

VESUVIUS

The background of the book cover is a stylized illustration. At the top, a large, dark, conical mountain (Mount Vesuvius) is shown erupting, with a massive plume of grey smoke or ash billowing upwards into a dark blue sky filled with white stars. Bright orange and red lava flows are depicted as thick, winding rivers descending the slopes of the mountain. In the foreground, on a dark, rocky plain, several small, white, stylized human figures are shown running away from the viewer towards the base of the volcano, suggesting a scene of panic and escape. The overall color palette is dominated by dark blues, greys, and vibrant oranges and reds.

ways that influenced countless others as they developed Germany's own brand of high culture. *The Spell of Italy: Vacation Magic and the Attraction of Goethe* tracks the peculiar space Italy occupies in the cultural consciousness of German writers by reconsidering the Italian journeys of Goethe and Winckelmann and the legacy of those journeys in the works of Heine, Nietzsche, Freud, Mann, Carossa, and Bachmann. Author Richard Block contests previous assumptions about Italy as a place to encounter classical culture and creative rebirth. His study examines the degree to which Germany's literary and cultural traditions appropriated a phantasmic Italy, showing how Winckelmann's art history and Goethe's Italian journey predisposed later writers to search for an aesthetic ideal in Italy that did not exist and how their search for this absent ideal eventually resulted in disillusionment and deception. Building on previous work on Goethe's literary theory and cultural history, *The Spell of Italy* offers compelling new ways of understanding Germany's fascination with Italy from the eighteenth century to its troubled political history of the twentieth century.
