Vietnam Mekong Source Vie 2016

Tuyet L. Cosslett, Patrick D. Cosslett

Vietnam Mekong Source Vie 2016:

From Mekong Commons to Mekong Community Seiichi Igarashi, 2021-11-29 Considering the Mekong region as an aggregation of various commons the contributors to this volume investigate the various commons across the boundaries of the humanities social sciences and natural sciences The book incorporates the specialized fields of political science area studies public policy international relations international development geography economics business administration public health engineering agricultural economics tropical agriculture and biotechnology The contributions to the book cover various issues including innovation and technology transport and logistics public health and literacy traditional medicine infectious diseases advanced agricultural technologies irrigation water resources labor migration human trafficking and counterfeiting They examine various commons and goods related to these issues and discuss practices policies decision making processes and governance strategies for imagining a future Mekong Community that will avoid the tragedy and explore the comedy of the commons anti commons A valuable resource for scholars of the Mekong region and more broadly for academics working on the interdisciplinary study of transboundary governance issues Water and Power Mart A. Stewart, Peter A. Coclanis, 2018-12-12 This book brings together a talented international group of scholars policy practitioners and NGO professionals that explores a range of issues relating to environmental developmental and governing challenges on the Mekong one of the world's greatest rivers and alas one of the most endangered The book is divided into three sections devoted in turn to historical perspectives on the Lower Mekong Basin Issues relate to livelihood strategies environmental threats and adaptation strategies and various aspects of river governance with individual authors treating questions of governance at different levels of refraction and in different registers The result is a fresh and innovative collection of essays which taken together provide much needed new perspectives on some of the most important and seemingly intractable environmental and development issues in contemporary Asia **Energy Policy for Peace** Daniel Kammen, Hisashi Yoshikawa, Kensuke Yamaguchi, 2023-08-25 Though sustainable development goals and other international initiatives have insisted on the importance of energy access in peace building there is still little understanding about the extent to which energy systems themselves can contribute to or mitigate structural violence While there are ample relevant examples globally from a diverse literature and increasing body of case studies this knowledge has not been systematically organized to show theoretical alternatives to current energy systems or deliver practical policy advice in building such alternatives Informed by the contributions of a multidisciplinary global author pool Energy Policy for Peace provides both a new foundation for researchers and practitioners exploring how energy systems can be changed to build positive peace and a toolkit for redressing structural violence The work opens by reviewing how unequal energy access strengthens structural violence It argues that increasing access to energy access may be an important tool in mitigating structural violence It concludes with practical policy recommendations and institutional reforms designed to mitigate the structural violence

embedded in many energy systems and develop energy strategies for peace building Reviews the characteristics of energy systems that enable positive peace Discusses practical recommendations to achieve positive peace through energy strategy and policies Draws on an array of real world case studies drawn from an exemplary team of international practitioners Provides a toolkit of policy options for stakeholders interested in redressing structural violence Proposed Loans, Socialist Republic of Viet Nam, Greater Mekong Subregion ,2007 *Subjects and Sojourners* Charles Keith,2024-03-05 *Subjects and Sojourners* explores how French colonial rule in Indochina extended Indochina s colonial society into France Perhaps two hundred thousand Indochinese sojourned in France between conquest in the 1850s and decolonization a century later They came from all parts of colonial society from ruling monarchs to the most marginal laborers In France they studied labored fought and lived in contexts that although still within the empire remained profoundly different from their places of origin Their French sojourns were socially culturally and politically transformative And when these sojourners returned to Indochina virtually all parts of colonial society bore traces of their experiences abroad *Subjects and Sojourners* shows in short that Indochina did not simply receive and refashion France in the colony they went and lived it for themselves

