Engineers of Happy Land Rudolf Mrázek, 2018-06-05 Based on close reading of historical documents poetry as much as statistics and focused on the conceptualization of technology this book is an unconventional evocation of late colonial Netherlands East Indies today Indonesia In considering technology and the ways that people use and think about things Rudolf Mr zek invents an original way to talk about freedom colonialism nationalism literature revolution and human nature The central chapters comprise vignettes and take up in turn transportation from shoes to road building to motorcycle clubs architecture from prison construction to home air conditioning optical technologies from photography to fingerprinting clothing and fashion and the introduction of radio and radio stations The text clusters around a group of fascinating recurring characters representing colonialism nationalism and the awkward inevitable presence of the European cultural intellectual and political avant garde Tillema the pharmacist author of Kromoblanda the explorer engineer IJzerman the Javanese princess Kartina the Indonesia nationalist journalist Mas Marco the Dutch novelist Couperus the Indonesian novelist Pramoedya Ananta Toer and Dutch left wing liberal Wim Wertheim and his wife In colonial Indies as elsewhere people employed what Proust called remembering and what Heidegger called thinging to sense and make sense of the world In using this observation to approach Indonesian society Mr zek captures that society off balance allowing us to see it in unfamiliar positions The result is a singular work with surprises for readers throughout the social sciences not least those interested in Southeast Asia or colonialism more broadly

Van het fysieke universum naar de metafysische kosmos. De kwantumverstrengeling en synchroniciteit van Carl Jung. Bruno Del Medico, 2022-11-03 Dit boek is de tweede sterk uitgebreide editie van het vorige boekje Quantum Entanglement and the Collective Unconscious Het verzamelt de beste bijdragen die door de auteur zijn gepubliceerd op zijn blogs sociale netwerken en sites in het Italiaans vertaald in het Nederlands De lezer zal versteld staan van de originaliteit van de argumenten Uit het gelukkige huwelijk tussen de kwantumfysica en het collectieve onbewuste van Carl Jung wordt een nieuwe metafysica van het universum geboren en ontstaat een plek waar materie en geest samenwerken en geleid worden door kosmische synchroniciteiten om de mens naar ongelooflijke evolutionaire projecten te leiden Carl Jung en Wolfgang Pauli werkten respectievelijk op het gebied van de psyche en op dat van de materie Deze twee sectoren worden als absoluut onverenigbaar met elkaar beschouwd In feite ontkent het wetenschappelijk materialisme het bestaan van enige psychische component in het bekende universum Ondanks de enorme afstand tussen hun disciplines kwamen de twee wetenschappers tot een samenwerking die meer dan twintig jaar duurde Gedurende die periode zijn ze nooit gestopt met zoeken naar een verenigend element dat in staat is om op wetenschappelijk niveau de redenen van de psychische dimensie te verzoenen met die van de materiële dimensie Helaas hebben ze dit tijdens hun leven niet bereikt maar ze waren profeten van een nieuwe

wetenschappelijke interpretatie van het universum In feite herwaarderen de evolutie van kennis op het gebied van kwantumfysica en vooral de experimentele bevestigingen van fenomenen zoals kwantumverstrengeling hun theorie n

Tegenwoordig komt het idee van een universum dat niet is verdeeld in materiële objecten sterk naar voren Het universum is niet verdeeld maar bestaat uit n enkele werkelijkheid bestaande uit geest en materie Dit is de realiteit die Jung en Pauli Unus mundus noemden Materie en psyche hebben gelijke waardigheid en dragen samen bij aan het bestaan van het universum De redactionele serie Cenacolo Jung Pauli is een plaats van kennis en studie Wij zijn van mening dat dit de meest geschikte omgeving is om het werk te hervatten vanaf het punt waar Carl Jung en Wolfgang Pauli stopten We kunnen bevestigen dat wetenschappelijke actualiteit vandaag hun onderzoek veredelt en projecteert naar nog meer gedurfde interpretaties dan ze zelf hadden gedacht Carl Gustav Jung 1865 1961 was een Zwitserse psycholoog en psychotherapeut bekend om zijn theorie n over het collectieve onbewuste en synchroniciteit Wolfgang Pauli 1900 1958 is een van de grondleggers van de kwantumfysica Over Pauli kunnen we zeggen dat hij in het jaar 1945 de Nobelprijs ontving voor zijn onderzoek naar een basisprincipe van de kwantummechanica bekend als het Pauli exclusieprincipe De minnaars Vendela Vida,2011-06-03
