Trade And Public Health The Wto Tobacco Alcohol And Diet:

Trade and Public Health Benn McGrady, 2014-05-14 Non communicable diseases associated with risk factors such as tobacco consumption poor diet and alcohol use represent a growing health burden around the world The seriousness of non communicable diseases is reflected in the adoption of international instruments such as the WHO Framework Convention on Tobacco Control the WHO Global Strategy on Diet Physical Activity and Health and the WHO Global Strategy to Reduce the Harmful Use of Alcohol In line with these instruments states are beginning to use measures such as taxes restrictions on marketing product regulation and labeling measures for public health purposes This book examines the extent to which the law of the World Trade Organization restricts domestic implementation of these types of measures The relationship between international health instruments and the WTO Agreement is examined as are the WTO covered agreements themselves

Medical Trade, Public Health, and the Law Nayung Kim, 2023-05-05 Faced with evolving trade and health dynamics this book presents a historical conceptual and empirical examination of public health and medical procurement in international trade law at a time of emergency The work argues that the current trade framework is outdated and must be redesigned to suit the new needs of the 21st century It identifies critical problems within the current international trade system that prevents it from effectively responding to pandemics as well as to the emerging digital economy Based on the analysis the study puts forward specific suggestions to upgrade the current trade rules framework to prepare for future international public health emergencies and further digitalization of health services The book will be a valuable resource for academics researchers and policy makers working in the areas of International Trade Law Public Health Law and Medical Law

Public Health in International Investment Law and Arbitration Valentina Vadi, 2013-03-05 Is a State free to adopt measures to protect the public health of its citizens If so what are the limits if any to such regulatory powers This book addresses these questions by focusing on the clash between the regulatory autonomy of the state and international investment governance As a wide variety of state regulations allegedly aimed at protecting public health may interfere with foreign investments a tension exists between the public health policies of the host state and investment treaty provisions Under most investment treaties States have waived their sovereign immunity and have agreed to give arbitrators a comprehensive jurisdiction over what are essentially regulatory disputes Some scholars and practitioners have expressed concern regarding the magnitude of decision making power allocated to investment treaty tribunals This book contributes to the current understanding of international investment law and arbitration addressing the fundamental question of whether public health has and or should have any relevance in contemporary international investment law and policy With a focus on the clash of cultures between international investment law and public health the author critically analyses the emerging case law of investment treaty arbitration and considers the theoretical interplay between public health and investor rights in international investment law The book also explores the interplay between investment law and public health in practice

focusing on specific sectors such as pharmaceutical patents tobacco regulation and environmental health It then goes on to analyze the available means for promoting consideration of public health in international investment law and suggests new methods and approaches to better reconcile public health and investor rights

Regulating Tobacco, Alcohol and Unhealthy Foods Tania Voon, Andrew Mitchell, Jonathan Liberman, 2014-07-25 The need to reduce disability and premature deaths from non communicable diseases NCDs is increasingly engaging international organisations and national and sub national governments In this book experts from a range of backgrounds provide insights into the legal implications of regulating tobacco alcohol and unhealthy foods all of which are risk factors for NCDs As individual countries and the international community move to increase targeting of these risk factors affected industries are turning to national and international law to challenge the resulting regulations This book explores how the effective regulation of tobacco alcohol and unhealthy foods can be achieved within the context of international health law international trade and investment law international human rights law international intellectual property law and domestic laws on constitutional and other matters Its contributors consider the various tensions that arise in regulating NCD risk factors as well as offering an original analysis of the relationship between evidence and health regulation Covering a range of geographical areas including the Americas the European Union Africa and Oceania the book offers lessons for health and policy practitioners and scholars in navigating the complex legal fields in which the regulation of tobacco alcohol and unhealthy foods takes place

Public Health and International Economic Law Amandine Garde, Gregory Messenger, 2025-06-25 Available open access digitally under CC BY NC ND licence Although non communicable diseases NCDs such as cancers diabetes and heart diseases are preventable they have risen dramatically over the last 30 years This is in part due to increased international trade and foreign direct investment in the tobacco alcohol and food industries As governments attempt to regulate these industries this book raises important and timely questions about the relationship between public health and international trade and investment law Providing a clear and succinct analysis of the relevant trade and investment regimes and the obligations they impose this book identifies the key principles that must be considered when formulating and implementing NCD prevention strategies that are both effective and able to withstand legal challenges

Global Governance and Public Health Geoffrey B. Cockerham, 2018-09-13 Global health issues transcend national borders and state sovereignty As a result a collective response at the international level is necessary to effectively address these problems This response however is not simply based on medical expertise or technology but is largely dependent on politics Health has become inextricably linked to policies developed by global governance whether these policies involve the surveillance and the prevention of the spread of infectious disease across borders the distribution and consumption of goods that pose a health risk through international commerce the right to quality health for everyone or the protection of human health from climate change and environmental degradation International relations theories provide a key analytical tool for understanding the dynamics of the political

process in global governance in addressing health issues in an increasingly globalized world Each chapter will features boxes highlighting case studies relevant to the material discussion questions and suggested readings
