Jazz on the River William Howland Kenney,2005-04 Jazz on the River describes how musical entrepreneurs gave the music of New Orleans to mainstream America in the 1920s by quite literally sending their musicians upstream aboard riverboats that plied the Mississippi waterways every summer Traditional Anglo-American Folk Music Norm Cohen,2015-12-22 Originally published in 1994 Filling a gap in the sound recordings of traditional Anglo American folk music this volume covers both vocal and instrumental material from the 1920s to the 1990s The listings have also been limited to performers native to the tradition rather than revival performers The album selection is grouped into field recordings and commercial pre 1942 recordings with subdivisions into individual recordings or anthologies The discography not only reflects its author s in depth knowledge of Anglo American folk music s historical development but charts a valuable step forward in the evaluation as well as select listing of available sound recordings *Harnessing the Technicolor Rainbow* Scott Higgins,2009-02-17 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film s imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema MY SISTERS Allan Ishmael Young,2012-11-02 My memoirs of my two older sisters their home lives their education their husbands their children **Edison Phonograph Monthly** Thomas A.
