The Ethical School Felicity Haynes, 2002-01-04 Conflicts often arise between regulations making it difficult for school management teams and teachers to resolve situations with appropriate dignity and respect for all concerned This book discusses provocative actual case studies to help teachers to reflect on their own ethics guiding them to make more reasonable decisions in their schools and thereby gradually transforming schools into more cohesive and caring communities A model of consequences consistency and caring each aspect based on traditional ethical theories provides a scientific base a rational and a responsive base for ethical decision making This work covers such everyday problems as censorship inclusivity school uniform punishment personal gain and confidentiality and argues that care and respect for others equity rational autonomy and concern for long term benefits are more important for a school community than short term power and control

Freedom, Rights And Pornography Bruce Russell, 2012-12-06 In the essays that follow Fred Berger argues for freedom of expression civil disobedience affirmative action and what he calls liberal judicial activism and against sex role stereotyping paternalism and the censorship of pornography Underlying his liberalism is a unified theory That theory consists of a conception of rights a theory of value and a theory of government The conception of a right that Berger defends derives from John Stuart Mill and is captured by what he calls the rights formula to have a right is to have important interests that society ought to protect as a matter of general rule pp 2 7 17 18 19 95 Since rights are to be protected by general rule case by case consideration of consequences is ruled out pp 3 18 96 and neither modest increases in the general welfare nor majority opinion can justify the violation of a right pp 14 15 17 18 Berger combines this view of the nature of a right with an objective theory of value according to which the important interests that ought to be protected are ones that people have whether they know them or not whether they desire that in which they have an interest or not p

Character Deborah L. Rhode, 2019-08-02 As Deborah L Rhode explains in this wide ranging work the American public has long insisted on the central importance of character but has failed to adequately nurture and sustain it in families schools law and politics All too often our understandings of character

are out of step with psychological research and fundamental values *Anarchy and Apocalypse* Ronald E. Osborn, 2010-06-01 In this wide ranging collection of essays Ronald E Osborn explores the politically subversive and nonviolent anarchist dimensions of Christian discipleship in response to dilemmas of power suffering and war Essays engage texts and thinkers from Homer's Iliad the Hebrew Bible and the New Testament to portraits of Dietrich Bonhoeffer Noam Chomsky and Elie Wiesel This book also analyzes the Allied bombing of civilians in World War II the peculiar contribution of the Seventh day Adventist apocalyptic imagination to Christian social ethics and the role of deceptive language in the Vietnam War From these and other diverse angles Osborn builds the case for a more prophetic witness in the face of the violence of the principalities and powers in the modern world This book will serve as an indispensable primer in the political theology of the Adventist tradition as well as a significant contribution to radical Christian thought in biblical historical and literary perspectives Human Interests Nicholas Rescher, 1990 Philosophical anthropology is the philosophical study of the conditions of human existence and the issues that confront people in the conduct of their everyday lives This book surveys from a contemplative philosophical point of view a wide variety of human interest issues including happiness luck aging the meaning of life optimism and pessimism morality and faith and belief The author's deliberations blend historical theoretical and personal perspectives into philosophical appreciation of the human condition The philosophers of Greek antiquity took philosophy to center around just this issue of intelligent living of determining the nature of life under the guidance of reason Such a perspective puts philosophical agenda a position it contested with the philosophy of nature throughout classical antiquity In more recent times however its prominence has declined no doubt the author suggests because modern man's achievements have been more notable in the natural than in the human science **The Tragedy of Common Sense** John P. Clark, 2016-08-01 Introduction by Salvatore Engel Di Mauro Foreword by Ariel Salleh This book takes as its object of critique one of the best known and most influential arguments in contemporary applied ethics which is biologist Garrett Hardin's case for lifeboat ethics John Clark analyzes the moral dimensions of world hunger foreign aid immigration policy and population growth Clark critiques the lifeboat ethics as a way to explore in depth both the common and the commons It is about the truth we hold in common and about certain falsehoods that we hold in common This book also contains Garrett Hardin's 1974 essay Living on a Lifeboat **A Double-Edged Sword** Brenda E. Novack, 2014-05-19 On first consideration one might not be inclined to view Adolf Hitler and Dietrich Bonhoeffer in relation to Jehanne d Arc Joan of Arc but Brenda E Novack does just that She demonstrates how these three prominent figures who influenced world history all acted in accordance with what they claimed or perceived to be divine sanction of their participation in violence Taking the reader on a unique exploration of their lives and deaths Novack identifies significant similarities and differences in notions of divine call and human response conveyed by these personalities and determines how they align or fail to align with the biblical prophetic tradition Taking Jehanne d Arc as her foundational study the author engages important theological issues such as the nature

of revelation evil and morality The process culminates in the construction of a model of righteous warfare and human agency presented as a tool for evaluating claims to divinely sanctioned violence and as a potentially effective alternative to an outmoded and currently inadequate just war model Case studies of Hitler and Bonhoeffer tentatively establish the model's ability to steer humanity away from unnecessary destruction toward justice compassion and peace Awakening Warrior Timothy L. Challans, 2010-03-10 2007 CHOICE Outstanding Academic Title Awakening Warrior argues for a revolution in the ethics of warfare for the American War Machine those political and military institutions that engage the world with physical force Timothy L. Challans focuses on the systemic institutional level of morality rather than bemoaning the moral shortcomings of individuals He asks What are the limits of individual moral agency What kind of responsibility do individuals have when considering institutional moral error How is it that neutral or benign moral actions performed by individuals can have such catastrophic morally negative effects from a systemic perspective Drawing upon and extending the ethical theories of Kant Dewey and Rawls Challans makes the case for an original set of moral principles to guide ethical action on the battlefield Challans's call for reformation combined with a demand for a new set of moral principles to govern the ethical behavior on the battlefield is certain to garner the attention and ire of many readers and military leaders Parameters This is an important book that needs to be read and taken seriously If it is it could be as revolutionary as its subtitle suggests CHOICE **We the Gamers** Karen Schrier, 2021-04-30 Combining research based perspectives and current examples including Minecraft and Animal Crossing New Horizons We the Gamers shows how games can be used in ethics civics and social studies education to inspire learning critical thinking and civic change Holy War, Just War Lloyd Steffen, 2007-03-26 Holy War Just War explores the dark side in Christianity Islam and Judaism by examining how the concept of ultimate value contributes to religious violence The book states that religion has within its own conceptual tools the resources to understand its own dark side and that religious people must subject their religion to a moral vision of goodness and constrain those parts that make for violence and hatred
