Women Peace And Security An International Perspective:

Women, Peace, and Security Shamim Aleem, 2013-09-12 God created man and woman equally It is not that woman is inferior to man Man and woman differ in physique woman is delicate man is physically strong and this gave an upper hand to man Might is Right was always the order of the day It led to the open violence against woman Woman could not raise her voice could not protest for the sake of the fear of being thrown out of the house It was the feeling of insecurity that compelled woman for subordination Man wanted to maintain the status quo and was not willing to change in favor of woman It took ages to convince that to deny woman the rights she deserves is not only the violation of Human Rights but the main cause of world poverty The U N O and other international agencies have been trying hard to pass on this message to the community at large Most of the countries have agreed to commit themselves to this new philosophy But there is a big gap between preaching and practice It is easy to amend the laws but difficult to bring an attitudinal change This is the challenge the world is facing today Our efforts should be to bring this change as smoothly as possible Woman has to come forward to take up this challenge But she has to be very calculative in her struggle for achieving these objectives without disturbing the peace

Davies, Jacqui True, 2019 Passed in 2000 the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women Peace and Security WPS agenda This agenda is an international policy framework addressing the gender specific impacts of conflict on women and girls including protection against sexual and gender based violence promotion of women's participation in peace and security processes and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies after conflict The handbook addresses the concepts and early history behind WPS international institutions involved with the WPS agenda the implementation of WPS in conflict prevention and connections between WPS and other UN resolutions and agendas Women, Peace and Security, 2015 Wars kill and destroy lives of women girls men and boys There are particular gendered dimensions to violence that have a disproportionate and different impact on women and men Gender based violence GBV 1 such as sexual violence and domestic violence tend to increase during and after war At the same time postconflict peace and state building can be an opportunity to change discriminatory gender roles and advance women's rights and gender equality This brief gives an overview of the women peace and security agenda how it is positioned within the Swedish development cooperation and where the entry points are for Sida **Women, Peace and Security** Joan Johnson-Freese, 2018-11-08 This book offers an accessible overview of the multiple interdependent issues related to the Women Peace and Security WPS global agenda The first introductory overview of the WPS agenda as articulated in multiple national and international resolutions statements and initiatives the book provides a link between the general public and security practitioners to an important but still largely unknown set of global

objectives regarding gender equality and long term peace and stability Within the context of the changing nature of warfare and through consideration of empirical evidence the volume examines the definitions theoretical underpinnings and methodological challenges associated with WPS It then discusses with more specificity violence against women women civilians in war the role of women in peacemaking women in the military and in development and women politicians The book concludes with a look to the future and number of action items from the macro to the micro level While challenges and opportunities related to the WPS agenda are global US policy action and inaction related to WPS and gender equality are provided as examples of what politically needs to be done has been done and obstacles to WPS furtherance potentially to be encountered by all countries This book will be of much interest to students of peace studies security studies gender studies and IR

Women, Peace and Security in Nepal Åshild Kolås, 2017-07-06 This book sheds new light on the important but diverse roles of women in the civil war in Nepal 1996 2006 and the post conflict reconstruction period 2006 2016 Engaging critically with the women peace and security literature Women Peace and Security in Nepal questions the potential of peace processes to become a window of opportunity for women s empowerment while insisting on the vital importance of a gender perspective in the study of conflict security and peace After the signing of the 2006 Comprehensive Peace Accord Nepal experienced a huge leap in women s political representation in the subsequent Constituent Assembly often portrayed as a landmark victory for women s empowerment in the context of South Asia Nepali women s mobilization played a key role in this success story though similar mobilization has failed to produce the same outcomes elsewhere in South Asia How does Nepal differ from the other cases Presenting studies of war time and post conflict Nepal through a gender lens this book critically assesses the argument that war and peacebuilding can add momentum to the transformation of gender roles Contributing new knowledge on women s disempowerment and empowerment in conflict and peacebuilding the book also offers insights for contemporary debate on gender and political change in conflict affected societies This book will be of great interest to students of peace and conflict studies gender security South Asia and international relations in general as well as policy makers and NGOs

