Women In Purple Three Byzantine Empresses:

Women in Purple Judith Herrin, 2021-09-14 In the eighth and ninth centuries three Byzantine empresses Irene Euphrosyne and Theodora changed history Their combined efforts restored the veneration of icons saving Byzantium from a purely symbolic and decorative art and ensuring its influence for centuries to come In this exhilarating and highly entertaining account one of the foremost historians of the medieval period tells the story of how these fascinating women exercised imperial sovereignty with consummate skill and sometimes ruthless tactics Though they gained access to the all pervasive authority of the Byzantine ruling dynasty through marriage all three continued to wear the imperial purple and wield tremendous power as widows From Constantinople their own Queen City the empresses undermined competitors and governed like men They conducted diplomacy across the known world negotiating with the likes of Charlemagne Roman popes and the great Arab caliph Harun al Rashid Vehemently rejecting the ban on holy images instituted by their male relatives Irene and Theodora used craft and power to reverse the official iconoclasm and restore icons to their place of adoration in the Eastern Church In so doing they profoundly altered the course of history The art and not only the art of Byzantium of Islam and of the West would have been very different without them As Judith Herrin traces the surviving evidence she evokes the complex and deeply religious world of Constantinople in the aftermath of Arab conquest She brings to life its monuments and palaces its court ceremonies and rituals the role of eunuchs the third sex bride shows and the influence of warring monks and patriarchs Based on new research and written for a general audience Women in Purple reshapes our understanding of an empire that lasted a thousand years and splashes fresh light on the relationship of women to power

Representations of Early Byzantine Empresses A. McClanan, 2016-04-30 This book reconsiders a wide array of images of Byzantine empresses on media as diverse as bronze coins and gold mosaic from the fifth through to the seventh centuries A D The representations have often been viewed in terms of individual personas but strong typological currents frame their medieval context Empress Theodora the target of political pornography has consumed the bulk of past interest but even her representations fit these patterns Methodological tools from fields as disparate as numismatics as well as cultural and gender studies help clarify the broader cultural significance of female imperial representation and patronage at this time

Health and Disease in Byzantine Crete (7th-12th centuries AD) Chryssi Bourbou, 2016-04-15 Daily life and living conditions in the Byzantine world are relatively underexplored subjects often neglected in comparison with more visible aspects of Byzantine culture such as works of art The book is among the few publications on Greek Byzantine populations and helps pioneer a new approach to the subject opening a window on health status and dietary patterns through the lens of bioarchaeological research Drawing on a diversity of disciplines biology chemistry archaeology and history the author focuses on the complex interaction between physiology culture and the environment in Byzantine populations from Crete in the 7th to 12th centuries The systematic analysis and interpretation of the mortality profiles the observed

pathological conditions and of the chemical data all set in the cultural context of the era brings new evidence to bear on the reconstruction of living conditions in Byzantine Crete Individual chapters look at the demographic profiles and mortality patterns of adult and non adult populations and study dietary habits and breastfeeding and weaning patterns In addition this book provides an indispensable body of primary data for future research in these fields and so furthers an interdisciplinary approach in tracing the health of the past populations

The Image of the Royal Mother from the Early Medieval to the Early Modern Era Carey Fleiner, Elena Woodacre, 2016-07-14 This collection addresses royal motherhood across Europe from both the medieval and Early Modern periods including in famous and not so famous royal mothers The essays in this collection reveal the complexities and the subtleties inherent in the role of royal mothers and challenges these traditional stereotypes The volume provides a fresh re evaluation of these women from those who have been given an almost saintly status to those who struggled against contemporary chronicles and propaganda that perpetuated the stereotypes associated with bad mothers these particular images of saintliness and wickedness have persisted right into the modern era This series of intriguing case studies reveals how royal mothers were perceived by their contemporaries and explores the motivation for the ways in which they are depicted in modern popular culture Taken together with the companion volume *Royal Mothers and their Ruling Children* this collection sheds new light on the important and challenging role of mothers within the framework of monarchy and at the epicenter of power

 M. Hussey, 2010-03-25 This book describes the role of the medieval Orthodox Church in the Byzantine Empire c 600 c 1453
 As an integral part of its policy it was as in western Christianity closely linked with many aspects of everyday life both official
 and otherwise It was a formative period for Orthodoxy It had to face doctrinal problems and heresies at the same time it
 experienced the continuity and deepening of its liturgical life While holding fast to the traditions of the fathers and the
 councils it saw certain developments in doctrine and liturgy as also in administration Part I discusses the landmarks in
 ecclesiastical affairs within the Empire as well as the creative influence exercised on the Slavs and the increasing contacts
 with westerners particularly after 1204 Part II gives a brief account of the structure of the medieval Orthodox Church its
 officials and organization and the spirituality of laity monks and clergy Through a Glass Brightly Chris

