compendium and is organized to make word acquisition easier. It accomplishes this by congregating the terms in synonymous groupings. In these groupings the shades of difference become starkly manifest, thus understanding which term is the best term for what you want to say, imply or understand becomes a simplistic and interesting task. And studying the terms in such groupings allows their subtleties to hail themselves for each subtlety is actually stated and demonstrated in a pointed contextualized sentence. The denotations and statements contained in this reference were determined using three criteria as primary indicators: 1. most frequent current use, 2. the presence of rootwords and 3. the etymology or historical derivation of each term. After your explorations through each of the synonymous groupings, the pre test is provided to demonstrate the value of your study. Also after each ten pages of study, there is a cloze exercise available in the Review Exercise sections. Before the students read the cloze narrative, a colorful Pre Reading Prediction Graphic is provided to generate mental pictures and begin the process of plot and theme acquisition. Of course the master test is at the end of the tenth unit.
