Encyclopedia of Social Problems Vincent N. Parrillo, 2008-05-22. Social problems affect everyone. Because so many actual and potential problems confront us, it is often difficult to decide which ones affect us most severely. Is it the threat of death or injury during a terrorist attack? Is it the threat caused by industrial pollution that may poison us or destroy our physical environment? Or does quiet but viciously damaging gender, age, class, racial or ethnic discrimination have the most far reaching effect? Do the problems of cities affect us if we live in the suburbs? Do poorer nations' problems with overpopulation affect our quality of life? The Encyclopedia of Social Problems offers an interdisciplinary perspective into many social issues that are a continuing concern in our lives, whether we confront them on a personal, local
