architects of the religious right have become household names Jerry Falwell Pat Robertson James Dobson They have used their massively influential platforms to build the profiles of evangelical politicians like Mike Huckabee Rick Perry and Ted Cruz Now a new generation of leaders like Jerry Falwell Jr and Robert Jeffress enjoys unprecedented access to the Trump White House What all these leaders share besides their faith is their gender Men dominate the standard narrative of the rise of the religious right Yet during the 1970s and 1980s nationally prominent evangelical women played essential roles in shaping the priorities of the movement and mobilizing its supporters In particular they helped to formulate articulate and defend the traditionalist politics of gender and family that in turn made it easy to downplay the importance of their leadership roles In *This Is Our Message* Emily Johnson begins by examining the lives and work of four well known women evangelical marriage advice author Marabel Morgan singer and anti gay rights activist Anita Bryant author and political lobbyist Beverly LaHaye and televangelist Tammy Faye Bakker The book explores their impact on the rise of the New Christian Right and on the development of the evangelical subculture which is a key channel for injecting conservative political ideas into purportedly apolitical spaces Johnson then highlights the ongoing significance of this history through an analysis of Sarah Palin s vice presidential candidacy in 2008 and Michele Bachmann s presidential bid in 2012 These campaigns were made possible by the legacies of an earlier generation of conservative evangelical women who continue to impact our national conversations about gender family and sex

Rebirthing a Nation Wendy K. Z. Anderson, 2021-04-22

Although US history is marred by institutionalized racism and sexism postracial and postfeminist attitudes drive our polarized politics Violence against people of color transgender and gay people and women soar upon the backdrop of Donald Trump Tea Party affiliates alt right members like Richard Spencer and right wing political commentators like Milo Yiannopoulos who defend their racist and sexist commentary through legalistic claims of freedom of speech While more institutions recognize the volatility of these white men s speech few notice or have thoughtfully considered the role of white nationalist alt right and conservative white women s messages that organizationally preserve white supremacy In *Rebirthing a Nation* White Women Identity Politics and the Internet author Wendy K Z Anderson details how white nationalist and alt right women refine racist rhetoric and web design as a means of protection and simultaneous instantiation of white supremacy which conservative political actors including Sarah Palin Donald Trump Kellyanne Conway Sarah Huckabee Sanders and Ivanka Trump have amplified through transnational politics By validating racial fears and political divisiveness through coded white identity politics postfeminist and motherhood discourse functions as a colorblind gilded cage *Rebirthing a Nation* reveals how white nationalist women utilize colorblind racism within digital space exposing how a postfeminist framework becomes fodder for conservative white women s political speech to preserve institutional white supremacy

Understanding the Populist Shift Gabriella Lazaridis, Giovanna Campani, 2016-11-10 During the European elections of 2014 one of the main issues raised by the media was the electoral performance of so called populist parties The electorate confirmed its deep dissatisfaction with mainstream political parties voting for far right parties in parliamentary elections in Northern Europe Austria Denmark Sweden Eastern Europe Hungary where the deeply anti Semitic Jobbik party gained votes and in France where the French National Front won about a quarter of the vote while in the Southern European countries battered by austerity policies it was the radical right and left in Greece Golden Dawn and Syriza and the radical left in Spain Podemos that obtained excellent scores This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern Finland Western Austria Denmark France the UK Southern Greece Italy and Central Eastern Europe Slovenia Bulgaria since the 1990s Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism this book will be of interest to students and scholars researching right wing politics as well as European politics more generally

Catholic Women and Mexican Politics, 1750-1940 Margaret Chowning, 2024-11-05 Historians have long looked to networks of elite liberal and anti clerical men as the driving forces in Mexican history over the course of the long nineteenth century This traditional view writes Margaret Chowning cannot account for the continued power of the Catholic Church in Mexico which has withstood extensive and sustained political opposition for over a century How then must the scholarly consensus change to better reflect Mexico s history In this book Chowning shows that the church repeatedly emerged as a political player even when liberals won elections primarily because of the overlooked importance of women in politics Catholic women kept the church alive through the wars of independence and made it into the political force it continues to be in present day Mexico Using archival sources from ten Mexican states the book shows how women who were denied the vote and expected to stay out of the political sphere nevertheless forged their own form of citizenship through the church After Mexico gained its independence in 1821 women self consciously developed new lay associations and assumed leadership roles within them These new associations not only kept Catholicism vibrant they also pushed women into public sphere Methodologically this book shows the value of

exploring gender in political and religious history and reveals the equal importance of informal political power to more formal activities like voting