Pirates of Empire Stefan Eklöf Amirell,2019-08-29 This comparative study of piracy and maritime violence provides a fresh understanding of European overseas expansion and colonisation in Asia This title is also available as Open Access on Cambridge Core Progress in Landslide Research and Technology, Volume 3 Issue 1, 2024 Biljana Abolmasov,Irasema Alcántara-Ayala,Željko Arbanas,David Huntley,Kazuo Konagai,Snježana Mihalić Arbanas,Matjaž Mikoš,Maneesha V. Ramesh,Kyoji Sassa,Shinji Sassa,Huiming Tang,Binod Tiwari,2024-06-10 This open access book provides an overview of the progress in landslide research and technology and is part of a book series of the International Consortium on Landslides ICL The book provides a common platform for the publication of recent progress in landslide research and technology for practical applications and the benefit for the society contributing to the Kyoto Landslide Commitment 2020 which is expected to continue up to 2030 and even beyond to globally promote the understanding and reduction of landslide disaster risk as well as to address the 2030 Agenda Sustainable Development Goals **Rice Literature Update** ,1998 Drought in the Anthropocene / Les sécheresses dans l'anthropocène Gjerdi, Hanna Lønning,Gunn, Tobias,Mishra, Anil,Pulwarty, Roger S.,Sheffield, Justin,2019-11-15 **Water Resources and Food Security in the Vietnam Mekong Delta** Tuyet L. Cosslett,Patrick D. Cosslett,2013-11-22 The Mekong River has been a main source of conquest conflict and cooperation in the Southeast Asian region Much has been written on the vital and critical importance of the Mekong River fresh water to the sustainable economic development of the Mekong Delta This book selects the Mekong Delta as a case study of regional cooperation for water and food security for not only for Vietnam but also for the world in a new century of global economy It focuses not only on the Mekong Delta as an integral part of the River but also on Can Tho City and its 12 provinces that produce over 50 percent of the country s rice output and 60 percent of total fishery output The book takes a micro approach

to examine how each province is adapting to the twin threats of mainstream dams construction and climate change reducing fresh water flows and increasing saline infusions on its present and future economy Finally it reviews the roles of international institutional arrangements namely the Mekong Committee and the Mekong River Commission in promoting regional cooperation among the riparian states for political and economic development of the Mekong Delta *Life Along the Mekong : Asia's River People from China to Vietnam* Stan "Sesser,2003 The Mekong river flows from the remote headwaters of China through Laos Burma Thailand Cambodia and Vietnam to spill out into the South China Sea This book journeys from hidden tribes to cities about to be buried under new reservoirs to cut a time line through this Asian region

Mekong—The Occluding River Ngo The Vinh,2010-07-14 Part travelogue part history and part environmental treatise Mekong The Occluding River is above all else an urgent warning that factors such as pollution ecological devastation and the depletion of natural resources are threatening the very existence of the Mekong River Author Ngo The Vinh combines his vivid travel notes and collection of photographs with a meticulously researched history of the environmental degradation of the Mekong River Translated from Vietnamese the best selling treatise outlines the myriad threats facing the river today From oil shipments feeding the industrial cities of southwestern China to gigantic hydroelectric dams known as the Mekong Cascades in Yunnan province China is the worst environmental offender though the other nations along Mekongs banks behave no better From Thailand to Laos to Vietnam hydroelectric dams that threaten the Mekong and its inhabitants are being built at an alarming rate To save the Mekong Ngo The Vinh calls upon all the nations that benefit from its life giving water to observe the Spirit of the Mekong in the implementation of all future development projects To achieve this end there must be a concerted and sustained commitment to cooperation and sustainability At this critical cross roads we should remind ourselves of the mantra from Sea World San Diego Extinction is forever Endangered means we still have time **A Dragon Lives Forever** Thomas R. Hargrove,2008 Originally published by Ivy Books a division of Ballantine Books in 1994 Pub The Vietnamese Hydrocracy and the Mekong Delta Simon Benedikter,2014 Subduing nature and harnessing water resources rose to become the key paradigm of modernization in the Vietnam s Mekong Delta Over the past 40 years waterscape engineering turned Vietnam s largest river estuary into one of the most agriculturally productive areas in the world This book traces water resources development from the time of the socialist oriented hydraulic mission and Green Revolution which began in the late 1970s under the economic rationale of central planning to more recent trends responding to renovation policy global environmental change and Vietnam s capitalist transformation Analytically the focus is with the nexus of water regulation bureaucratic power and socio ecological change as well as the vested interests and corresponding strategic actions that coalesce around the technocratic hydro management Going beyond the scope of the Mekong Delta the book offers new perspectives and critical reflections on water governance dynamics and institutional reforms in Vietnam from both historical and contemporary perspectives Series ZEF Development Studies Vol 25 Subject Asian Studies

