Paul's Large Letters Steve Reece, 2016-12-15 At the end of several of his letters the apostle Paul claims to be penning a summary and farewell greeting in his own hand 1 Corinthians Galatians Philemon cf Colossians 2 Thessalonians Paul s claims raise some interesting questions about his letter writing practices Did he write any complete letters himself or did he always dictate to a scribe How much did his scribes contribute to the composition of his letters Did Paul make the effort to proofread and correct what he had dictated What was the purpose of Paul s autographic subscriptions What was Paul s purpose in calling attention to their autographic nature Why did Paul write in large letters in the subscription of his letter to the Galatians Why did he call attention to this peculiarity of his handwriting A good source of answers to these questions can be found among the primary documents that have survived from around the time of Paul a large number of which have been discovered over the past two centuries and in fact continue to be discovered to this day From around the time of Paul there are extant several dozen letters from the caves and refuges in the desert of eastern Judaea in Hebrew Aramaic Nabataean Greek and Latin several hundred from the remains of a Roman military camp

in Vindolanda in northern England in Latin and several thousand from the sands of Middle and Upper Egypt in Greek Latin and Egyptian Demotic Reece has examined almost all these documents many of them unpublished and rarely read with special attention to their handwriting styles in order to shed some light on these technical aspects of Paul's letter writing conventions

Talking the Talk Trevor A. Harley, 2017-02-02 Talking the Talk provides a comprehensive introduction to the psychology of language written for the reader with no background in the field or any prior knowledge of psychology. Written in an accessible and friendly style the book answers the questions people actually have about language: how do we speak, listen, read, and learn language? The book advocates an experimental approach explaining how psychologists can use experiments to build models of language processing. Considering the full breadth of psycholinguistics the book covers core topics including how children acquire language, how language is related to the brain, and what can go wrong with it. Fully updated throughout this edition also includes additional coverage on the genetics of language, insight into potential cognitive advantages of bilingualism, new content on brain imaging and neuroscience, increased emphasis on recursion, and what is special about language. Talking the Talk is written in an engaging style which does not hesitate to explain complex concepts. It is essential reading for all undergraduate students and those new to the topic as well as the interested lay reader.

Desirable Literacies Jackie Marsh, 1999 A new edition of this book is available at <http://www.uk.sagepub.com/textbooks/ProdDesc.nav.prodId.Book232567>. The book demonstrates the importance of providing meaningful, purposeful opportunities for children to develop, explore, and enjoy the full range of literacy experiences and offers plenty of practical ideas for how this can be achieved. Offers a very stimulating and even inspiring read to anyone involved in early years education. Literacy and Language: The range of topics and authors is both extensive and impressive. The book includes chapters on oral language development, early reading, early writing, the involvement of parents, and developing literacy with bilingual children. The importance of non-verbal language, so often bypassed in books of this kind, is emphasized in a number of chapters which focus on a broader interpretation of literacy. These include the use of drama, puppets, costuming, and even hot seating. Several of the chapters extend these ideas for language and literacy development beyond the confines of the classroom or even the school, adding a cautionary note that too often previously competent young language users become responders rather than initiators the minute they walk through the door of the classroom.
