Women And The Religious Life In Premodern Europe:

Women and the Religious Life in Premodern Europe Patricia Ranft,1996-01 Explores the opportunities for leadership afforded religious women in premodern Europe as well as the ecclesiastical challenges they faced Female Monasticism in Early Modern Europe Cordula van Wyhe,2008 This volume of twelve interdisciplinary essays addresses the multifaceted nature of female religious identity in early modern Europe By dismantling the boundaries between the academic disciplines of history art history musicology and literary studies it offers new cross cultural readings essential to a more comprehensive understanding of the complexity of female spirituality in the sixteenth and seventeenth centuries Consisting of four sections each dealing with different parts of Europe and discussing issues of social and spiritual identity such as the formation of community and memory spiritual direction and secular patronage this compelling collection offers a significant addition to a thriving field of study Women in Medieval Europe Jennifer Ward,2014-06-11 Women in Medieval Europe were expected to be submissive but such a broad picture ignores great areas of female experience Between the thirteenth and fifteenth centuries women are found in the workplace as well as the home and some women were numbered among the key rulers saints and mystics of the medieval world Opportunities and activities changed over time and by 1500 the world of work was becoming increasingly restricted for women Women of all social groups were primarily engaged with their families looking after husband and children and running the household Patterns of work varied geographically In the northern towns women engaged in a wide range of crafts with a small number becoming entrepreneurs Many of the poor made a living as servants and labourers Prostitution flourished in many medieval towns Some women turned to the religious life and here opportunities burgeoned in the thirteenth century The Middle Ages are not remote from the twenty first century the lives of medieval women evoke a response today The medieval mother faced similar problems to her modern counterpart The sheer variety of women s experience in the later Middle Ages is fully brought out in this book Women and Gender in Medieval Europe Margaret Schaus,2006 Publisher description Masterless Mistresses Emily Clark,2012-12-01 During French colonial rule in Louisiana nuns from the French Company of Saint Ursula came to New Orleans where they educated women and girls of European Indian and African descent enslaved and free in literacy numeracy and the Catholic faith Although religious women had gained acceptance and authority in seventeenth century France the New World was less welcoming Emily Clark explores the transformations required of the Ursulines as their distinctive female piety collided with slave society Spanish colonial rule and Protestant hostility The Ursulines gained prominence in New Orleans through the social services they provided schooling an orphanage and refuge for abused and widowed women which also allowed them a self sustaining level of corporate wealth Clark traces the conflicts the Ursulines encountered through Spanish colonial rule 1767 1803 and after the Louisiana Purchase as Protestants poured into Louisiana and were dismayed to find a powerful community of self supporting women and a church congregation dominated by African Americans The unmarried nuns contravened both the

patriarchal order of the slaveholding American South and the Protestant construction of femininity that supported it By incorporating their story into the history of early America Masterless Mistresses exposes the limits of the republican model of national unity **Women in Early Modern Polish Society, Against the European Background** Maria

Bogucka, 2017-03-02 While far fewer studies on women and gender have been published in Poland than in the West the last decade has seen growing interest in gender history among Polish scholars The first general history of Polish women in the early modern times was published by Dr Bogucka in Polish in 1998 the present study constitutes an expansion as well as a translation into English of that seminal work Women in Early Modern Polish Society against the European Background makes widely available to historians and women's studies scholars in the West a mass of information about women in Poland from the 16th to the 18th century previously inaccessible in Polish archives In the preface Bogucka points to the need for theoretical reflection within Polish studies of women's history and the need to develop standard concepts and terms for the study of gender to allow this research to develop further She emphasizes that scholars of women's history must rely on all documents of a given epoch if they want to examine women's lives Urban and rural records especially law court records church archives private archives diaries noblemen's records collections of sermons last wills inventories belles lettres correspondence are all sources which always contain scattered direct or indirect information on women and gender relations Bogucka examines the stages of the typical woman's life girl married woman widow discussing their position in the family and society as well as the societal changes that occurred in this sphere from the sixteenth to the eighteenth century She also looks among other things at the role of women's work in the countryside and in towns according to social status and education religious life which offered possibilities to women to appear and to act outside the home the impact of Reformation on the situation of women the participation of women in the creation and consumption of culture and women's roles in political life Finally she places her discussion of Polish women in comparative context exploring the legal status and general situation of women in Poland against those in Western countries Germany France and England as well as Central and Eastern Europe Hungary Bohemia and Russia **Women in Medieval Europe 1200-1500** Jennifer Ward, 2016-04-14

Women in Medieval Europe explores the key areas of female experience in the later medieval period from peasant women to Queens It considers the women of the later Middle Ages in the context of their social relationships during a time of changing opportunities and activities so that by 1500 the world of work was becoming increasingly restricted to women The chapters are arranged thematically to show the varied roles and lives of women in and out of the home covering topics such as marriage religion family and work For the second edition a new chapter draws together recent work on Jewish and Muslim women as well as those from other ethnic groups showing the wide ranging experiences of women from different backgrounds Particular attention is paid to women at work in the towns and specifically urban topics such as trade crafts healthcare and prostitution The latest research on women gender and masculinity has also been incorporated along with

Schneiders, I.H.M., *Religious Life* Loan Le, 2016-06-22 Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live [Encyclopedia of Women in the Renaissance](#) Anne R.
