that included Is it not significant to report that some women are still experiencing the same types of barriers in leadership that were highlighted 30 years ago Is it accurate to report that all women s voices have now been heard represented and How can we report something different if it hasn t happened The discussions that have ensued between veteran women and those new to the field inspired us to develop a book that situates women in leadership exactly where we are today and reports the status of girls who are positioned to continue the good fight that began many years ago and that both highlights the changes that have occurred and reports any stagnancy that continues to threaten women s positionality in educational leadership literature practice and policy It forefronts the voices of women educational scholars who have and are interrupting disrupting and revolutionizing educational policy and practice Our book reports women s leadership activities and knowledge in both the k 12 and university settings and concludes with chapters ripe with ideas for pushing for change through policy advocacy and activism The final chapter presents themes that emerged from the individual chapters and sets forth an agenda to move forward with the study of women in leadership

Hackney, 2018-12-01 Most of the literature involving the work of women leaders has addressed barriers that historically have required women to struggle to get to the top the styles of women leaders and gender issues women leaders continue to face in society and the workplace Nearly missing in the literature is the perspective that women who possess positional power also have a responsibility to make a positive constructive difference with that power Though many women have made that kind of a difference the purpose of this book is to prompt other women leaders to ask themselves the question So how does my leading make a positive difference to my organization to my society to my world This book will offer inspiration guidance and affirmation to women who seek to lead from goodness justice and the power of difference they bring to the organization The book will include references to the authors autobiographical experiences as leaders in K 12 and higher education as well as to women whose stories of leadership are of particular interest an artist a philanthropist a community activist teacher and school leadership educators These references will scaffold the construction of a theory of leadership that circles around awareness of self and others and the social consciousness courage humility and generosity of spirit that is characteristic of leading from the feminist soul
