

THE VERY HUNGRY CATERPILLAR

In the light of the moon a little egg lay on a leaf.

One **Sunday** morning the warm sun came up and pop! – out of the egg came a tiny and very hungry caterpillar.

He started to look for some food.

On **Monday** he ate through one apple. But he was still hungry.

On **Tuesday** he ate through two pears, but he was still hungry.

On **Wednesday** he ate through three plums, but he was still hungry.

On **Thursday** he ate through four strawberries, but he was still hungry.

On **Friday** he ate through five oranges, but he was still hungry.

Literacy in School and Society Elizabetta Zuanelli Sonino, 2013-06-29 The function and notion of literacy may be considered the keystone a filigree principle underlying the educational social and cultural organiza tion of the societies of the twentieth century It is therefore interesting to try to pinpoint the notion and its implications at the tum of the century by focusing the attention of scholars from various disciplines sociolinguistics

psychology psycholinguistics and pedagogy on the subject This is the purpose of this volume which originated from an interdisciplinary meeting on trends in and problems of research on early literacy through mother tongues and or second languages held in Venice under the auspices of the University of Venice and in particular of the Seminario di Linguistica e di Didattica della Lingue and the Centro Linguistico Interfacolta and the Municipality of Venice together with UNESCO and AILA A first far reaching question touches on the role assigned to or fulfilled by mass literacy in modern society The concept of literacy considered as a social achievement an essential component in the process of education to be institutionally prompted and controlled fluctuates between two opposite poles A polemic destructive view considers the notion and the educational practices connected with it as a potent instrument of social control a tool for social reproduction and consensus On the other side a plurifunctional constructive view considers the acquisition and maintenance of different languages via educational institutions as a concrete possibility for the defense and maintenance of cultural pluralism and identity be it social ethnic or religious

Spinning the Cosmos Alica-Nana Citron, 2025-05-29 This open access book investigates the epistemological concept of and the knowledge transfer interwoven with the moveable paper wheels found in medieval and early modern books the so called volvelles The earliest known volvelles emerged in the mid thirteenth century and were cut out and installed by the reader often appearing in books dealing with astronomical subjects The brain processes and remembers images more easily than words the so called picture superiority effect especially if the images move making volvelles a useful method to help students of the Quadrivium memorizing the heavenly movements thus the composition of a device embedded within a text promises a comprehensive insight into the didactic concepts of early modern knowledge transfer The Tractatus de Sphaera by Johannes de Sacrobosco 1195 1256 the standard university textbook for astronomy from the thirteenth until the seventeenth century was particularly noted as containing volvelles of different kinds The project The Sphere located at the Max Planck Institute for the History of Science in Berlin has collected a corpus of 359 printed De sphaera editions building a promising basis for examining different volvelles and placing the results in a cultural context These volumes had never been analyzed in detail before nor was there such a large corpus that could provide a quantitative database for such an investigation The results of the book show that a book and knowledge tradition as widespread as that of the Sphaera contained more than one third of volvelles and was used in university teaching in the early modern period For historians this sheds light on a new aspect of movable paper instruments in university didactics and book history in the early modern period
