Crossroads and Cultures, Volume C: Since 1750 Bonnie G. Smith, Marc Van De Mieroop, Richard von Glahn, Kris Lane, 2012-01-30 *Crossroads and Cultures A History of the World's Peoples* incorporates the best current cultural history into a fresh and original narrative that connects global patterns of development with life on the ground. As the title *Crossroads* suggests, this new synthesis highlights the places and times where people exchanged goods and commodities, shared innovations and ideas, waged war and spread disease, and in doing so joined their lives to the broad sweep of global history. Students benefit from a strong pedagogical design, abundant maps and images, and special features that heighten the narrative's attention to the lives and voices of the world's peoples. **Test drive a chapter today** Find out how *A Military History of the Modern Middle East* James Brian McNabb, 2017-03-09 This timely study synthesizes past history with the major military events and dynamics of the 20th and 21st century Middle East, helping readers understand the region's present and look into its future. The Middle East has been and will continue to be a major influence on policy around the globe. This work reviews the impact of past epochs on the modern Middle East and analyzes key military events that contributed to forming the region and its people. By helping readers recognize historical patterns of conflict, the book will stimulate a greater understanding of the Middle East as it exists today. The work probes cause and effect in major conflicts that include the fall of the Ottoman Empire, the World Wars, the Arab-Israeli wars, and the U.S. wars with Iraq, examining the manner in which military operations have been conducted by both internal and external actors. New regional groups, for example, the Gulf Cooperation Council (GCC), are addressed, and pertinent events in Afghanistan and Pakistan are scrutinized. Since military affairs are traditionally an extension of politics and economics, the three are considered together in historical context as they relate to war and peace. The book closes with a chapter on the Arab Awakening and its impact on the future balance of power.

Flawed Strategy Beatrice Heuser, 2025-01-10 Why did Volodymyr Zelensky doubt that Russia was preparing a full scale invasion of Ukraine in 2022 Why did British Prime Minister Neville Chamberlain decide to do business with Herr Hitler in Munich in 1938 And how was it that Israeli elites dismissed intelligence warnings of the Hamas attack in 2023 Had they not learned their lesson from the Egyptian Syrian attack on Yom Kippur fifty years earlier In all these cases smart decision makers misjudged their adversaries largely because they failed to understand how their enemies actions and strategies were shaped by different values and beliefs to their own We may think such beliefs are irrational merely because we do not share them They may appear confusing and ill judged But as Beatrice Heuser ably shows in this pithy book strategy making is a tricky business marred by bias irrationality bureaucratic politics colliding government interests and complex procedures and structures Assessing our adversaries as not only irrational but also illogical is a dangerous game that can lead to flawed and on occasions catastrophically bad decisions This book explains why

The Islamic World in Decline Martin Sicker, 2000-10-30 The long era of Muslim political ascendancy that began in a small region of western Arabia reached its pinnacle some nine hundred years later with the siege of Vienna by Suleiman the Magnificent in 1529 Suleiman then concluded that given the increasingly volatile geopolitical environment Muslim expansionism in Eurasia had run its course The subsequent decline of Ottoman power also meant in effect the decline of political Islam which had been intimately bound to it for centuries As Sicker shows the problems faced by the Ottoman Empire were also faced by the Persian Empire and both underwent an extended period of political decline and territorial retrenchment in the face of imperialist pressures from Europe and Asia The greatest challenge to the world of political Islam came from Western Europe especially France and Great Britain The Ottoman and Persian empires assumed a global importance in the 19th century not because of anything in them of intrinsic economic value but because of their geopolitical and geostrategic significance They became in effect a buffer zone separating Europe from the wealth of the East at a time when European imperialism was on the march in Asia It thus came about that the rivalries of the Great Powers most especially those of Great Britain France and Russia were played out in the Middle East This book will serve as a vital resource for students scholars and other researchers involved with Middle East History Political Islam and Modern European History

million people died during the First World War But why and for what reason Already many contemporaries saw the Great War as a pointless carnage Pope Benedict XV 1917 Was there a point at least in the eyes of the political and military decision makers How did they justify the losses and why did they not try to end the war earlier In this volume twelve international specialists analyses and compares the hopes and expectations of the political and military leaders of the main belligerent countries and of their respective societies It shows that the war aims adopted during the First World War were not for the most part the cause of the conflict but a reaction to it an attempt to give the tragedy a purpose even if the consequence was to oblige the belligerents to go on fighting until victory The volume tries to explain why and for what the contemporaries thought that they had to fight the Great War **Weapons & Warfare: Modern weapons and warfare (since 1500)** ,2002
