Vlechtwerk uit verscheiden kleuren Eliza Laurillard,1880 **Van Gogh and the Art of Living** Anton

Wessels,2013-08-09 Vincent van Gogh believed that one had to learn to read just as one had to learn to see and learn to live Van Gogh conveyed a message in his work about the path that he himself followed that was more true to life the path that human beings walk in their turbulent existence the pilgrimage along the various stages of the road of life He does not speak about the meaning of life but about the true art of living It is fascinating to see and read the moving way in which he wrestled with the deep human questions of the whence why and whither of life He did not see himself doing this on his own but acknowledged kindred spirits and allies in preachers preacher poets painters writers and other artists who also attempted to find their own way through life in a similar fashion Van Gogh was aware like no other of his duty and task in life his vocation as human being and artist That means that he was well acquainted with loneliness fear and despair including suicidal tendencies Nevertheless he understood himself as cut out for faith rather than resignation Human beings follow their life s path through storms and dangers on land and on sea where the star of the sea the Virgin Mary helps them and provides light Van Gogh rejected the unhealthy sickly forms of religion electing instead to embrace authentic forms of piety Schotsche

Tsukasa Kōdera,1990 This book analyzes the deeper meaning of recurring themes in van Gogh s oeuvre such as the sower the sun and the sunflower against the religious background of his time It traces the conflict between Christianity and nature that underlies the process of substitution of natural for Christian symbols which we find in van Gogh s oeuvre The author has made a careful inventory of the principal motifs in van Gogh s oeuvre and studied the ways in which these have been combined and manipulated By this method it can be demonstrated not only that initially van Gogh uses explicitly Christian motifs such as the church spire but also that their function is later taken over by motifs from nature like the sun and the starry night Kōdera discusses the meaning of these symbols and quotes extensively from contemporary material and from van Gogh s letters to show how this process of naturalization was influenced by specific artistic sources such as French Naturalist novels and Japanese prints *Nederlandsche taal- en letterkunde* R.
