

YSP-1000 QUICK REFERENCE GUIDE

This quick reference guide explains steps to connect a TV and a DVD player to this unit and activate the surround sound effects in a quick, easy manner. For detailed operation, refer to the Owner's Manual.

Installing this unit

Decide where to install this unit.

Install the unit where you can enjoy the optimum sound effect by placing the unit in a suitable position. However, do not connect power leads to the unit without the power lead for the unit is installed. The power lead for the unit is installed with the unit in its location.

Install the unit in the exact center of the wall when it is measured from the left and right corners.

▶ In exact center position

Install the unit in the corner at a 45° to 90° angle from the adjacent walls.

▶ In exact corner position

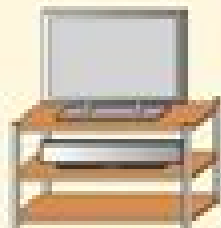

Install this unit either above or under your TV.

Please read the following for reference. For further information on installation, see pages 11 and 12 of the Owner's Manual. Make sure you use the supplied hardware to prevent an accidental fall of this unit (see page 11 of the Owner's Manual).

When installing this unit above your TV, place it on the top panel of a commercially available rack as shown below. Make sure that the top panel of the rack is wide and strong enough to support the weight of this unit.

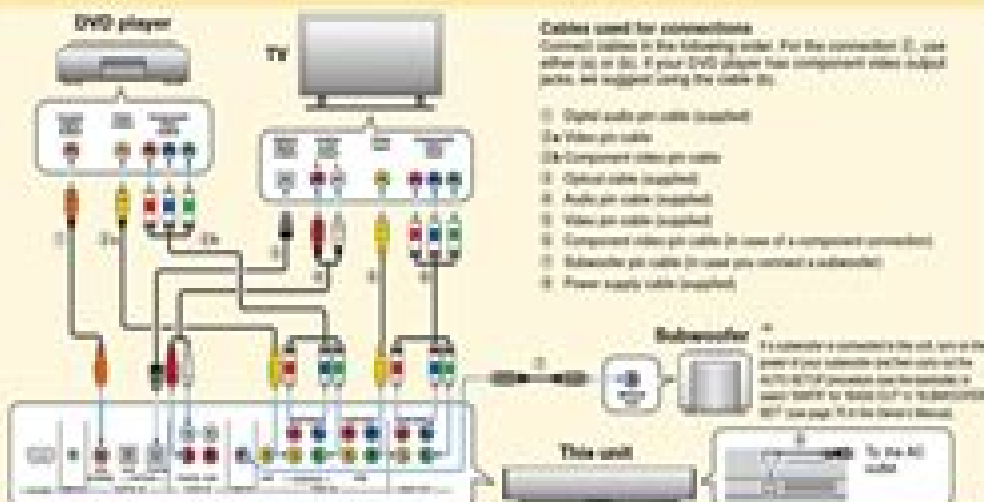

When installing this unit under your TV, place it in a TV cabinet as shown below. Make sure that the cabinet is large enough to allow adequate ventilation space around this unit. To enjoy better surround effects, place this unit on the upper shelf to keep it away from the floor.

Connecting external components to this unit

Connect external component such as a TV or DVD player to this unit.

Connect your TV or DVD player to the unit using appropriate cables as shown below. Connecting a subwoofer enhances bass sound for listening enjoyment. For further information on connecting other components, see pages 13 to 15 of the Owner's Manual.

Setting up the listening environment automatically

Connect the optimizer microphone to this unit.

For automatic setup of the listening environment, connect the optimizer microphone. The microphone checks sound to adjust equipment that makes the setup easy.

Connect the optimizer microphone to the OPTIMIZER MIC jack on the front panel.

Optimizer microphone (not supplied)

Remember the optimizer microphone must be placed in the listening position to be used at the time.

Set the optimizer microphone at your normal listening position. Use the supplied subwoofer microphone stand as a tripod or to place the optimizer microphone at the same height as your ears (about 1.6m) when you are seated.

Place the optimizer microphone on the subwoofer stand at the OPT MIC 1 or OPT MIC 2 (or more) holes (see 1, 2, 3, 4). Make sure place the optimizer microphone (see 1 or 2) at the same height as the ear.

If you have not the optimizer microphone, follow the steps on the backside to start the IntelliBeam™ procedure.