Mainstreaming the Headscarf Esra Özcan, 2019-11-14 With the rise to power of the Justice and Development Party AKP in the early 2000s in Turkey the headscarf that used be looked down upon by the secular middle and upper classes moved to the mainstream It has since become a symbol of desirable womanhood This development has pushed Turkey s secular feminists who had been critical of the headscarf ban to the margins This book is the first to trace this new phase of conservative gender politics by examining the images of women s headscarves across secular and Islamic news media Based on the analysis of photographs and the columns of conservative women journalists the book sheds light on how the AKP is transforming the image of womanhood It also identifies the rise of the conservative female journalist as an important phenomenon in the country Esra zcan problematizes designators such as Islamist women or Islamic feminists and instead aims to understand these women in terms of their commitment to right wing activism and politics which has so far been ignored An original contribution to feminist scholarship on Muslim women this book draws on the unique perspectives of Visual Culture and Communication Studies

Gendering Antifascism Sandra McGee Deutsch, 2023-09-05 Argentine women s long resistance to extreme rightists tyranny and militarism culminated in the Junta de la Victoria or Victory Board a group that organized in the aftermath of the German invasion of the Soviet Union in defiance of the neutralist and Axis leaning government in Argentina A sewing and knitting group that provided garments and supplies for the Allied armies in World War II the Junta de la Victoria was a politically minded association that mobilized women in the fight against fascism Without explicitly characterizing itself as feminist the organization promoted women s political rights and visibility and attracted forty five thousand members The Junta ushered diverse constituencies of Argentine women into political involvement in an unprecedented experiment in pluralism coalition building and political struggle Sandra McGee Deutsch uses this internationally minded but local group to examine larger questions surrounding the global conflict between democracy and fascism

Political Belief in France, 1927-1945 Caroline Campbell, 2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization s fearsome reputation as a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious

backgrounds into the dominant national community Croix de Feu PSF women promoted their social agenda as a religious and patriotic duty a reflection of the individual's responsibility to make personal sacrifices on behalf of their vision for France's Christian civilization The Croix de Feu PSF's ethno-religious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti-Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism *Political Belief in France 1927-1945* contributes to the fields of French history gender studies the history of fascism and the history of empire

Reagan's Gun-Toting Nuns Theresa Keeley, 2020-09-15 In *Reagan's Gun Toting Nuns* Theresa Keeley analyzes the role of intra Catholic conflict within the framework of U S foreign policy formulation and execution during the Reagan administration. She challenges the preponderance of scholarship on the administration that stresses the influence of evangelical Protestants on foreign policy toward Latin America. Especially in the case of U S engagement in El Salvador and Nicaragua, Keeley argues the bitter debate between U S and Central American Catholics over the direction of the Catholic Church shaped President Reagan's foreign policy. The flash point for these intra Catholic disputes was the December 1980 political murder of four American Catholic missionaries in El Salvador. Liberal Catholics described nuns and priests in Central America who worked to combat structural inequality as human rights advocates living out the Gospel's spirit. Conservative Catholics saw them as agents of class conflict who furthered the so-called Gospel according to Karl Marx. The debate was an old one among Catholics but as *Reagan's Gun Toting Nuns* contends, it intensified as conservative anticommunist Catholics played instrumental roles in crafting U S policy to fund the Salvadoran government and the Nicaraguan Contras. *Reagan's Gun Toting Nuns* describes the religious actors as human rights advocates and against prevailing understandings of the fundamentally secular activism related to human rights. It highlights religion-inspired activism during the Cold War. In charting the rightward development of American Catholicism, Keeley provides a new chapter in the history of U S diplomacy and shows how domestic issues such as contraception and abortion joined with foreign policy matters to shift Catholic laity toward Republican principles at home and abroad.
