Wacker Manual:

The ^AWorking Man's Reward Elaine Lewinnek,2014-04-03 Between the 1860s and 1920s Chicago s working class immigrants designed the American dream of home ownership viewing homes as a consumer oriented respite from work and a productive space they hoped to control Spurred by ideas about the gendered respectability of domesticity early city planning and land economics as well as an evolving discourse about the racial attributes of property values Chicagoans helped create America s suburbanization

Chicago by the Book The Caxton Club,2018-11-20 Despite its rough and tumble image Chicago has long been identified as a city where books take center stage In fact a volume by A J Liebling gave the Second City its nickname Upton Sinclair s The Jungle arose from the midwestern capital s most infamous industry The great Chicago Fire led to the founding of the Chicago Public Library The city has fostered writers such as Nelson Algren Saul Bellow and Gwendolyn Brooks Chicago s literary magazines The Little Review and Poetry introduced the world to Eliot Hemingway Joyce and Pound The city s robust commercial printing industry supported a flourishing culture of the book With this beautifully produced collection Chicago s rich literary tradition finally gets its due Chicago by the Book profiles 101 landmark publications about Chicago from the past 170 years that have helped define the city and its image Each title carefully selected by the Caxton Club a venerable Chicago bibliophilic organization is the focus of an illustrated essay by a leading scholar writer or bibliophile Arranged chronologically to show the history of both the city and its books the essays can be read in order from Mrs John H Kinzie s 1844 Narrative of the Massacre of Chicago to Sara Paretsky s 2015 crime novel Brush Back Or one can dip in and out savoring reflections on the arts sports crime race relations urban planning politics and even Mrs O Leary s legendary cow The selections do not shy from the underside of the city recognizing that its grit and graft have as much a place in the written imagination as soaring odes and boosterism As Neil Harris observes in his introduction Even when Chicagoans celebrate their hearth and home they do so while acknowledging deep seated flaws At the same time this collection heartily reminds us all of what makes Chicago as Norman Mailer called it the great American city With essays from among others Ira Berkow Thomas Dyja Ann Durkin Keating Alex Kotlowitz Toni Preckwinkle Frank Rich Don Share Carl Smith Regina Taylor Garry Wills and William Julius Wilson and featuring works by Saul Bellow Gwendolyn Brooks Sandra Cisneros Clarence Darrow Erik Larson David Mamet Studs Terkel Ida B Wells Barnett Frank Lloyd Wright and many more

Making Sense of the City Zane L. Miller,2001 Through an examination of such topics as city charters city planning texts neighborhood organizations municipal recreation programs urban government reforms urban identity and fair housing campaigns the authors offer insight into the process through which ideas about the nature of the city have affected action in the urban environment BOOK JACKET

Wacker's Manual of the Plan of Chicago Walter Dwight Moody,1916

Wacker's Manual of the Plan of Chicago Moody Walter D.,1901 The Chicago Tribune Tower Competition Katherine Solomonson,2003-11-15 In 1922 the Chicago Tribune sponsored an international competition to design its new

corporate headquarters Both a serious design contest and a brilliant publicity stunt the competition received worldwide attention for the hundreds of submissions from the sublime to the ridiculous it garnered In this lavishly illustrated book Katherine Solomonson tells the fascinating story of the competition the diverse architectural designs it attracted and its lasting impact She shows how the Tribune used the competition to position itself as a civic institution whose new headquarters would serve as a defining public monument for Chicago For architects planners and others the competition sparked influential debates over the design and social functions of skyscrapers It also played a crucial role in the development of advertising consumer culture and a new national identity in the turbulent years after World War I

The Loop Patrick T. Reardon, 2020-11-26 The structure that anchors Chicago Every day Chicagoans rely on the loop of elevated train tracks to get to their jobs classrooms or homes in the city's downtown But how much do they know about the single most important structure in the history of the Windy City In engagingly brisk prose Patrick T Reardon unfolds the fascinating story about how Chicago's elevated Loop was built gave its name to the downtown helped unify the city saved the city's economy and was itself saved from destruction in the 1970s This unique volume combines urban history biography engineering architecture transportation culture and politics to explore the elevated Loop's impact on the city's development and economy and on the way Chicagoans see themselves The Loop rooted Chicago's downtown in a way unknown in other cities and it protected that area and the city itself from the full effects of suburbanization during the second half of the twentieth century Masses of data underlie new insights into what has made Chicago's downtown and the city as a whole tick The Loop features a cast of colorful Chicagoans such as legendary lawyer Clarence Darrow poet Edgar Lee Masters mayor Richard J Daley and the notorious Gray Wolves of the Chicago City Council Charles T Yerkes an often demonized figure is shown as a visionary urban planner and engineer John Alexander Low Waddell a world renowned bridge creator is introduced to Chicagoans as the designer of their urban railway This fascinating exploration of how one human built structure reshaped the social and economic landscape of Chicago is the definitive book on Chicago's elevated Loop

The Plan of Chicago Carl Smith, 2009-08-01 Arguably the most influential document in the history of urban planning Daniel Burnham's 1909 Plan of Chicago coauthored by Edward Bennett and produced in collaboration with the Commercial Club of Chicago proposed many of the city's most distinctive features including its lakefront parks and roadways the Magnificent Mile and Navy Pier Carl Smith's fascinating history reveals the Plan's central role in shaping the ways people envision the cityscape and urban life itself Smith's concise and accessible narrative begins with a survey of Chicago's stunning rise from a tiny frontier settlement to the nation's second largest city He then offers an illuminating exploration of the Plan's creation and reveals how it embodies the renowned architect's belief that cities can and must be remade for the better The Plan defined the City Beautiful movement and was the first comprehensive attempt to reimagine a major American city Smith points out the ways the Plan continues to influence debates even a century after its publication about how to create a vibrant

and habitable urban environment Richly illustrated and incisively written his insightful book will be indispensable to our understanding of Chicago Daniel Burnham and the emergence of the modern city **Communication Matters** Jeremy Packer, Stephen B. Crofts Wiley, 2013-06-17 Communication has often been understood as a realm of immaterial insubstantial phenomena images messages thoughts languages cultures and ideologies mediating our embodied experience of the concrete world Communication Matters challenges this view assembling leading scholars in the fields of Communication Rhetoric and English to focus on the materiality of communication Building on the work of materialist theorists such as Gilles Deleuze Michel Foucault Friedrich Kittler and Henri Lefebvre the essays collected here examine the materiality of discourse itself and the constitutive force of communication in the production of the real Communication Matters presents original work that rethinks communication as material and situates materialist approaches to communication within the broader materiality turn emerging in the humanities and social sciences This collection will be of interest to researchers and postgraduate students in Media Communication Studies and Rhetoric The book includes images of the digital media installations of Francesca Talenti Professor Department of Communication Studies University of North Carolina at Chapel Hill **New Ideals in the Planning of Cities, Towns and Villages** John Nolen, 1919