Vietnamese Studies Hydrology Environmental Studies Natural Resources **River at Risk** Milton E. Osborne, 2004 This Paper delves into the conflict in the Mekong between countries desire for hydroelectric power to satisfy soaring demand and the Mekong s fragile ecosystem and role as a primary food source Over 70 million people depend directly on the river for their livelihood Effective regional governance of the Mekong is needed but is not forthcoming **Mekong Delta Handbook (Band 1)** Detlef Briesen, Vo Van Thang , 2021-09-14 The Mekong Delta is the lowest section of the gigantic Mekong River In a strictly geographical sense the delta landscape already begins in Cambodia but in international perception Mekong Delta refers primarily to the actual estuary of the river which drains into the sea on Vietnam s territory via nine main branches and a labyrinth of natural and artificial waterways Hence its Vietnamese name S ng C u Long Nine Dragon River The Mekong is one of the last largely unregulated and relatively unpolluted major rivers on the Asian mainland Its value for the ecological diversity of the entire Southeast Asian region is inestimable and therefore all the more threatened by water pollution and gigantic dam projects The Mekong Delta is contrary to a perception often prevalent a human made environment It was created in a process of conflict and cooperation between the peoples of the region that lasted at least three centuries But the Mekong Delta is also threatened from another side from the sea The level of the world s oceans is already rising due to global warming We try to give an overview of the Vietnamese Mekong Delta from different scientific perspectives and for a broader audience The book is an outcome of the very fruitful cooperation between Justus Liebig University Gie en Germany and An Giang University in Long Xuyen member of the National University of Vietnam VNU Ho Chi Minh City **Mekong River** Caroline Courtauld, 2012-07 Regional map of Mekong River featuring Cambodia China provinces of Yunnan and Guangxi Laos Myanmar Thailand and Vietnam Mekong Source to Sea strip map Comprehensive notes with cultural and historical info on key places and people **Tracing and Making the State** Nadine Reis, 2012 Lack of access to clean water is an urgent problem in developing countries including Vietnam This book investigates the everyday politics of domestic water supply and sanitation in the rural Mekong Delta It offers new theoretical perspectives on policy making in Vietnam as well as the cultural aspects of globalization The book shows that policy practices have to be understood as mechanisms for the re production of a political order manifest in the cultural and social properties of the Vietnamese state It provides a critical perspective on donor support to Vietnamese water policy and practice Series ZEF Development Studies Vol 20 **The Mekong Delta System** Fabrice G. Renaud, Claudia Kuenzer, 2012-06-01 This book about the Mekong Delta presents a unique collection of state of the art contributions by international experts from different scientific disciplines about the characteristics and pressing water related challenges of the Mekong Delta in Vietnam The Mekong Delta belongs to one of the areas which are to expect the largest challenges concerning environmental change and climate change induced sea level rise The Delta acts as the rice bowl of Southeast Asia and is home to over 17 Million people who need to cope with ecologic as well as socio economic changes linked to the rapid economic development of the country Annual floods severe droughts salt water

intrusion degrading water quality tropical cyclones hydrologic changes due to hydropower projects in the upstream of the Mekong coastal erosion and the loss of biodiversity are some of the problems in the region Heterogeneous resource management responsibilities and the fact that the Mekong and thus also the Delta is influenced by six countries aggravate the situation Integrated water resources management and fostered cooperation and information exchange are pressing needs for the sustainable development of the Delta The Mekong Milton E. Osborne, 2009

Delve into the emotional tapestry woven by in Dive into the Emotion of **Vietnam Mekong Source Vie 2016** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; itis a journey of connection and profound emotion.
