Cahill, 2003 This third volume in the pioneering series International Humanitarian Affairs goes beyond the practical to address fundamental questions at the heart of humanitarian actions How do different religious cultural and social systems and the values they support shape humanitarian action What are the bases of caring societies Are there universal values for human well being International experts come face to face with the assumptions about human dignity and social justice that guide efforts to rescue and repair communities in crisis The original essays explore mandates for humanitarian action in religious traditions and codes of conduct for the media military medicine and the academy in relief efforts They explore threats to human welfare from terrorism and gender exploitation and assess international law the media and the politics of civil society in a world of war conflict and strife The contributors Kofi Annan Avery Cardinal Dulles S J Rabbi Harlan J Wechsler H R H Prince El Hassan Bin Talal Francis Mading Deng Maj Gen Timothy Cross Joseph O Hare S J Tom Brokaw Eoin O Brien M D Jan Eliasson Timothy Harding M D Paul Wilkinson Larry Hollingworth Nancy Ely Raphael John Feerick Michael Veuthey Edward Mortimer Kathleen Newland Peter Tarnoff Richard Falk and the editor      **Tropical Medicine** Kevin M. Cahill, 2013-09-01 The history of tropical medicine is as dramatic as the story of humankind It has its own myths and legends including tales of epidemics that destroyed whole civilizations Today with silent stealth tropical diseases still claim more lives than all the current wars combined Having had the privilege of working throughout Africa Asia and Latin America as well as in the great medical centers of Europe and the United States the author presents the details essential for understanding pathogenesis clinical manifestations therapy and prevention of the major tropical diseases The text now in its eighth edition has been used for half a century by medical students practicing physicians and public health workers around the world This fascinating book should also be of interest to a broad nonmedical readership interested in world affairs All royalties from the sale of this book go to the training of humanitarian workers      **Even in Chaos** Kevin M. Cahill, 2013-09-01 Children have a fundamental right to education and to the protection that schools uniquely provide in the chaos that characterizes life for refugees and internally displaced persons This book is grounded in the personal experiences of children aid workers and national leaders involved in post conflict resolution Experts from many troubled parts of the world consider the scope of the problem as well as the tools needed to address the crisis      **The military-humanitarian complex in Afghanistan** Eric James, Tim Jacoby, 2016-09-10 Violent conflict brings together two seemingly disparate groups humanitarians and soldiers This mixes and convolutes agendas blurring lines that are often perceived to be sacrosanct Delving deeply into the history and reasons of why these two groups work in close proximity this study provide a unique insight into the history ethical dilemmas and policy conundrums when aid workers operate close to the military Using Afghanistan as a case study analytical rigour deep primary research

and field knowledge are combined in an exceptional contribution to this important area This book gives scholars and practitioners alike a nuanced perspective on the challenges faced by aid workers military personnel and decision makers alike in countries affected by violent conflicts hosting foreign military interventions and receiving international aid

*Sacred Aid* Michael Barnett, Janice Gross Stein, 2012-07-03 The global humanitarian movement which originated within Western religious organizations in the early nineteenth century has been of most important forces in world politics in advancing both human rights and human welfare While the religious groups that founded the movement originally focused on conversion in time more secular concerns came to dominate By the end of the nineteenth century increasingly professionalized yet nominally religious organization shifted from reliance on the good book to the public health manual Over the course of the twentieth century the secularization of humanitarianism only increased and by the 1970s the movement's religious inspiration generally speaking was marginal to its agenda However beginning in the 1980s religiously inspired humanitarian movements experienced a major revival and today they are virtual equals of their secular brethren From church sponsored AIDS prevention campaigns in Africa to Muslim charity efforts in flood stricken Pakistan to Hindu charities in India religious groups have altered the character of the global humanitarian movement Moreover even secular groups now gesture toward religious inspiration in their work Clearly the broad inexorable march toward secularism predicted by so many Westerners has halted which is especially intriguing with regard to humanitarianism Not only was it a highly secularized movement just forty years ago but its principles were based on those we associate with rational modernity cosmopolitan one worldism and material as opposed to spiritual progress How and why did this happen and what does it mean for humanitarianism writ large That is the question that the eminent scholars Michael Barnett and Janice Stein pose in *Sacred Aid* and for answers they have gathered chapters from leading scholars that focus on the relationship between secularism and religion in contemporary humanitarianism throughout the developing world Collectively the chapters in this volume comprise an original and authoritative account of religion has reshaped the global humanitarian movement in recent times

**More with Less** Kevin M. Cahill, 2013-09-01 Natural and human made disasters are increasing around the world Hurricanes typhoons earthquakes tsunamis droughts and resultant famine floods and armed conflicts are constant reminders of the frailty of our human race Global warming may cause whole island states to be submerged as the oceans rise In the past these acute and recurring crises have been met by the international community responding to UN and media appeals The economic collapse of nations is now a reality some of those most affected had been traditional generous donors to disaster relief operations It is unlikely probably impossible that they will be able to continue to contribute overseas when their own domestic needs are unmet A recent New York Times front page report suggested that one of the few domestic issues to have bipartisan support was to cut the foreign aid budget This book analyzes the global economic forecast and the United Nations pattern of philanthropy provides a case study of how one nation with a tradition of giving will cope in the face of a marked

reduction in flexible funds and then provides thoughtful chapters on new approaches to disaster preparedness and disaster response

To Bear Witness Kevin M. Cahill, M.D., 2013-12-02 For more than fifty years Dr Cahill has been helping to heal the world as a leading specialist in tropical medicine and as a driving force in humanitarian assistance and relief efforts around the globe In this revised and expanded edition he chronicles extraordinary achievements of compassion and commitment Bringing together a rich selection of writings he crafts a fascinating memoir of a life devoted to others The book includes front line reports from places under siege Lebanon Somalia Sudan Nicaragua Gaza and Ireland there are also visionary essays from the origins of the AIDS epidemic and landmine crises and no less passionate concerns of his own experiences of pain and suffering as well as of joy and beauty in the worlds in which he has traveled As the distinguished neurologist and author Oliver Sacks M D notes in his endorsement These essays by turns elegiac lyrical funny tender nostalgic and vehemently impassioned come together in an ongoing tapestry a portrait of a dedicated physician who has dared to make a difference
