Análisis que representa una de las reafirmaciones más completas de la centralidad del trabajo como campo de estudio. Su objetivo principal es según el coordinador dar cuenta del estado del arte de la disciplina en forma ampliada desde el punto de vista de las teorías más importantes y de los resultados de la investigación empírica en nuestra región. Manual de trabajo social Manuel Sánchez Rosado, 2000. *Estadísticas históricas de España* Carlos Barciela López, Albert Carreras, Xavier Tafunell, 2005. Esta publicación es la suma de varias obras: un anuario estadístico de dos siglos combinado con una serie de estudios introductorios más guías de fuentes y bibliografías. El grueso de la obra lo constituyen más de cinco mil columnas de datos referenciadas en índices analíticos onomásticos y toponímicos que permiten indagar en la práctica totalidad de los ámbitos estudiados: el clima, la población y la salud, la educación, el sector agrario y la pesca, la industria, la urbanización y la vivienda, los transportes y las comunicaciones, el sector exterior, el sistema monetario y financiero, la empresa y la bolsa, la investigación y el desarrollo, el sector público administrativo y el Estado, el bienestar, el Gobierno y la Administración, la política y las elecciones, el trabajo y las relaciones laborales, el consumo y los precios y la renta y la riqueza. Esta segunda edición actualizada, revisada y ampliada con nuevos capítulos y temas y preparada por veinticinco autores, dejará una huella profunda en el conocimiento de la España contemporánea. Además sitúa a nuestro país en el selecto grupo de naciones que disponen de colecciones de estadísticas históricas de amplio espectro temático y cronológico contribuyendo de este modo al desarrollo de los estudios comparativos. *Trabajo social* Karen Healy, 2001-05. Cómo tendremos que responder los trabajadores y trabajadoras sociales a las crisis que rodean los estados de bienestar del siglo XXI. Karen HEALY cuestiona muchas de las ideas consideradas como aceptables acerca del poder y la identidad profesionales así como los tipos de prácticas de trabajo social necesarios para seguir intentando incrementar el estado de bienestar como un proyecto emancipador. Para facilitar el debate la autora plantea tres grandes cuestiones: Una revisión general de la ciencia social crítica y de las teorías postestructurales y sus consecuencias para las prácticas emancipadoras. La investigación empírica del poder, la identidad y el cambio en contextos de prácticas convencionales y críticos. Una discusión acerca de las consecuencias de las teorías post para la reestructuración del trabajo social proponiendo nuevas direcciones para la teoría y la investigación sobre trabajo social crítico. Este libro original y estimulante tiene entre sus principales objetivos favorecer el trabajo social crítico en las diversas direcciones que marcan las nuevas teorizaciones en el ámbito de las ciencias sociales y de este modo contribuir a incrementar prácticas sociales que generen mayores posibilidades de emancipación. HEALY considera la relevancia de esta obra para la práctica y tomando ejemplos concretos de trabajo social muestra cómo su aplicación se orienta a un nuevo pragmatismo preocupado por propuestas más locales y contextualizadas. Sin embargo la autora advierte que nunca se debe olvidar que el trabajo social tiene que contribuir a producir cambios para lograr una sociedad más humana en la que se alcancen mayores cotas de justicia social. Constituye por tanto una lectura esencial para estudiantes, profesorado y quienes trabajan e investigan sobre trabajo social y política social. Karen HEALY es profesora de Trabajo Social en la Universidad de Sidney.