Responsibility to Protect and Women, Peace and Security Sara E. Davies, Zim Nwokora, Eli Stamnes, Sarah Teitt, 2013-08-08 In Responsibility to Protect and Women Peace and Security Aligning the Protection Agendas editors Davies Nwokora Stamnes and Teitt address the intersections of the Responsibility to Protect R2P principle and the Women Peace and Security WPS agenda Widespread or systematic sexual or gender based violence is a war crime a crime against humanity and an act of genocide all of which are clearly addressed in the R2P principle The protection of those at risk of widespread sexual violence is therefore not only relative to the Women Peace and Security WPS agenda but a fundamental sovereign obligation for all states as part of their commitment to R2P Contributions from policy makers and academics consider both the merits and the utility of aligning the protection agendas of R2P and WPS Ultimately a number of actionable recommendations are made concerning a unification of the agendas to best support the global empowerment of

women and prevention of mass atrocities Peacebuilding Elisabeth Porter, 2007-09-18 This volume elucidates some key ideas and practices underlying women's peacebuilding highlighting positive examples of their contribution to peacebuilding in conflict zones and in societies pursuing transitional justice *Governing the Feminist Peace* Paul C. Kirby, Laura Shepherd, 2024-04-02 The Women Peace and Security WPS agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance Its power is visible in two decades of United Nations resolutions national action plans regional initiatives and countless activist academic and philanthropic projects Yet despite this vitality it is haunted by failure as a lack of political will and stubborn patriarchal resistance frustrate its promise This book offers a groundbreaking critical account of the WPS agenda exploring its evolution in relation to the wider politics of global governance and feminism Paul Kirby and Laura J Shepherd argue that WPS is not a settled cohesive policy but a field in flux defined and disrupted by a growing number of national supranational subnational and transnational agents who in turn act on an expanding catalogue of threats from climate change to homophobia challenging traditional boundaries of peace and security Kirby and Shepherd reconceptualize WPS as a policy ecosystem tracing interaction and contestation around the agenda across levels from the UN Security Council to military alliances to feminist activists They combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy statecraft the politics of indigeneity counterinsurgency antimilitarism human rights and the arms trade across the first twenty years of WPS Far reaching and incisive *Governing the Feminist Peace* poses a provocative question What if we abandoned the idea of the WPS agenda as a unified political project altogether **Gender, Peace and Security** Louise Olsson, Theodora-Ismene Gizelis, 2015-04-24 This volume explores the implementation of key gender policies in international peace and security following the adoption of UN Security Council resolution 1325 in October 2000 the first thematic resolution on Women Peace and Security How should we understand women's participation in peace processes and in peace operations And what forms of gendered security dynamics are present in armed conflict and international interventions These questions represent central themes of protection and participation that the international community has to address in order to implement UNSCR 1325 Thus far the implementation has often employed varying approaches related to gender mainstreaming a third theme of the resolution Yet there is a dearth of systematic data which until recently has restricted the ability of researchers to evaluate the progress in implementation and impact of UNSCR 1325 By engaging with both empirics and critical theory the authors of this edited volume make important contributions to the gender peace and security agenda They identify some of the problems of implementing UNSC 1325 and offer a sobering assessment of progress of implementation and insights into how to advance our understanding through systematic research Many of the chapters are focused on operational aspects of UNSCR 1325 but all also engage with the theoretical underpinnings of UNSCR 1325 to bring forth central debates on more fundamental challenges to the development of knowledge in the fields of gender peace and security This book will be of much

