Women In The Quran Traditions And:

Women in the Qur'an, Traditions, and Interpretation Barbara Freyer Stowasser, 1994 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself Despite the popular attention surrounding Middle Eastern attitudes toward women there has been little systematic study of the statements regarding women in the Qur'an Barbara Stowasser fills this void with this study on the women of Islamic sacred history Women in the Qur'an Traditions and Interpretation presents the Qur'anic revelations on female figures associated with God's prophets from Adam to Muhammad Revealed narratives and legislation are then pursued through their medieval modern and contemporary interpretations The theological exegetic sources here chosen all Sunni include the major classical works as well as for the modern period examples of modernist traditionalist and fundamentalist exegesis For Hadith materials beyond the theological tafsir Stowasser analyzes both popular narratives of the tales of the prophets genre and representative samples of the classical historical and legal Hadith A close reading of modern sources including those by lay writers shows the waning influence of these traditional materials in present day Islamic thought By telling the stories of the women of sacred history in Qur'an and interpretation this book presents an introduction to past and present Islamic paradigms of doctrine and their socio economic and political applications Stowasser establishes the link between the female figures as cultural symbols and Islamic self perceptions from the beginning to the present time Book Jacket *The Rights of Women in Islam* H. Jawad, 1998-06-30 It has been argued that Islam liberated Muslim women by granting them full rights as citizens Yet in reality we see that women have long been subjected to both cultural and political oppression Instances such as forced marriages are sadly common in the Muslim World as are restrictions on education and on their role in the labour force

Women from Traditional Islamic Educational Institutions in Indonesia Eka Srimulyani, 2012 Dit is de eerste Engelstalige publicatie over vrouwen in traditionele islamitische onderwijsinstellingen in Indonesië de zogenaamde pesantren Deze vrouwen spelen een belangrijke rol de genderproblematiek in de Indonesische moslimgemeenschap Deze informatieve en inzichtelijke studie dient twee groeiende onderzoeksgebieden in de studies over Indonesië de studie naar de islam en de studie naar moslimvrouwen Tevens voegt het een nieuw perspectief toe aan de bestaande Engelstalige literatuur over moslims buiten de huidige dominante context van het Midden Oosten of Sub Indische continent *Women, the Koran and International Human Rights Law* Niaz Shah, 2006-11-01 Religion plays a pivotal role in the way women are treated around the world socially and legally This book discusses three Islamic human rights approaches secular non compatible reconciliatory compatible and proposes a contextual interpretive approach It is argued that the current gender discriminatory statutory Islamic laws in Islamic jurisdictions based on the decontextualised interpretation of the Koran can be reformed through Ijtihad independent individual reasoning It is claimed that the original intention of the Koran was to protect the rights of women and raise their status in society not to relegate them to subordination This Koranic intention and spirit may be

recaptured through the proposed contextual interpretation which in fact means using an Islamic or insider strategy to achieve gender equality in Muslim states and greater compatibility with international human rights law. It discusses the negative impact of the so-called statutory Islamic laws of Pakistan on the enjoyment of women's human rights and robustly challenges their Koranic foundation. While supporting the international human rights regime, this book highlights the challenges to its universality, feminism, and cultural relativism. To achieve universal application, genuine voices from different cultures and groups must be accommodated. It is argued that the women's human rights regime does not cover all issues of concern to women and has a weak implementation mechanism. The book argues for effective implementation procedures to turn women's human rights into reality.

Feminism, Tradition and Change in Contemporary Islam Shehnaz Haqqani, 2024-10-17. The Islamic tradition has always been flexible, changing over time and constantly adapting to the different societies. Muslims find themselves in a few. Few Muslims today would abide by the fatwa against the printing press under the Ottomans. Moreover, although Islamic law legislates for slavery and child marriage, only a vanishing minority of Muslims consider these practices acceptable today, and some will even argue that Islam never permitted them. Yet some issues like the prohibition on female-led prayer and female interfaith marriage seem curiously impervious to change. Why is that? Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship, Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition. She argues that a reliance on a mostly male scholarly consensus means that the tradition preserves male privilege at the expense of justice for Muslim women.

Troubling Topics, Sacred Texts Roberta Sterman Sabbath, 2021-10-04 Abrahamic scriptures serve as cultural pharmakon prescribing what can act as both poison and remedy This collection shows that their sometimes veiled but eternally powerful polemics can both destroy and build exclude and include and serve as the ultimate justification for cruelty or compassion Here scholars not only excavate these works for their formative and continuing cultural impact on communities identities and belief systems they select some of the most troubling topics that global communities continue to navigate Their analysis of both texts and their reception help explain how these texts promote norms and build collective identities Rejecting the notion of the sacred realm as separate from the mundane realm and beyond critical challenge this collection argues both implicitly and sometimes transparently for the presence of the sacred within everyday life and open to challenge The very rituals prayers and traditions that are deemed sacred interweave into our cultural systems in infinite ways Together these authors explore the dynamic nature of everyday life and the often brutal power of these texts over everyday meaning
