La Música Y Las Artes Plásticas Ramón de Altamira, 1948 *Spanish Music in the Twentieth Century* Tomás Marco, 1993 From the exhilarating impact of Isaac Albeniz at the beginning of the century to today's complex and adventurous avant-garde this complete interpretive history introduces twentieth-century Spanish music to English-speaking readers. With graceful authority Tomás Marco award-winning composer, critic and bright light of Spanish music since the 1960s covers the entire spectrum of composers and their works, trends and movements, critical and popular reception, national institutions, influences from Europe and beyond and the effect of such historic events as the Spanish Civil War and the death of Franco. Marco's penetrating aesthetic critiques are threaded throughout each phase of this rich account. Marco provides detailed coverage of the key figures including a chapter devoted entirely to Manuel de Falla, Spain's most celebrated twentieth-century composer and a panoramic survey of recent arrivals on the contemporary music scene. Exploring the rise and fall of the zarzuela, the author highlights innovative works in this authentic Spanish genre. He analyzes the attempts to find an audience for Spanish opera, demonstrates the flowering of symphonic and chamber music at the beginning of this century, traces currents such as romanticism, impressionism and neoclassicism and tracks the influence of Spain's distinctive regional folk traditions. Covering musical innovation after Spain's emergence from its period of isolation, Marco notes the speed with which many composers absorbed the work of Stravinsky and Bartók, the twelve-tone system, aleatory forms, electronic techniques and other European developments. English-speaking scholars, musicians, critics and general readers have for decades been without full information on the rich and varied work coming out of Spain in this century. This lively history fills a long-felt need and fills it superbly with the knowledge and insights of a major figure in the musical world.

La música como mensaje Constantin Floros, 2020-12-31 La música suele definirse como arte para el oído como lenguaje del corazón como sentimiento como juego sonoro o como ciencia compositiva. Sin embargo la música también emite mensajes. Transporta experiencias espirituales, ideas literarias, religiosas, filosóficas, sociales y políticas. Transmite significados que deben descodificarse. Existen obras que contienen mensajes públicos y que deben entenderse como llamadas a la humanidad, otras contienen mensajes privados. Numerosos compositores ocultan en sus obras contenidos que pueden descifrarse con la ayuda de diversos métodos. El arte comprometido de Beethoven, los temas centrales del Anillo del Nibelungo y de la Sinfonía de los mil, la idea wagneriana de una religión artística, la relación entre música y poesía, las concepciones musicológicas literarias de los compositores, el amplio espectro de la música programática y la historia de la recepción de Mahler son algunos de las cuestiones que trata este libro desde Beethoven hasta Nono.
