Yang Qiang Best Writings Chinese:

China Goes Global David Shambaugh, 2013-01-18 Most global citizens are well aware of the explosive growth of the Chinese economy. Indeed, China has famously become the workshop of the world. Yet while China watchers have shed much light on the country's internal dynamics, China's politics, its vast social changes, and its economic development, few have focused on how this increasingly powerful nation has become more active and assertive throughout the world. In *China Goes Global*, eminent China scholar David Shambaugh delivers the book that many have been waiting for: a sweeping account of China's growing prominence on the international stage. Thirty years ago, China's role in global affairs beyond its immediate East Asian periphery was decidedly minor, and it had little geostrategic power. Today, however, China's expanding economic power has allowed it to extend its reach virtually everywhere: from mineral mines in Africa to currency markets in the West, to oilfields in the Middle East, to agribusiness in Latin America, to the factories of East Asia. Shambaugh offers an enlightening look into the manifestations of China's global presence: its extensive commercial footprint, its growing military power, its increasing cultural influence or soft power, its diplomatic activity, and its new prominence in global governance institutions. But Shambaugh is no alarmist. In this balanced and well-researched volume, he argues that China's global presence is more broad than deep, and that China still lacks the influence befitting a major world power, what he terms a partial power. He draws on his decades of China watching and his deep knowledge of the subject, and exploits a wide variety of previously untapped sources to shed valuable light on China's current and future roles in world affairs.

A Companion to Modern Chinese Literature Yingjin Zhang, 2015-08-13 This wide-ranging Companion provides a vital overview of modern Chinese literature in different geopolitical areas from the 1840s to now. It reviews major accomplishments of Chinese literary scholarship published in Chinese and English and brings attention to previously neglected important areas. Offers the most thorough and concise coverage of modern Chinese literature to date, drawing attention to previously neglected areas such as late Qing Sinophone and ethnic minority literature. Several chapters explore literature in relation to Sinophone geopolitics, regional culture, urban culture, visual culture, print media, and new media. The introduction and two chapters furnish overviews of the institutional development of modern Chinese literature in Chinese and English scholarship since the mid-twentieth century. Contributions from leading literary scholars in mainland China and Hong Kong add their voices to international scholarship.

China's Rise - Threat Or Opportunity? Herbert S. Yee, 2010-10-15 This book presents a comprehensive overview of how China's rise is perceived in a wide range of countries and regions; these include China's neighbours, other world powers, the parts of China not part of mainland China, Taiwan, Hong Kong, and Macau, and regions of the world where China is having an unexpected impact, such as the Middle East.

The "Inscrutably Chinese" Church Nathan Faries, 2010-09-23 The first half of the twenty-first century promises to be a time of great change for the Christian church in the People's Republic of China. The situation is complex and fluid, and the information gap between those on the inside and

those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close

objective of the program and its implementation In the first part of the book the authors first review the development and historical policy of land consolidation and land rehabilitation with a focus on initiatives inaugurated in China since the 1980s The following three chapters analyze different modes approaches and measures of land consolidation The second part focuses on planning patterns designed and implemented in different territorial and geographical regions in China including urban and rural areas ecological function zones mining areas and coastal regions and islands It also looks into the institutional basis supportive measures and mechanisms for the coordinated regional implementation of land consolidation at the macro medium and micro levels Based on their findings the authors advance ten actionable policy suggestions on the promotion of China's land consolidation The title will appeal to scholars students and policy makers interested in economic management land planning and natural resources management Dao Companion to China's fa Tradition Yuri

Pines, 2024-08-14 This volume offers the most comprehensive introduction to the ideas of ancient Chinese thinkers who looked to perfect a political system thru the emphasis on impersonal standards laws and norms fa This book covers the works of these thinkers misleadingly dubbed Legalists as well as the controversies they aroused the legacy they left behind and their potential relevance The fa thinkers contributed decisively to the formation of China's first unified empire in 221 BCE but this contribution was not widely acknowledged Their derision of the moralizing discourse of their rivals dismissal of independent intellectuals as self-serving hypocrites and advocacy of a powerful centralized state did not endear them to most Chinese literati To a certain extent these reservations remain visible in modern research which explains why a comprehensive study of the fa traditions is still lacking This volume fills that gap The first of four parts introduces major texts and thinkers of the fa tradition from the Warring States 453-221 BCE to the Former Han 206-202 BCE 9 CE periods The second part analyzes the major ideas of the fa texts including concepts of fa and their implementation in political and legal spheres views of human nature state society relations rulership morality in politics the evolutionary view of history and philosophy of language The third part focuses on the changing attitudes toward fa ideas in imperial and modern China The fourth part explores the ideas of fa advocates from a comparative perspective both against intellectual currents in early China and Western traditions such as Machiavellianism and totalitarianism This book serves as a reference for students and researchers in ancient Chinese history and thought and comparatists in the field of political philosophy

China—Art—Modernity David Clarke, 2019-01-22 China Art Modernity provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of Imperial rule to the present day The story of Chinese art in the twentieth and twenty-first centuries is shown to be deeply intertwined with that of the country's broader socio-political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book's approach is inclusive In addition to treating art within the Chinese Mainland itself during

the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China's place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke's highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E Harrist Jr Columbia University

Clarke's book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London

Contemporary Chinese Fiction Writers Laifong Leung, 2016-07-28 In the years since the death of Mao Zedong interest in Chinese writers and Chinese literature has risen significantly in the West In 2000 Gao Xingjian became the first Chinese writer to receive the Nobel Prize for Literature followed by Mo Yan in 2012 and writers such as Ha Jin and Da Sijie have also become well known in the West Despite this progress the vast majority of Chinese writers remain largely unknown outside of China This book introduces the lives and works of eighty contemporary Chinese writers and focuses on writers from the Rightist generation Bai Hua Gao Xiaosheng Liu Shaotang writers of the Red Guard generation Li Rui Wang Anyi Post Cultural Revolution Writers as well as others Unlike earlier works it provides detailed often first hand biographical information on this wide range of writers including their career trajectories major themes and artistic characteristics In addition to this each entry includes a critical presentation and evaluation of the writer's major works a selected bibliography of publications that includes works in Chinese works translated into English and critical articles and books available in English Offering a valuable contribution to the field of contemporary Chinese literature by making detailed information about Chinese writers more accessible this book
