**Masculinity, Media, and the American Presidency** Meredith Conroy, 2016-04-08 This book analyzes the way media describe presidential candidates character and the degree to which this discourse maintains a preference for masculinity in our politics using content analysis of major print new media outlets *Women, Power, and Politics* Lori Cox

Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U.S. politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics **Sex and Gender in the 2016**

**Presidential Election** Caroline Heldman, Meredith Conroy, Alissa R. Ackerman, 2018-09-07 In order to understand the motivations for and implications of Hillary Clinton's historic run for the White House and her subsequent defeat the authors explore sexism and gender bias in U.S. political and social culture While there is some indication that overt sexism toward women in politics is declining whether this is true for women who run for the highest office in American politics remains relatively unknown Hillary Clinton's historic run as the 2016 Democratic nominee however allows scholars and journalists to contextualize decades of scholarship on sex gender and the American presidency In *Sex and Gender in the 2016 Presidential Election* the authors all experts on gender in politics analyze the nature of gender in public opinion media coverage social media and culture during the 2016 presidential election They assess whether conventional expectations and theories hold up in today's sociopolitical climate Moreover they consider how Clinton's foray into relatively uncharted territory might redirect

the political field and its implications for women with political ambitions going forward **Women, Language and Politics**

Sylvia Shaw, 2020-05-28 Investigates the underrepresentation of women in politics by examining how language use constructs and maintains gender inequalities in political institutions Gender and Political Marketing in the United States and the 2016 Presidential Election Minita Sanghvi, 2018-05-22 This book focuses on the unique challenges women in politics face in the United States based on their gender It also focuses on issues of intersectionality in political marketing including race age weight sexual orientation gender identity and gender expression From a theoretical perspective this book facilitates an investigation of the interplay of gender dynamics and power structures within political marketing Focusing on women in the United States of both parties at various levels in politics it examines both historical data and contemporary examples of female politicians and their campaigns Using qualitative research methods and taking a feminist approach to data collection and analysis this book features primary source interviews with 15 politicians including a Governor Senator two Congresswomen and several state and local legislators It also incorporates interviews with 19 political consultants PAC executives aides political party officials and members of the media Cultural Sexism Heather Savigny, 2020-06-24 How does gendered power work How does it circulate How does it become embedded And most importantly how can we challenge it Heather Savigny highlights five key traits of cultural sexism violence silencing disciplining meritocracy and masculinity prevalent across the media entertainment and cultural industries that keep sexist values firmly within popular consciousness She traces the development of key feminist thinkers before demonstrating how the normalization of misogyny in popular media culture news and politics perpetuates patriarchal values within our everyday social and cultural landscape She argues that we need to understand why MeToo was necessary in the first place in order to bring about impactful lasting and meaningful change *The Intersection of Race and Gender in National Politics* Wanda Parham-Payne, 2016-11-21 The Intersection of Race and Gender in National Politics is an exploratory analysis that not only looks at the role black women have played in the national political arena but also examines the sociohistorical forces that have facilitated and or prevented the presence of black women in this arena most specifically in the White House The book utilizes refereed journal articles newspaper accounts semi structured interviews focus groups and secondary data analyses to identify and detail the individual and reciprocating impact of race and gender on black women in national politics Looking at the experiences of select black women in the national political arena challenges and opportunities for black women in the pursuit of the U S presidency are identified Special attention is paid to the media recent changes to the Voting Rights Act and campaign finance He Runs, She Runs Deborah Jordan Brooks, 2013-07-21 While there are far more women in public office today than in previous eras women are still vastly underrepresented in this area relative to men Conventional wisdom suggests that a key reason is because female candidates start out at a disadvantage with the public compared to male candidates and then face higher standards for their behavior and qualifications as they campaign He Runs She Runs is the first comprehensive study of

these dynamics and demonstrates that the conventional wisdom is wrong. With rich contextual background and a wealth of findings, Deborah Jordan Brooks examines whether various behaviors such as crying, acting tough, displays of anger, or knowledge gaffes by male and female political candidates are regarded differently by the public. Refuting the idea of double standards in campaigns, Brooks's overall analysis indicates that female candidates do not get penalized disproportionately for various behaviors nor do they face any double bind regarding femininity and toughness. Brooks also reveals that before campaigning begins, women do not start out at a disadvantage due to gender stereotypes. In fact, Brooks shows that people only make gendered assumptions about candidates who are new to politics, and those stereotypes benefit rather than hurt women candidates. Proving that it is no more challenging for female political candidates today to win over the public than it is for their male counterparts, *He Runs, She Runs* makes clear that we need to look beyond public attitudes to understand why more women are not in office. *The Global Hillary* Dinesh Sharma, 2016-06-17

Is there a linkage between smart power and Hillary Clinton's leadership style? Can she advance American leadership and women's development worldwide? *The Global Hillary* addresses these questions and many others. Bringing together two key aspects of Clinton's ongoing career—her advocacy for international women's rights and the mission to foster democratic development around the world—*The Global Hillary* critically analyzes Clinton's role as a transformative leader of global influence. Essays in this collection provide insight into Clinton's leadership style, particularly her use of American smart power in foreign policy, while examining her impact on the continuing worldwide struggle for women's rights. Using international perspectives on the historical and cultural contexts of Clinton's leadership, this book also looks toward the future of women's political leadership in the 21st century, with special attention to the prospect of electing a woman to the United States presidency. *Multicultural Journalism* Margaret E. Thompson, 2024-01-31

