New Zealand and South Africa including David Luban and Deborah Rhode as well as many of the

recognised emerging thinkers The theme of the book is taking stock of the last thirty years of legal ethics practice and scholarship and also a forum for new ideas and new thinking regarding the conduct of lawyers and the moral and social responsibility of the legal profession The contributions also consider the topic of dynamism Over the last decade significant developments in both the expectations of professional conduct and the regulation of the profession has been experienced in all jurisdictions which has seen traditional and once sacred conceptions of lawyering challenged and re evaluated The contributors also look at the theme of affirmation Within an increasingly complex environment of change and dynamism this volume reaffirms that there is value within the field of legal ethics That is the project of reflecting on the unique ethical and conduct requirements of lawyering can not be submerged into a broader field of applied philosophy management or regulatory studies While this volume does not deny the opportunities that exist for interdisciplinary engagement with philosophy social science or politics it affirms legal ethics as a legitimate and highly relevant field of inquiry

Spies, Lies, and Algorithms Amy B. Zegart, 2023-02-28 A riveting account of espionage for the digital age from one of America's leading intelligence experts Spying has never been more ubiquitous or less understood The world is drowning in spy movies TV shows and novels but universities offer more courses on rock and roll than on the CIA and there are more congressional experts on powdered milk than espionage This crisis in intelligence education is distorting public opinion fueling conspiracy theories and hurting intelligence policy In *Spies Lies and Algorithms* Amy Zegart separates fact from fiction as she offers an engaging and enlightening account of the past present and future of American espionage as it faces a revolution driven by digital technology Drawing on decades of research and hundreds of interviews with intelligence officials Zegart provides a history of U S espionage from George Washington's Revolutionary War spies to today's spy satellites examines how fictional spies are influencing real officials gives an overview of intelligence basics and life inside America's intelligence agencies explains the deadly cognitive biases that can mislead analysts and explores the vexed issues of traitors covert action and congressional oversight Most of all Zegart describes how technology is empowering new enemies and opportunities and creating powerful new players such as private citizens who are successfully tracking nuclear threats using little more than Google Earth And she shows why cyberspace is in many ways the ultimate cloak and dagger battleground where nefarious actors employ deception subterfuge and advanced technology for theft espionage and information warfare A fascinating and revealing account of espionage for the digital age *Spies Lies and Algorithms* is essential reading for anyone who wants to understand the reality of spying today

Morality's Muddy Waters George Cotkin, 2011-06-06 In the face of an uncertain and dangerous world Americans yearn for a firm moral compass a clear set of ethical guidelines But as history shows by reducing complex situations to simple cases of right or wrong we often go astray In *Morality's Muddy Waters* historian George Cotkin offers a clarion call on behalf of moral complexity Revisiting several defining moments in the twentieth century the American bombing of civilians during World War II the My Lai massacre racism in the South capital punishment

the invasion of Iraq Cotkin chronicles how historical figures have grappled with the problem of evil and moral responsibility sometimes successfully oftentimes not In the process he offers a wide ranging tour of modern American history Taken together Cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling Without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities For Cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting Morality s Muddy Waters argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable

Non-Legality in International Law Fleur Johns,2013-01-03 Shows how international lawyers make non law extra legal illegal and other non legal phenomena and why this matters in global politics today **Entrepreneurship in the Polis** Inga Narbutaitė Aflaki,Evangelia Petridou,2016-05-06 Dynamics of entrepreneurship have attracted growing attention from scholars of political science policy studies public administration and planning as well as more recently from the realms of international relations and foreign policy analysis Under the banner of political entrepreneurship this volume considers and maps out conceptual approaches to the study of entrepreneurship drawn from these fields discusses synergies envisages new analytical tools and offers contemporary empirical case studies illustrating the diverse political contexts in which entrepreneurship takes place in the polis Drawing upon an international cast of senior academics and cutting edge young researchers the volume takes a closer look at key aspects of political entrepreneurship such as defining political entrepreneurs how it relates to change decision making and strategies organizational arrangements institutional rules varying contexts and future research agendas By highlighting the political aspects of entrepreneurship the volume presents new exciting opportunities for understanding entrepreneurial activities at regional national and international levels The volume will be of particular relevance to scholars and students of political science policy studies public administration planning international relations and business studies as well as practitioners interested in the nexus and utility of entrepreneurship in the modern day political world