interest to students of gender studies peace and conflict studies security studies and IR in general *Gender, Conflict, Peace, and UNSC Resolution 1325* Seema Shekhawat, 2018-01-15 There is an increasing amount of literature on various aspects of United Nations Security Council Resolution 1325 While appreciating this scholarship this volume highlights some of the omissions and concerns to make a quality addition to the ongoing discourse on the intersection of gender with peace and security with a focus on 1325 It aims at a reality check of the impressive to do list as the seventeen years since the Resolution passed provide an occasion to pause and ponder over the gap between the aspirations and the reality the ideal and the practice the promises and the action the euphoria and the despair The volume compiles carefully selected essays woven around Resolution 1325 to tease out the intricacies within both the Resolution and its implementation Through a cocktail of well known and some lesser known case studies the volume addresses complicated realities with the intention of impacting policy making and the academic fields of gender peace and security The volume emphasizes the significance of transforming formal peace making processes and making them gender inclusive and gender sensitive by critically examining some omissions in the challenges that the Resolution implementation confronts The major question the volume seeks to address is this where are women positioned in the formal peace making seventeen years after the adoption of Resolution 1325 *Women, War, Violence and Learning* Shahrzad Mojab, 2013-09-13 This anthology provides fresh theorization of gendered dimensions of learning war and violence with a view to offering new insights on the impact of violence on women's learning and well being The collection is an important contribution to emerging interdisciplinary approaches to the role and effectiveness of civil society especially women's NGOs working in war and post conflict zones and to the relationship between neoliberal global feminist projects and the re emergence of colonial and imperial feminisms This collection is also an exploration of the plausibility of current peace education strategies augmenting the political and leadership role of women and their civic engagement This collection is designed to create a space for conversation across disciplines on such issues as how to advance our conceptualization of gender related education and conflict how to provide empirically based case studies and transnational analyses that improves our understanding of the impact of war and violence on women's learning and how to contribute to national and international policy analyses to improve education for women and girls through related policy reforms or humanitarian aid programs in post war reconstruction efforts This book was published as a special issue in the International Journal of Lifelong Education **Theories of International Relations and Northern Ireland** Timothy J. White, 2017-01-29 This book uses the case of Northern Ireland to evaluate theoretical approaches in international relations It investigates the process of negotiation that led to the signing of the Good Friday or Belfast Agreement and the continuing challenges to peace reconciliation in Northern Ireland Incorporating the work of leading scholars it explores a wide range of topics including the function of deception in promoting peace the question of partition and how it was reimagined by nationalists such as John Hume and how the decommissioning process led to a role in internal policing for paramilitaries The

influence of outside actors notably the United States and the European Union is also considered along with the involvement of the Catholic Church and the marginalization of women This book will be important for academics interested in theories of international relations and to a wider public interested in understanding the Northern Ireland peace process *The Women, Peace and Security Agenda* Laura J. Shepherd, 2021-09-26 The Women Peace and Security WPS agenda is comprised of the policies protocols and practices enacted by a wide range of actors inspired by or under the auspices of the UN Security Council resolutions adopted under the title of women and peace and security Since the adoption of the first resolution in 2000 resolution 1325 there have been nine others each of which elaborates or extends aspects of the original resolution This book provides a forward looking collection of scholarship on the WPS agenda in two halves The first half of the book presents a series of essays that each provide a glimpse of the rich and insightful research on WPS being undertaken in and about different contexts to demonstrate the importance of centring the local as a site of knowledge production in the WPS agenda The essays presented in the second half of the book also engage questions of knowledge production documenting the exploratory methods in use in WPS scholarship and highlighting those topics engaged at the hinterlands of what is a broad field topics that gesture at the future of research in this area The chapters in this book were originally published as special issues of the International Feminist Journal of Politics *Gender and Peacebuilding* Claire Duncanson, 2016-03-11 Gender and Peacebuilding offers a comprehensive and up to date analysis of how and why gender matters in contemporary peace operations It draws on a wide range of examples from across the world to offer a nuanced account of the UNs attempts to mainstream gender into peace operations via Security Council Resolution 1325 and assesses the successes and failures of this effort to enhance the participation and protection of women and girls in peacebuilding operations In presenting this mixed picture of progress and ongoing challenges the book argues for bold steps forward that will enable peacebuilding to contest the current neoliberal order address structural inequalities and bring about feminist visions of peace and security It is only by focusing attention on the economic empowerment of women and its ability to temper the dangers of neo liberalism in post conflict contexts that feminists can hope to achieve these aims Timely critical and engaged this book provides an invaluable guide to the issues for students of peace and conflict studies and sets the agenda for future scholarship and advocacy *Gendered Agency in War and Peace* Maria O'Reilly, 2017-11-03 This book examines how gendered agency emerges in peacebuilding contexts It develops a feminist critique of the international peacebuilding interventions through a study of transitional justice policies and practices implemented in Bosnia Herzegovina and local activists responses to official discourses surrounding them Extending Nancy Fraser s tripartite model of justice to peacebuilding contexts the book also advances notions of recognition redistribution and representation as crucial components of gender just peace It argues that recognising women as victims and survivors of conflict achieving a gender equitable distribution of material and symbolic resources and enabling women to participate as agents of transitional justice processes are all essential for transforming the

structural inequalities that enable gender violence and discrimination to materialise before during and after conflict This study establishes a new avenue of analysis for understanding responses and resistances to international peacebuilding by offering a sustained engagement with feminist social and political theory