This book introduces a more collaborative and reflexive way of producing news that incorporates concepts of cultural identity and cultural positioning of both journalists and sources, using a feminist approach to inclusion of all voices and perspectives. This text proposes a feminist collaborative model of journalism that incorporates critical reflexivity, requiring journalists not only to be aware of their own cultural positionality but also that of their sources as a means of producing more authentic and balanced news coverage. The model is intended for use by journalists as well as journalism education programs to educate future journalists on how to effectively serve audiences with scrupulously investigated, reported, and crafted stories. Chapters explore journalism during the Obama and Trump years, current journalistic trends, and alternative media, and feature topics such as fake news, racism, sexism in news production and content, and immigration and media. Thompson addresses issues of power and privilege amongst journalists and marginalized groups and how these implicate power dynamics of journalism practice and reinforce social inequality, particularly relating to race and gender. This book is ideal for advanced undergraduate and graduate students of journalism and media studies, as well as scholars, journalists, and media practitioners. *The Oxford Handbook of Electoral Persuasion* Elizabeth Suhay, Bernard

Grofman, Alexander H. Trechsel, 2020-04-01 Elections are the means by which democratic nations determine their leaders and communication in the context of elections has the potential to shape people's beliefs, attitudes, and actions. Thus, electoral persuasion is one of the most important political processes in any nation that regularly holds elections. Moreover, electoral persuasion encompasses not only what happens in an election but also what happens before and after, involving candidates, parties, interest groups, the media, and the voters themselves. This volume surveys the vast political science literature on this subject, emphasizing contemporary research and topics and encouraging cross-fertilization among research strands. A global roster of authors provides a broad examination of electoral persuasion with international perspectives complementing deep coverage of U.S. politics. Major areas of coverage include general models of political persuasion, persuasion by parties, candidates, and outside groups, media influence, interpersonal influence, electoral persuasion across contexts, and empirical methodologies for understanding electoral persuasion. **Woman President** Kristina Horn Sheeler, Karrin Vasby Anderson, 2013-08-08

What elements of American political and rhetorical culture block the imagining and thus the electing of a woman as president? Examining both major party and third party campaigns by women, including the 2008 campaigns of Hillary Clinton and Sarah Palin, the authors of *Woman President: Confronting Postfeminist Political Culture* identify the factors that limit electoral possibilities for women. Pundits have been predicting women's political ascendancy for years. And yet, although the 2008 presidential campaign featured Hillary Clinton as an early frontrunner for the Democratic presidential nomination and Sarah Palin as the first female Republican vice presidential nominee, no woman has yet held either of the top two offices. The reasons for this are complex and varied, but the authors assert that the question certainly encompasses more than the shortcomings of women candidates or the demands of the particular political moment. Instead, the authors identify a pernicious backlash against women presidential candidates, one that is expressed in both political and popular culture. In *Woman President: Confronting Postfeminist Political Culture*, Kristina Horn Sheeler and Karrin Vasby Anderson provide a discussion of US presidentiality as a unique rhetorical role. Within that framework, they review women's historical and contemporary presidential bids, placing special emphasis on the 2008 campaign. They also consider how presidentiality is framed in candidate oratory, campaign journalism, film, and television, digital media, and political parody. *The Emerald Handbook of Appearance in the Workplace* Adelina Broadbridge, 2023-11-27

The first of its kind in addressing appearance and careers with varying approaches and across a diverse range of concepts, this Handbook provides an essential overview of the unspoken impact that personal presentation and assumptions can have on how employees are perceived and ultimately progress in their careers. Political Leadership Michael Foley, 2013-11 This authoritative volume analyses the practice and impact of political leadership, aiming to position it within a more integrated framework. *Political Campaign Communication* Larry Powell, Joseph Cowart, 2015-08-07

Political Campaign Communication: Inside and Out examines the ins and outs of political campaigning through the eyes of both an academic and a political consultant. This text takes a unique

approach to the subject of campaign communication by examining its intricacies from views both inside and outside of the process Unlike many texts in this field Political Campaign Communication Inside and Out takes a broad view of political campaigning discussing theories and principles along with topics such as political socialization the role of money ethics and critical events

**Women for President** Erika Falk, 2013-12-01 Newly updated to examine Hillary Clinton's formidable 2008 presidential campaign Women for President analyzes the gender bias the media has demonstrated in covering women candidates since the first woman ran for America's highest office in 1872 Tracing the campaigns of nine women who ran for president through 2008 Victoria Woodhull Belva Lockwood Margaret Chase Smith Shirley Chisholm Patricia Schroeder Lenora Fulani Elizabeth Dole Carol Moseley Braun and Hillary Clinton Erika Falk finds little progress in the fair treatment of women candidates The press portrays female candidates as unviable unnatural and incompetent and often ignores or belittles women instead of reporting their ideas and intent This thorough comparison of men's and women's campaigns reveals a worrisome trend of sexism in press coverage a trend that still persists today

*New Directions in Media and Politics* Travis N. Ridout, 2013-01-04 The field of media and politics is quickly changing as society transforms and new technologies develop continuously Academic research in the area is rapidly breaking new ground to keep pace with the prolific media developments This innovative up to date text moves beyond rudimentary concepts and definitions to consider the exciting scholarly research that addresses the monumental recent changes in the media system of the United States and the world This carefully crafted volume addresses the big questions that academic researchers are asking exposing students to the rigorous scholarship in the field but making it readily understandable by undergraduate students Each chapter starts with a big question about the impact of the news media provides an overview of the more general topic and then answers that question by appealing to the best most up to date research in the field The volume as a whole is held together by an exploration of the rapidly changing media environment and the influence these changes have on individual political behavior and governments as a whole New Directions in Media and Politics will make an ideal book for courses as it digs deeper into the questions that standard textbooks only hint at and presents scholarly evidence to support the arguments made
