made plain by this informative book's day by day documentation of the impact of African Americans on life in the United States. One of the easiest ways to grasp any aspect of history is to look at it as a continuum. African American History Day by Day: A Reference Guide to Events provides just such an opportunity. Organized in the form of a calendar, this book allows readers to see the dates of famous births, deaths, and events that have affected the lives of African Americans and by extension of America as a whole. Each day features an entry with information about an important event that occurred on that date. Background on the highlighted event is provided along with a link to at least one primary source document and references to books and websites that can provide more information. While there are other calendars of African American history, this one is set apart by its level of academic detail. It is not only a calendar but also an easy-to-use reference and learning tool.

Radio Drama Tim Crook, 2002-01-04 Radio Drama brings together the practical skills needed for radio dramas such as directing, writing, and sound design with media history and communication theory. Challenging the belief that sound drama is a blind medium, Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media. Using extracts from scripts and analysing radio broadcasts from America, Britain, Canada, and Australia, the book explores the practicalities of producing drama for radio. Tim Crook illustrates how far radio drama has developed since the first audiophonic production and evaluates the future of radio drama in the age of live phone-ins and immediate access to programmes on the Internet.

Visions of Belonging Judith E. Smith, 2004-09-01 Visions of Belonging explores how beloved and still remembered family stories—A Tree Grows in Brooklyn, I Remember Mama, Gentleman's Agreement, Death of a Salesman, Marty, and A Raisin in the Sun—entered the popular imagination and shaped collective dreams in the postwar years and into the 1950s. These stories helped define widely shared conceptions of who counted as representative Americans and who could be recognized as belonging. The book listens in as white and black authors and directors, readers and viewers reveal divergent, emotionally textured, and politically charged social visions. Their diverse perspectives provide a point of entry into an extraordinary time when the possibilities for social transformation seemed boundless. But changes were also fiercely contested, especially as the war's culture of unity receded in the resurgence of cold war anticommunism and demands for racial equality were met with intensifying white resistance. Judith E. Smith traces the cultural trajectory of these family stories as they circulated widely in bestselling paperbacks, hit movies, and popular drama on stage, radio, and television. Visions of Belonging provides unusually close access to a vibrant conversation among white and black Americans about the boundaries between public life and family matters and the meanings of race and ethnicity. Would the new appearance of white working-class ethnic characters expand Americans' understanding of democracy? Would these stories challenge the

color line How could these stories simultaneously show that black families belonged to the larger family of the nation while also representing the forms of danger and discriminations that excluded them from full citizenship In the 1940s war driven challenges to racial and ethnic borderlines encouraged hesitant trespass against older notions of normal But by the end of the 1950s the cold war cultural atmosphere discouraged probing of racial and social inequality and ultimately turned family stories into a comforting retreat from politics The book crosses disciplinary boundaries suggesting a novel method for cultural history by probing the social history of literary dramatic and cinematic texts Smith s innovative use of archival research sets authorial intent next to audience reception to show how both contribute to shaping the contested meanings of American belonging

Live from the Underground Katherine Rye Jewell,2023-11-07 Bands like R E M U2 Public Enemy and Nirvana found success as darlings of college radio but the extraordinary influence of these stations and their DJs on musical culture since the 1970s was anything but inevitable As media deregulation and political conflict over obscenity and censorship transformed the business and politics of culture students and community DJs turned to college radio to defy the mainstream and they ended up disrupting popular music and commercial radio in the process In this first history of US college radio Katherine Rye Jewell reveals that these eclectic stations in major cities and college towns across the United States owed their collective cultural power to the politics of higher education as much as they did to upstart bohemian music scenes coast to coast Jewell uncovers how battles to control college radio were about more than music they were an influential if unexpected front in the nation s culture wars These battles created unintended consequences and overlooked contributions to popular culture that students DJs and listeners never anticipated More than an ode to beloved stations this book will resonate with both music fans and observers of the politics of culture