Diplomacy in the Early Islamic World Maria Vaiou, 2015-02-13 Arab messengers played a vital role in the medieval Islamic world and its diplomatic relations with foreign powers An innovative treatise from the 10th Century Rusul al Muluk Messengers of Kings is perhaps the most important account of the diplomacy of the period and it is here translated into English for the first time Rusul al Muluk draws on examples from the Qur'an and other sources which extend from the period of al jahiliyya to the time of the Abbasid caliph al Mu tasim 218 227 833 842 In the only medieval Arabic work which exists on the conduct of messengers and their qualifications the author Ibn al Farr rejects jihadist policies in favor of quiet diplomacy and a pragmatic outlook of constructive realpolitik Rusul al Muluk is an extraordinarily important and original contribution to our understanding of the early Islamic world and the field of International Relations and Diplomatic History **The Emperor in the Byzantine World** Shaun Tougher, 2019-03-15 The subject of the emperor in the Byzantine world may seem likely to be a well studied topic but there is no book devoted to the emperor in general covering the span of the Byzantine empire Of course there are studies on individual emperors dynasties and aspects of the imperial office role but there remains no equivalent to Fergus Millar's The Emperor in the Roman World from which the proposed volume takes inspiration for its title and scope The oddity of a lack of a general study of the Byzantine emperor is compounded by the fact that a series of books devoted to Byzantine empresses was published in the late twentieth and early twenty first centuries Thus it is appropriate to turn the spotlight on the emperor Themes covered by the contributions include questions of dynasty and imperial families the imperial court and the emperor's men imperial duties and the emperor as ruler imperial literature the emperor as subject and author and the material emperor including imperial images and spaces The volume fills a need in the field and the market and also brings new and cutting edge approaches to the study of the Byzantine emperor Although the volume cannot hope to be a comprehensive treatment of the emperor in the Byzantine world it aims to cover a broad chronological and thematic span and to play a vital part in setting the agenda for future work The subject of the Byzantine emperor has also an obvious relevance for historians working on rulership in other cultures and periods Women Who Changed the World Candice Goucher, 2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women's lived experiences Learning how women changed the world will change the ways the world looks at the past Women Who Changed the World Their Lives Challenges and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective The women featured in this four volume set cover the full sweep of history from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists Each biography follows a standardized format recounting the woman's life and accomplishments discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left A chronological listing of biographies makes

it easy for readers to zero in on particular time periods while a further reading list at the end of each essay serves as a gateway to further exploration and study High interest sidebars accompany many of the biographies offering more nuanced glimpses into the lives of these fascinating women

Byzantium Triumphant Julian Romane, 2021-08-04 This vibrant history examines the wars of three Byzantine emperors Nicephorus II Phocas John I Tzimiskes and Basil II The Bulgar Slayer In *Byzantium Triumphant* Julian Romane presents an in depth chronicle of the many wars waged by Nicephorus II Phocas his nephew and assassin John I Tzimiskes and the infamous Basil II Capturing the drama of battle as well as the strategic operations of each campaign Romane depicts the new energy and improved methods of warfare developed in the late tenth and early eleventh century He also sheds light on the court intrigues and political skullduggery of the period These emperors were at war on all fronts fighting for survival and dominance against enemies including the Arab caliphates Bulgars and the Holy Roman Empire not to mention dealing with civil wars and rebellions Romane s careful research drawing particularly on the evidence of Byzantine military manuals allows him to produce a gripping narrative underpinned by a detailed understanding of the Byzantine tactics organization training and doctrine

Roman Identity from the Arab Conquests to the Triumph of Orthodoxy Douglas Whalin, 2021-01-22 This book asks how the inhabitants and neighbours of the Eastern Roman Empire understand their identity as Romans in the centuries following the emergence of Islam as a world religion Its answers lie in exploring the nature of change and continuity of social structures self representation and boundaries as markers of belonging to the Roman group in the period from circa AD 650 to 850 Early medieval Romanness was integral to the Roman imperial project its local utility as an identifier was shaped by a given community s relationship with Constantinople the capital of the Roman state This volume argues that there was fundamental continuity of Roman identity from Late Antiquity through these centuries into later periods Many transformations which are ascribed to the Romans of this era have been subjectively assigned by outsiders separated by time or space and are not born out by the sources This finding dovetails with other recent historical works re evaluating the early medieval Eastern Roman polity and its ideology

Political Culture in the Latin West, Byzantium and the Islamic World, c.700-c.1500 Catherine Holmes, Jonathan Shepard, Jo van Steenbergen, Björn Weiler, 2021-08-26 This comparative study explores three key cultural and political spheres the Latin west Byzantium and the Islamic world from Central Asia to the Atlantic roughly from the emergence of Islam to the fall of Constantinople These spheres drew on a shared pool of late antique Mediterranean culture philosophy and science and they had monotheism and historical antecedents in common Yet where exactly political and spiritual power lay and how it was exercised differed This book focuses on power dynamics and resource allocation among

ruling elites the legitimisation of power and property with the aid of religion and on rulers interactions with local elites and societies Offering the reader route maps towards navigating each sphere and grasping the fundamentals of its political culture this set of parallel studies offers a timely and much needed framework for comparing the societies surrounding the medieval Mediterranean *Rural Lives and Landscapes in Late Byzantium* Sharon E. J. Gerstel, 2015-07-15 This is the first

book to examine the late Byzantine village through written archaeological and painted sources **The Routledge Handbook on Identity in Byzantium** Michael Stewart, David Parnell, Conor Whately, 2022-03-30 This volume is the first to focus solely on how specific individuals and groups in Byzantium and its borderlands were defined and distinguished from other individuals and groups from the mid fourth to the close of the fifteenth century It gathers chapters from both established and emerging scholars from a wide range of disciplines across history art archaeology and religion to provide an accurate representation of the state of the field both now and in its immediate future The handbook is divided into four subtopics that examine concepts of group and specific individual identity which have been chosen to provide methodologically sophisticated and multidisciplinary perspectives on specific categories of group and individual identity The topics are Imperial Identities Romanitas in the Late Antique Mediterranean Macro and Micro Identities Religious Regional and Ethnic Identities and Internal Others and Gendered Identities Literature Memory and Self in Early and Middle Byzantium While no single volume could ever provide a comprehensive vision of identities on the vast variety of peoples within Byzantium over nearly a millennium of its history this handbook represents a milestone in offering a survey of the vibrant surge of scholarship examining the numerous and oft times fluctuating codes of identity that shaped and transformed Byzantium and its neighbours during the empire's long life **Women and Gender in Medieval Europe** Margaret Schaus, 2006 Publisher description
