and 1911 The text was then compiled and printed in book form in 1912 with only a few slight modifications Following this Johnston revisited the text of both his translation and commentary as he notes in a review article I must not fail he says to express my feeling of indebtedness to Dr Haughton Woods for a closer understanding of a number of technical points which I hope to take advantage of in revising the version of the Sutras I have alluded to Following this reflection several notices appeared in the Theosophical Quarterly announcing Johnston s continuing work of revision until a second revised edition was published in the summer of 1917 It is this version that is presently reproduced verbatim but with an adjustment in formatting providing the translation itself in whole prior to the commentary the addition of this foreword and of additional notes Charles Johnston 1867 1931 was steeped in the wisdom of eastern traditions having translated also the ten Principle Upanishads of the Vedanta the Bhagavad Gita the Tao Teh King of Lao Tse and the Crest Jewel of Wisdom of Sankaracharya Johnston brings his in depth understanding of the Vedanta to reveal the core meaning of Patanjali s sutras the birth of the Spiritual Man

The Yoga Sutras of Patanjali Patanjli Maharishi, Charles Johnston, 2014-04-12 The Yoga Sutras of Patanjali The Book of the Spiritual Man The Essence of Practical Wisdom An Interpretation by Charles Johnston The Yoga Sutras of Patanjali are in themselves exceedingly brief less than ten pages of large type in the original Yet they contain the essence of practical wisdom set forth in admirable order and detail The theme if the present interpreter be right is the great regeneration the birth of the spiritual from the psychical man the same theme which Paul so wisely and eloquently set forth in writing to his disciples in Corinth the theme of all mystics in all lands We think of ourselves as living a purely physical life in these material bodies of ours In reality we have gone far indeed from pure physical life for ages our life has been psychical we have been centred and immersed in the psychic nature Some of the schools of India say that the psychic nature is as it were a looking glass wherein are mirrored the things seen by the physical eyes and heard by the physical ears But this is a magic mirror the images remain and take a certain life of their own Thus within the psychic realm of our life there grows up an imaged world wherein we dwell a world of the images of things seen and heard and therefore a world of memories a world also of hopes and desires of fears and regrets Mental life grows up among these images built on a measuring and comparing on the massing of images together into general ideas on the abstraction of new notions and images from these till a new world is built up within full of desires and hates ambition envy longing speculation curiosity self will self interest **The Yoga Sutras of Patanjali (pocketbook)** Charles Johnston, 2016-07-02 The Yoga Sutras of Patanjali are in themselves exceedingly brief less than ten pages of large type in the original Yet they contain the essence of practical wisdom set forth in admirable order and detail Patanjali has in mind the spiritual man to be born from the psychical His purpose is to set in order the practical means for the unveiling and regeneration and to indicate the fruit the glory and the power of that new birth Charles Johnston The Yoga Sutras of Patanjali are the foundational work of all Yoga practice They contain the essence of practical wisdom set forth in admirable order and detail Patanjali succeeds in showing the student that spirituality is not unscientific

Following this reflection several notices appeared in the Theosophical Quarterly announcing Johnston's continuing work of revision until a second revised edition was published in the summer of 1917. It is this version that is presently reproduced verbatim but with an adjustment in formatting providing the translation itself in whole prior to the commentary, the addition of this foreword and of additional notes. Charles Johnston 1867-1931 was steeped in the wisdom of eastern traditions having translated also the ten Principal Upanishads of the Vedanta, the Bhagavad Gita, the Tao Teh King of Lao Tse and the Crest Jewel of Wisdom of Sankaracharya. Johnston brings his in-depth understanding of the Vedanta to reveal the core meaning of Patanjali's sutras, the birth of the Spiritual Man.