Rethinking National Action Plans on Women, Peace and Security Sahla Aroussi, 2017-05-15 At the time of its adoption in October 2000 United Nations Security Council resolution 1325 on Women Peace and Security WPS was hailed as a turning point for women involved in conflicts peacemaking peacekeeping and post conflict reconstruction Resolution 1325 required all efforts aimed at resolving conflicts and building peace to be inclusive gender sensitive and transformative for women In recent years National Action Plans NAPs on WPS have become one of the most commonly used tools by states to channel assess and monitor the implementation of resolution 1325 and other UN WPS resolutions This book presents an edited version of the proceedings of the NATO Advanced Research Workshop ARW on National Action Plans on Women Peace and Security held in Dublin Ireland in May 2016 The workshop brought together representatives from various states as well as academics and members of civil society and international organizations to discuss their experiences with NAPs and to critically reflect on the role of NAPs in supporting the implementation by states of the WPS framework The aim of this book is to disseminate the key arguments findings and recommendations which emerged from the discussions held at the ARW It includes a summary report which sets out key arguments and recommendations and offers a number of key papers from the ARW with the intention of contributing to academic and policy debates concerning gender and armed conflict and more particularly the WPS framework

New Directions in Women, Peace and Security Soumita Basu, Paul C. Kirby, Laura J. Shepherd, 2020-06-12 What does gender equality mean for peace justice and security At the turn of the 21st century feminist advocates persuaded the United Nations Security Council to adopt a resolution that drew attention to this question at the highest levels of international policy deliberations Today the Women Peace and Security agenda is a complex field relevant to every conceivable dimension of war and peace This groundbreaking book engages vexed and vexing questions about the future of the agenda from the legacies of coloniality to the prospects of international law and from the implications of the global arms trade to the impact of climate change It balances analysis of emerging trends with specially commissioned reflections from those at the forefront of policy and practice

Women, Peace, and Security in Afghanistan Farkhondeh Akbari, Jacqui True, 2025-11-15 Women Peace and Security in Afghanistan analyses the opportunities and limitations of the WPS agenda in the context of the world's worst erasure of women's rights Afghan women have long resisted war violence and political exclusion yet their struggles remain largely overlooked in global peace and security debates This book examines how Afghan women's activism has reshaped the fight for rights and freedom Through feminist pragmatist grounded normative theorising Afghan women's diverse voices strategies and lived realities are made visible across war peace and politics From international military intervention and peacemaking deals to current engagement and non engagement with the Taliban this book is an urgent call to recognise and

support women's agency in the face of oppression Narrating the Women, Peace and Security Agenda Laura J. Shepherd, 2021

The narrative turn has recently influenced theories, methods, and research design within the field of international relations. Its goal is in part to show how stories about international events and issues emerge and develop and how these stories influence the uptake and limitations of global policy solutions around the world. Through the lens of narrative, this book examines the Women, Peace and Security (WPS) agenda adopted by the United Nations Security Council twenty years ago. The agenda seeks to increase the participation of women in conflict prevention efforts and to protect the rights of women during conflict and peacebuilding. Those involved in the creation of the WPS agenda, including its strategies, guidelines, and protocols, tend to assume that implementation is the most critical element of it. But what can the stories about the agenda's emergence tell us about its limits and possibilities? Laura J. Shepherd examines WPS as a policy agenda that has been realized in and through the stories that have been told about it, focusing on the world of WPS work at the United Nations Headquarters in New York. She argues that to understand the implementation of the agenda, we need to also understand the narration of the agenda's beginnings, its ongoing unfolding, and its plural futures. These stories outline the agenda's priorities and delimit its possibilities as well as communicate and constitute its triumphs and disasters. As the book shows, much energy and resources are expended in efforts to reduce or resolve the agenda to a singular essential thing with singular essential meaning. There is no true WPS agenda that practitioners, activists, and policymakers can apprehend and use as their guide; there is only a messy and contested space for political interventions of different kinds. Shepherd shows that the narratives of the WPS agenda incorporate plural logics but that this plurality cannot and should not be used as an alibi for limited engagement or strategic inaction. Those seeking to realize the WPS agenda might need to live with the irreconcilable, the irresolvable, and the ambiguous.
