Trained To Kill Soldiers At War

Maja Zehfuss

Trained To Kill Soldiers At War:

Trained to Kill Theodore Nadelson, 2005-05-18 A triumph Nadelson's legacy is a brilliant book that concisely lays out the unrelenting madness of war by examining the psychological carnage it inflicts on the men who survive San Diego Union Tribune

Sexual Violence during War and Peace J. Boesten, 2014-04-16 Using the Peruvian internal armed conflict as a case study this book examines wartime rape and how it reproduces and reinforces existing hierarchies Jelke Boesten argues that effective responses to sexual violence in wartime are conditional upon profound changes in legal frameworks and practices institutions and society at large

War and the Politics of Ethics Maja Zehfuss, 2018 Contemporary Western war is represented as enacting the West's ability and responsibility to help make the world a better place for others in particular to protect them from oppression and serious human rights abuses That is war has become permissible again indeed even required as ethical war At the same time however Western war kills and destroys This creates a paradox Western war risks killing those it proposes to protect This book examines how we have responded to this dilemma and challenges the vision of ethical war itself exploring how the commitment to ethics shapes the practice of war and indeed how practices come in turn to shape what is considered ethical in war The book closely examines particular practices of warfare such as targeting the use of cultural knowledge and ethics training for soldiers What emerges is that instead of constraining violence the commitment to ethics enables and enhances it The book argues that the production of ethical war relies on an impossible but obscured separation between ethics and politics that is the problematic politics of ethics and reflects on the need to make decisions at the limit of ethics

The Lonely Soldier Helen Benedict, 2010-04-01 The Lonely Soldier the inspiration for the documentary The Invisible War vividly tells the stories of five women who fought in Iraq between 2003 and 2006 and of the challenges they faced while fighting a war painfully alone More American women have fought and died in Iraq than in any war since World War Two yet as soldiers they are still painfully alone In Iraq only one in ten troops is a woman and she often serves in a unit with few other women or none at all This isolation along with the military's deep seated hostility toward women causes problems that many female soldiers find as hard to cope with as war itself degradation sexual persecution by their comrades and loneliness instead of the camaraderie that every soldier depends on for comfort and survival As one female soldier said I ended up waging my own war against an enemy dressed in the same uniform as mine In The Lonely Soldier Benedict tells the stories of five women who fought in Iraq between 2003 and 2006 She follows them from their childhoods to their enlistments then takes them through their training to war and home again all the while setting the war's events in context We meet Jen white and from a working class town in the heartland who still shakes from her wartime traumas Abbie who rebelled against a household of liberal Democrats by enlisting in the National Guard Mickiela a Mexican American who grew up with a family entangled in L A gangs Terris an African American mother from D C whose childhood

was torn by violence and Eli PaintedCrow who joined the military to follow Native American tradition and to escape a life of Faulknerian hardship Between these stories Benedict weaves those of the forty other Iraq War veterans she interviewed illuminating the complex issues of war and misogyny class race homophobia and post traumatic stress disorder Each of these stories is unique yet collectively they add up to a heartbreaking picture of the sacrifices women soldiers are making for this country Benedict ends by showing how these women came to face the truth of war and by offering suggestions for how the military can improve conditions for female soldiers including distributing women more evenly throughout units and rejecting male recruits with records of violence against women Humanizing urgent and powerful The Lonely Soldier is a clarion call for change

AR 350-1 Army Training and Leader Development Headquarters Department of the Army,2017-08-27 Army Regulation 350 1 is the keystone training regulation for all US Army units This regulation is the source reference for all training conducted within units across the US Army This continent 6x9 paperback is designed with commanders executive officers and company grade NCOs in mind for portability and ease of use

Death by Design Peter Beale,2016-07-22 At the outbreak of war in 1939 British tank crews were ill equipped under trained and badly led As a consequence the lives of hundreds of crewmen were wasted unnecessarily This was due not only to the poor design and construction of British tanks but also to the lack of thought and planning on the part of successive pre war governments and the War Office Death by Design explores how and why Britain went from leading the world in tank design at the end of the First World War to lagging far behind the design quality of Russian and German tanks in the Second World War This book is a much needed warning to governments and military planners a nation must always be prepared to defend itself and ensure that its soldiers are equipped with the tools to do so

Morality and War David Fisher,2011-03-03 With the ending of the strategic certainties of the Cold War the need for moral clarity over when where and how to start conduct and conclude war has never been greater There has been a recent revival of interest in the just war tradition But can a medieval theory help us answer twenty first century security concerns David Fisher explores how just war thinking can and should be developed to provide such guidance His in depth study examines philosophical challenges to just war thinking including those posed by moral scepticism and relativism It explores the nature and grounds of moral reasoning the relation between public and private morality and how just war teaching needs to be refashioned to provide practical guidance not just to politicians and generals but to ordinary service people The complexity and difficulty of moral decision making requires a new ethical approach here characterised as virtuous consequentialism that recognises the importance of both the internal quality and external effects of agency and of the moral principles and virtues needed to enact them Having reinforced the key tenets of just war thinking Fisher uses these to address contemporary security issues including the changing nature of war military preemption and torture the morality of the Iraq war and humanitarian intervention He concludes that the just war tradition provides not only a robust but an indispensable guide to resolve the security challenges of the twenty first century
